English translation of letter No. / dated the July 1901 from Maharana Shri Mohandevji Rana, Raja Saheb of Dharampur, to the Agent to His Excellency the Governor at Surat.

I have the honour to forward the following account of the Administration of my State for the Samvat year 1957, *i. e.* the period commencing from the 28th June, 1900 and ending with the 16th June 1901 together with the appendices hereto attached.

CHAPTER I.—Political.

2. The relations of the State with the British Government and the neighbouring Native States continue cordial and there is nothing worth reporting under this head.

3. No visit was paid during the year either by His Excellency the Governor or any other Officer.

4. I did not perform any journey during the year, but I went once to Surat to pay a visit to the Agent and once to Bulsar to see the Hon. Mr. Lely, Commissioner, N. D. Besides the above I visited many of the State villages with a view to enquire about the condition of the people. The records of several of the Talatis were also examined.

Changes in the Administration.

5. During the year under report Mr. Fejalli Gulamalli, a retired Police Inspector of the British Government, was appointed to the Post of Police Superintendent for the better management of the Police, and Mr. Achratlal Mancharam has reverted to his original post of Abkari Officer. There was no other change among the officers.

6. The population of the State according to the Census of 1901 is as follows :—

Males.	Females.	Total.
51,470	48,963	1,00,433

CHAPTER II.—Administration of Land.

Revenue Survey.

7. Up to the end of the last year the traverse survey of 190 villages was completed and 26 having been traversed during the year under report the total number of such villages comes to 216. The traverse survey of 3 more villages was commenced but remained incomplete at the end of the year.

8. Including Inami and Dharmada, 177 villages were completely surveyed up to the end of the last year. 26 being surveyed during the current year, the number of villages completely surveyed comes to 203.

9. The area of the villages surveyed up to the end of the last year was 3,20,153 acres and 16 gunthas, and 44,432 acres and 33 gunthas of land having been surveyed during the year under report the total area comes to 3,64,586 acres and 9 gunthas. During the current year 44,432 acres and 33 gunthas of land were surveyed against 24,667 acres and 33 gunthas in the previous one showing an increase of 19,765 acres. It will be seen that the work done was satisfactory.

During the current year 14 men were employed in survey work against 9 in the last one.

10. As many men had died owing to the prevalence of diarrhœa and many had emigrated to other places in consequence of famine, great want of labourers was felt in the measuring work. Paid labourers had therefore to be called from neighbouring villages.

11. The total area of the surveyed villages is 3,64,586 acres and 9 gunthas, of which 1,11,234 acres of land are under cultivation. The land of the State being mostly covered over with hills and forests cannot be cultivated and remains waste. In the same way much land had remained waste as many men had gone away to other places and many had died owing to the prevalence of diarrhœa last year in many villages.

12. The ryots of the State are mostly Kaliparaj and being poor cannot properly carry on agricultural operations. The people inhabiting the hilly portion can take only one crop, the land being unfit for the winter crop. Timber is given free of charge to the cultivators by the State for implements of husbandry but the land being not good they cannot raise adequate crops.

13. The village and Huzur Accounts of the State are kept according to the forms prescribed by Mr. Hope and the Jamabandi work is done accordingly.

14. The State has been divided into four parts and each part placed under a Thandar. The thandars supervise the work of the talatis, inspect boundary marks and compare the ryots' receipt books. In short the whole of the revenue work is being done through them.

15. The Thandars perform the revenue work under the control and supervision of my Naib Dewan, Mr. Bhikhabhai Haribhai, whose services have been upon my request lent to me by Government.. His services have been invaluable to the State.

16. The Jamabandi for the current year was done by my Dewan.

17. During the year under report grain, of the value of nearly Rs. 48,000 (forty-eight thousand) was given to the cultivators for seeds and for their

maintenance. But the rice-seed being foreign and there being a failure of rain during the latter part of the year the crops of inferior kinds of rice in the "talat" portion mostly failed.

Boundary Dispute.

18. There was a boundary dispute between this State and the Peint Taluka which has now been settled, but the land in dispute has not yet been handed over.

Wards' Estates.

19. My younger brother Prabhatdevji and Kumar Chandradevji son of my deceased brother Haridevji being minors, their estates are under the management of the State. Bhai Shri Prabhatdevji has completed his studies in the Rajkot Rajkumar College, and Government has been kind enough to arrange to attach him to the Poona Horse Cavalry stationed at Neemuch.

20. As shown in the last year's report Kumar Chandradevji has been sent to Gondal Girassia College where he studies well.

21. The figures of receipts and expenditure of the minors' estates are as follows :—

No.	Name.	Age.	Place of birth.	Place of Education.	Balance at the beginning of the year.	Receipts.	Disbursement.	Balance at the end of the year.		Value of moveable property in hand.	Area of land under management.
								In cash.	In Government Securities.		
					Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs.		Ac. Gu.
1	Bhai Shri Prabhat-devji.	18	Dharampur.	Gondal. "	939 14 6	9,354 7 4	9,803 8 10	490 13 0	47,000	...	4,973—2
2	Kumar Shri Chandra-devji.	15			.....	7,743 0 1	7,570 3 3	172 12 10	28,000	...	3,632—0

CHAPTER III.—Protection.

Legislation.

22. The Civil and Criminal work of the State is being done on the principles of the British India Laws.

Military.

23. The strength of the military force during the year was the same as in the last year, *i. e.* 206. The details are as under :—

93 Police Constables.	6 Mounted Constables.
22 Abkari Constables.	3 Revenue Sowars.
36 Arabs.	6 Abkari Sowars.
2 Gunners.	38 Sowars of the Paga.
	Total ... 206.

24. The Police perform the Criminal work and guard the Jail, the Abkari police perform the work relating to Abkari, while the Arabs mount guard at the Darbari buildings.

25. Some of the Police and Abkari Constables have been provided with guns, some with swords, while some have been given batons only.

26. Including Officers, 102 men as detailed below have been entained in this State for the protection of the people. :—

Police.

1 Police Superintendent.	8 Head Constables.
1 Fouzdar.	85 Constables.
1 Naib Fouzdar.	6 Mounted Constables.

Total.... 102.

27. During the year under report the number of police was 102 against 103 in the previous one. Besides the above number 25 men were engaged as a temporary measure to make proper bandobast about the Chakariat Jagirdar of the village of Barpuda who at the instigation of several Makranis harasses the cultivators on that side and has not paid for several years past the annual palitpati due to the Darbar, and also to guard the property of the people of Dharampur town who had gone to live outside owing to the breaking out of the plague. Arrangements have been made to place a police post in the village of Barpuda.

28. The Naib Fouzdar has been stationed in a Thana and has been authorized to send up cases direct for trial. To keep proper order in the State, seven outposts have been kept and the men stationed therein take rounds in the villages and see that no offences occur. The police patels of villages also give good assistance in detecting offences and keep proper order in their respective villages.

29. Three of the Police constables were departmentally fined for neglect of duty, and one was dismissed the service for gross negligence. Four constables were given promotion for good work done.

30. Of the total number of Police and Abkari constables 35 are able to read and write, while 38 are under instruction.

31. The Police constables are given instructions in drill. At present one man who had learnt his drill in the British Police has been engaged, and he daily takes the drill of the policemen.

32. The number of offences that occurred during the current as well as the last year will be known from Appendices No. 7 and 9. During the year under report 334 offences had occurred against 280 in the previous one, showing an increase of 54.

Criminal Justice.

33. The number of cases of theft this year was 93 against 60 in the last year, showing an increase of 33. The number of Abkari offences this year was 176 against 126 in the preceding one, showing an increase of 50. 27 cases of hurt had occurred during the current year against 45 in the last one, which shows a decrease of 18. There was some increase and decrease in other kinds of offences but it is not worth noting.

34. Among serious offences there was one case of murder, one of culpable homicide and one of dacoity. The details are as under:—

35. One Dhakal Bhikhu of Khanda Bhavada having had a quarrel with Dhedka Lachhia of the same village, while pasturing their cattle the former shot the latter with an arrow. The accused being found guilty of the offence of murder was sentenced to undergo rigorous imprisonment for life.

In the case of culpable homicide the father of Kalu Bhikha of Bopi having died he suspected one Ladki of the same village of having killed his father by witchcraft. He therefore one day took the woman Ladki to his field for labour and there he severely beat her. She died of the effects of the beating. The accused Kalu Bhikha having been found guilty of the offence was sentenced to undergo rigorous imprisonment for life.

In the case of dacoity six persons of the Peint taluka one day forcibly entered the house of one Sajan Lahanu of Murdad, a State village, and after beating him severely took away Rs. 240 in cash and some other property such as clothing, &c. Three of the accused having been found guilty of the offence, and as they had remained for a long time in confinement pending their trial, they were each sentenced to suffer one year's rigorous imprisonment.

36. During the year under report Bhai Shri Buldevji had decided one case of theft, the property involved therein being worth Rs. 5. He disposes of Abkari cases though warned not to do so. He also does not behave in accordance with the orders of the State in several other matters, though written to many times. I will call him into my presence and give him proper advice. If he disobeys it I will arrange to deprive him of his powers.

37. The Ijardar of Barai disposed of seven cases during the year; four of hurt, two of theft and one of mischief. In the cases of theft and mischief he passed sentence of fine only on three persons, simply that he might not be obliged to send the prisoners to the State Jail. The period of the Ijardar's lease expires in 1905 when the villages will revert to the State. It is therefore not necessary to make further comments about him.

38. The Jagirdar of Behej also decides Abkari cases though he has no powers to try such offences. If he does so next year I will arrange to take away his magisterial powers.

39. All the 334 cases that were to be disposed of were decided during the year.

40. Of the 483 accused committed for trial 388 were convicted and sentenced, while 78 were either acquitted or discharged for want of sufficient evidence and 17 were discharged without being brought to trial on mutual understanding.

The percentage of convictions this year was 80·4 against 67·9 in the last year, which shows a good result.

41. The property stolen during the year amounted to Rs. 2,910-7-3 of which property worth Rs. 1,586-0-3 was recovered. The percentage of property recovered to that stolen during the year was 54·4 against 22·1 in the last one, which result is satisfactory.

Criminal Appeals.

42. During the year under report five appeals were filed in the Dewan's court all of which were disposed of during the year. There were no appeals in the Huzur court.

Extradition.

43. The relations of the State with the British Government and the neighbouring native States as regards extradition of offenders continue cordial. During the year under report the following number of offenders was made over by and to this State.

5	Prisoners	were	received	from	the Chief Constable of Chikli.
4	Do.	do.	do.	do.	Peint.
3	Do.	do.	do.	2nd Class Magistrate	of Peint.
6	Do.	do.	do.	Bansda State.	
18					
14	Prisoners	were	sent	to the	1st Class Magistrate of Nasik.
5	Do.	do.	do.	2nd Class Magistrate	of Bulsar.
4	Do.	do.	do.	do.	do. Pardi.
4	Do.	do.	do.	Superintendent of Police,	Thana.
1	Prisoner	was	sent	to the Raja Saheb of	Bansda.
28					

Jail.

44. The Jail Building is a pucca one where prisoners sentenced to imprisonment are kept. A room has been set apart in the Jail to keep the under trial prisoners. The police mount guard at the Jail.

45. During the year under report 379 prisoners were confined in the Jail against 263 in the previous one showing an increase of 116. The reason is that more offences had occurred during the year. The cost on account of Jail, including rations, amounted to Rs. 2,549 during the year against Rs. 2,250 in the preceding one.

46. The prisoners for short terms are mostly employed on roads, while those whose terms of imprisonment are longer are engaged in weaving cotton tapes, coir-mattings, ropes, &c.

47. The Dewan, the Naib Dewan and the Nyayadhish have been appointed visitors of the Jail. They visit it occasionally and see that everything goes on properly. They also hear the complaints of the prisoners if they have any.

Civil Justice.

48. There are four courts in the State for the administration of Civil justice. The number and value of the suits filed during the year as well as in the previous one will be known from the following table :—

Name of Court.	Suits for immovable property.				Money Suits.			
	1899-1900.		1900-1901.		1899-1900.		1900-1901.	
		Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
R. S. Dewan's Court.	...	.....	...	.....	...	.....	...	.....
Naib Dewan's ,,	...	.....	...	.....	...	.....	...	.....
Nyayadhish's Court...	...	.....	...	.....	30	2,720 5 9	36	12,822 12 11
Jagirdar of Behej ...	...	.....	...	.....	...	.....	...	.....

49. Suits were filed during the year, all of which were money suits covering the value of Rs. 12,822-12-11. Including the three preceding cases of the last year there were in all 39 suits to be disposed of. 33 were disposed of during the year and six remained pending at its close, two being filed at the end of the year, in two the summonses had remained unserved, and two remained undisposed of pending the examination of the accounts.

Civil appeals.

50. During the year under report Civil appeals as shown below were filed in the State Courts :—

Name of Court.	Opening balance.		Filed during		Total.		Disposed of during		Closing balance.		Value of appeals filed during		How disposed of.								Average duration.			
													Decisions confirmed.		Decisions reversed.		Decisions amended.		Cases remanded for trial.		Cases compromised and otherwise disposed of.		Year. Months.	Days. Year.	Months.	Days.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24		25

Dewan's Court	...	...	2	1	2	1	2	1	...	...	27-8-0	...	1	1	1	...	...	...	...	...	...	...	2	20	...	20

51. In the Huzur Court there were two appeals and in the Dewan's Court, one which were all disposed of during the year.

Applications for the execution of decrees.

52. During the year under report there were 33 applications for the execution of Civil Court's decrees. Including the two pending from the last year there were 35 applications to be disposed of. 29 were disposed of during the year and six remained pending, three pertaining to immovable property and three to moveable property.

53. The State Nyayadhish Mr. Harpatram Harmukhram has passed the pleaders' examination and possesses a good knowledge of laws. He is industrious and hardworking and performs the judicial work very well.

Registration.

54. The number of documents presented for registration during the current as well as the last year and their value will be known from the following table:—

Number	Description.	1899-1900.				1900-1901.			
		Number of documents.	Value of property.		Fees realized.	Number of documents.	Value of property.		Fees realized.
			Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
1	Mortgages	7	4,353 0 9		13 12 0	4	5,832 5 0		13 0 0
2	Sale-deeds	8	1,953 0 0		12 4 0	8	2,376 4 0		12 4 0
3	Wills	1	.....		2 0 0	...	.....		.....
4	Miscellaneous documents	...	.....		.....	1	425 4 0		2 0 0
5	Money	...	.....		.....	...	.....		.....
	Total ...	16	6,306 0 9		28 0 0	13	8,633 13 0		27 4 0
	Deduct expenditure...	...	.....		.....	...	.....		...
	Net profit	...	.....		28 0 0	...	.....		27 4 0

55. As shown above 13 documents were presented for registration during the current year against 16 in the preceding one and the fees realized during the year was Rs. 27-4-0 against Rs. 28 in the last one. One document being not according to rules was refused registration.

Municipality.

56. There is a Municipality in the town of Dharampur only. The State bears all the expenditure in connection with it. As the Kaliparaj ryots of the State build their huts in their own fields apart from each other, there appears no necessity for Municipalities elsewhere.

57. During the year under report the charges on account of establishment, lighting and watering roads, &c., amounted to Rs. 1,718 against Rs. 2,184 in the previous one.

58. To keep the roads of the town clear prisoners are employed in addition to the establishment maintained for the purpose.

CHAPTER IV.—Production and Distribution.

Agriculture, weather and crops.

59. The public health was good this year with the exception that plague broke out in the month of March. Also influenza spread in a mild form among the people, but no serious injury was caused. The current diseases were malaria, diarrhœa, dysentery, worms and cough, &c.

60. The rain-fall during the year measured 116 inches and 89 cents against 37 inches and 96 cents in the previous year, showing an increase of 78 inches and 93 cents. The average rain-fall of the past five years was 80 inches and 64 cents.

61. Although the rain-fall was better this year, it rained all at one time in the beginning of the season, and there being want of rain in the latter part the crops of inferior kinds of rice, pulse, &c., were not adequate.

62. The thermometer rose to 103° F. H. during the year, against 104 in the foregoing one.

Wages of labour and prices of food grains.

63. Owing to the effects of the last year's famine and the want of rain during the current year, the people were unable to get labour as usual. However many labourers were engaged in cutting the forests and removing the timber to Bulsar and other places. Also many persons obtained good labour in collecting mowra flowers for the purchase of which the State had given Rs. 16,000 (sixteen thousand). The State spent this year Rs 10,936 on relief-works which also gave employment to many labourers.

64. The rate of wages which had come down to 1½ annas last year, rose to 2 annas during the current year.

65. The following comparative statement will show the prices of food-grains during the current as well as the past year:—

Articles.	Rate per maund.	
	1899-1900.	1900-1901.
	Rs a. p.	Rs. a. p.
Bangalia Paddy	1 10 0	1 8 0
Kolum	1 10 0	1 7 0
Ghonsalia	1 14 0	1 4 0
Wankvel	1 12 0	1 2 0
Nagli	1 9 0	1 0 0
Kodra	1 8 0	1 0 0
Val	1 8 0	1 4 0
Toor...	1 14 0	2 2 0
Jowari	2 0 0	1. 5 0

66. The above statement will show that the prices of food-grains were lower during the current year than those in the last year. In the beginning the prices were rather high, but owing to the arrival of Rangoon rice in great quantities they came down. Owing to the limited yield of the toor crop its price continued high. If there had been no scarcity of rain during the latter part of the season the prices of grains would have been still lower. The use of Rangoon rice has increased among the people as it can be obtained at cheaper rates.

Forest.

67. Up to the end of the last year 55 forests measuring 153 square miles and 313 acres were reserved and 12 forests measuring 1,945 acres being reserved during the year under report the number of such forests comes to 67 and the area 156 square miles and 338 acres. As there remains a small difficult portion of forest to be reserved more work can not be done. However this year's work is better than the last year's.

Forest.

68. Lines have been made around the new reserves and boundary marks, 1,136 in number, have been raised.

69. The area of the forests brought under protection up to the end of the last year was 20,703 acres 15 gunthas and the traverse numbers of 12 villages measuring 4,626 acreas and 24 gunthas having been protected during the year under report.the total area comes to 25,329 acres and 39 gunthas.

70. Seeds of teak, blackwood, tanach, &c., were sown in different portions during the current year, and have germinated well.

71. The plantation of fruit-trees made in the village of Navapondha is in a thriving condition.

72. During the current year improvement cutting was made in 62 acres of forests and 1,731 useless trees were cut down. Some of this timber was sold and some was used by the State. It is hoped that by clearing the forest of such useless trees the future growth will be valuable.

73. During the year under report timber of the value of Rs. 3,540 was given to the cultivators and other people for house building purposes.

74. The forests of 3 villages were sold during the year. The present year being one of famine there is not much demand for timber, and consequently there has been no proper sale of forests. The contractors have not yet cut the forests sold to them.

The trees that were fit to be kept were reserved and others were sold after being numbered. The cutting is being done on the British system and the trees are cut quite level with the ground so that the future growth may be satisfactory.

75. During the year there were fires in the forests of 6 villages which covered 150 acres of land, but not much mischief was caused by them. The persons through whose neglect these fires took place were departmentally fined Rs 5 in the aggregate. There were less fires this year than in the previous one.

76. 25 offences against the forest rules occurred during the year against 30 in the last one. They were departmentally enquired into and the defaulters were fined Rs 44-3-6.

77. During the year under report Rs 28,732 were realized by the sale of timber, bamboos, &c. This item includes the sum of Rs 4,835 remaining over from the contractors last year. The amount realized last year being Rs. 28,633, there is an increase of Rs 99 in the revenue this year.

78. For the proper supervision of the forests, foresters, round-guards, beat- guards and one Inspector have been engaged. They take rounds in the forests and prevent thefts being committed in them.

79. The State Forest Officer, Mr. Runchordas Dharsi is a graduate of the Madras Agricultural College. He has been working as such in this State for the last 9 years. He is hard-working, energetic, and honest, and performs his work systematically.

80. Inspector Nandlal Bholanath has passed in forestry in the Poona College of Science. He also takes pains in performing his duties.

Trade and Manufacture.

81. There are no means of trade in this State. Only grain and Asindra and Timroo leaves for cheroots are usually exported during the season. As regards manufacture only bamboo baskets and mats are made.

Fairs.

82. In this State only one fair is held at Fatehpoor in honor of Bhairavnath which is generally attended by the Kaliparaj people.

Public Works.

Public and Relief Works.

83. During the year under report Rs. 12,607-10-1 were spent on public works, &c. against Rs. 12,358 in the preceding year, Rs. 11,257-14-1 were spent on original works, Rs. 832-12-0 in repairs and Rs. 517 on account of establishment. The details are as under :—

Rs.	4,188	1	2	were spent on tanks commenced last year as relief works.	
„	16	11	4	„	„ in digging kiaris in the village of Bilpudi.
„	1,422	14	7	„	„ on roads in earth work.
„	224	13	11	„	„ on wells and "*Virees*,"
„	3,609	10	2	„	„ on the chowras at Kharvel and Nanapondha.
„	1,795	10	11	„	„ on other miscellaneous buildings.

„	517	0	0	„	„ on establishment charges.
Rs.	12,607	10	1		

84. As the financial condition of the State is not good, more has not been spent on public works. Only the incomplete works such as wells, tanks, &c. commenced last year were completed during the year. Also the work that had remained incomplete in the village chowras was taken in hand and completed. The roof of the Sadder Distillery having fallen down had to be newly made. It was also found necessary to spend some money on the different roads. Besides these only repair works were done.

85. There are still many works of public utility to be done but these being years of famine, and the State being under the burden of debts they have not been taken in hand. I however hope to take them up when the years are prosperous.

CHAPTER V.—Revenue and Finance.

Revenue and Finance.

86. The figures of receipts and expenditure of the State will be known from the following table :—

Year.	Opening balance.	Receipts.	Expenditure.	Closing balance.
Samvat 1957.	Rs.	Rs.	Rs.	Rs.
A. D. 1900-1901 ...	44,220	3,84,176	4,25,428	2,968

Receipts.

87. During the year under report the land revenue amounted to Rs. 1,94,166 against Rs 2,01,412 in the previous one. Last year the figures of Jamabandi (*i. e.* the amount due) were shown, but the net revenue realized was Rs. 1,20,696. As the amount remaining due from the people was included in the receipt figures there appears an increase during that year. This year only the net receipt has been shown. Truly speaking there was this year an increase of Rs. 73,470 over the last year's revenue. Looking to the facts that there was scarcity of rain during the latter part of the season, that the yield of crops of the inferior kinds of rice was short and also to the fact that there was famine during the previous year, the realizations of this year were good.

88. Both the current and the previous years being hard, the Abkari revenue was not wholly realized. It is however hoped that during the next year the full revenue will be recovered. The Abkari revenue amounted during the year to Rs. 94,207 against Rs. 80,519 in the previous one.

89. There was an increase of Rs. 1,369 in the Chowth Jakat revenue, as the export of grain, &c. was more during the year than in the previous one.

90. There is no increase and decrease in the other kinds of revenue deserving mention.

Expenditure.

91. The figures of expenditure will be known from the statement given above. In several departments there are fluctuations. The pay of the establishment for the last month of the year having remained unpaid, and the Darbari and other expenses being curtailed there is a general decrease in the expenditure.

92. Some of the cultivators being unable to pay the land revenue owing to the prevalence of famine during the last year and the partial scarcity of rain during the current year, I remitted the sum of Rs. 74,020 from the last year's revenue as well as from other amounts which were not recoverable.

93. The last and the current years being not favourable and the State being in debt, I have not been able to spend more on public works. Details about this have been given under the head of "Public Works."

94. The prices of grain being high during the year there has been an increase in the Darbari and College expenses.

Debt.

95. The amount of debt at the end of the last year was Rs. 8,09,340. During the current year I paid Rs. 56,599 towards principal and Rs. 58,001 towards the interest, in all Rs. 1,14,600. I am very anxious to pay off the debt but the years not being prosperous proper revenue cannot be realized and consequently I cannot pay as much as I wish to do. If the coming year proves prosperous I will pay more towards the debt than I have paid this year.

Census.

96. During the current year the census of the State was taken, as was done in the whole of British India. The State officials and their subordinates performed the work entrusted to them carefully and in time. I was not obliged to incur heavy expenditure on it.

Opium and Abkari.

Opium.

97. The sale proceeds of the opium farm during the year realized Rs. 170 against Rs. 200 in the last one showing a decrease of Rs. 30. As there are not many opium eaters in the State its sale is limited and consequently the sale of the opium farm does not bring in much. During the year under report 100 lbs. and 19 tolas of opium were consumed against 166 lbs. and 1½ tolas in the preceding one.

The opium which the contractor purchases for sale is kept in the State Treasury and is issued to him in proportion to the consumption in one month. The Abkari and other officers of the State examine the accounts of the farmer occasionally.

Abkari.

98. There are three distilleries in this State, *viz.* at Fatehpur, Mandva and Dharampur. Liquor is distilled at these distilleries and sold by the Abkari contractor. The Abkari contract of the State has been given to Mr. Dinshaw Pestonji of Ahmedabad on his agreeing to pay Rs. 1,09,500 yearly, besides Rs. 1,500 on account of establishment charges and Rs. 720 on account of distillery rent.

99. There are 117 shops for the sale of liquor, but many of them which are situated on the frontier remain closed owing to the high rates at which liquor is sold therein.

100. During the year under report 1,00,405½ gallons of 25° and 60° U. P. liquor were consumed against 1,02,073 gallons in the preceding one. The Ijardar realized during the year Rs. 1,12,696-9-0 on account of duty and shop license fees against Rs. 1,08,878 in the last one.

101. There being famine during the last as well as the current year there was a falling off in the consumption of liquor, and the prices of mowra flowers being very high the Ijardar had to suffer loss. I therefore recovered from him Rs. 83,587-5-1 on account of duty, instead of the guaranteed amount, besides the sum of Rs. 2,220 for establishment charges, &c., thus making a total of Rs. 85,807-2-1. The Ijardar had a profit of Rs. 26,889-3-11 but it includes the cost of mowra flowers and other articles. It will thus be seen that I took from the Ijardar Rs. 25,913 less than the guaranteed amount. I have cancelled the former contract at his own request and have given him a fresh Ijara from the next year for one year only.

102. The total Abkari revenue including the sale proceeds of bhang, ganja, opium and European wines and the duty on toddy trees, amounted during the year to Rs. 94,207 against Rs. 80,519 in the previous one, showing an increase of Rs. 13,688.

103. The Abkari Contractor having had to suffer loss on account of liquor being sold at cheaper rates in the Bansda and Portuguese limits at the inner shops, he had also reduced the selling prices to one anna per seer at some of the inner shops. Still he did not derive much profit as the Kaliparaj people obtain their drink from the shops which are nearer to them.

104. Sufficient establishment has been engaged by the State as well as the farmer to prevent illicit distillation and to see that the people may not bring liquor from foreign limits.

105. The Abkari offences during the year numbered 176 against 126 in the previous year, showing an increase of 50.

Chowth Jakat.

106. During the year under report Rs. 5,185 were realized on account of Chowth Jakat against Rs. 3,816 in the last one, showing an increase of Rs. 1,369.

CHAPTER VI.—Vital Statistics and Medical Services.

Dispensary.

107. There is one Dispensary in this State and one travelling Doctor has been engaged who visits the State villages and distributes medicine to the villagers. The following table will show the number of indoor and outdoor patients treated and the number that recovered during the year:—

Dispensary.	Number of patients treated.		Results.				Expenditure.	Average daily attendance.
	Indoor.	Outdoor	Discharged.	Absent.	Died.	Remaining under treatment.		
Jubilee Dispensary ...	71	9,252	9,180	...	2	141	7,608	171·6

108. The above statement will show that the number of indoor patients during the year was 71 against 83 in the previous year showing a decrease of 12 patients. The number of outdoor patients was 9,252 against 12,519 in 1899-1900 showing a decrease of 3,267. The reason is that there was much sickness among the people last year owing to famine, so they came in numbers for medicine, but this year there being plague in the town they could not come to take medicine as usual.

109. Of the 9,323 patients treated during the year, 9,180 were discharged as cured, 2 died in the Dispensary and 141 remained under treatment at the close of the year.

110. As the travelling Doctor was put in charge of the poor and orphan houses he could not go out in the District. 842 of the inmates of these houses were given medicine during the year.

111. The number of lepers at the end of the last year was 26 and 18 being admitted during the current year the total comes to 44. Of these 15 died of diarrhœa and fearful leprosy, and 4 left the asylum. The number remaining at the end of the year was 25.

112. The greater number of the indoor patients were Kaliparaj and many of the cases were of surgical operations.

It will appear from this, that the fear which the Kaliparaj people entertained in such matters has disappeared and they are willingly coming for treatment.

113. The expenditure on the dispensary during the year under report amounted to Rs. 7,608 against Rs. 9,633 in the preceding one.

114. The Chief Medical officer of the State Mr. Kavasji Temulji has discharged his duties satisfactorily as usual. The people continue much pleased with him.

Births and Deaths.

115. The talatis of villages keep registers of births and deaths and submit monthly returns. The thandars and other officers while travelling in the district examine these registers. The following table with show the details of births and deaths :—

	1899-1900.	1900-1901.	Increase.	Decrease.
Births	2,139	1,438	...	701
Deaths	4,209	6,560	2,351	...

Owing to the prevalence of diarrhœa there is an increase in the number of deaths.

Vaccination.

116. Three Vaccinators have been engaged in this State who travel in the villages and vaccinate children. The following table will show the numbers of children vaccinated during the current as well as the past year :—

Operation by whom performed.	Number of persons vaccinated in	Number of persons vaccinated in	Results.			
			Successful.		Unsuccessful.	
	1899-1900.	1900-1901.	1899-1900	1900-1901.	1899-1900.	1900-1901.
3 Vaccinators ...	4,899	2,503	4,862	2,471	37	32

117. During the year under report 2,503 children were vaccinated against 4,899 in the preceding one, showing a decrease of 2,396. The reason is that many persons had gone away to outside places, and many had died during the famine.

118. Of the total 2,503 primary vaccinations 2,471 proved successful and 32 unsuccessful. 77 children were re-vaccinated.

CHAPTER VII.—Instruction.

119. The number of schools during the year was 22 as in the last year. The number of children receiving education in each of the schools will be known from the following table:—

Education.

No.	Name of School.	Description of School.	Number of pupils on the 31st March, 1900.	Number of pupils on the 31st March, 1901.	Daily average attendance.
1	Maharana Shri Narayendevji English School	Boys.	32	42	16·4
2	Do. do. Vernacular School...	,,	206	214	89·8
3	Darbari Girls' school	Girls.	110	98	36·8
4	Do. Urdu School	Boys.	34	...	...
5	Do. Mahar do.	,,	23	23	13·5
6	Rumla Vernacular do.	,,	74	52	24·5
7	Saravni Do. do.	,,	40	34	22·9
8	Kakadveri Do. do.	,,	40	35	11·6
9	Motapondha Do. do.	,,	29	14	3·6
10	Balchondi Do. do.	,,	26	23	10
11	Varvat Do. do.	,,	8	25	13·3
12	Achhavni Do. do.	,,	32	24	10
13	Panaj Do. do.	,,	18	12	7·7
14	Nanapondha Do. do.	,,	22	20	10·2
15	Baroomal Do. do.	,,	19	25	13·3
16	Amdha Do. do.	,,	22	15	3·2
17	Rajpuri Khatana do.	,,	20	14	8
18	Karanjveri Do. do.	,,	9	21	14·1
19	Tiskari Do. do.	,,	25	12	5·9
20	Bhervi Do. do.	,,	33	23	17·9
21	Ghodavani Do. do.	,,	35	28	21·2
22	Mandva Do. do.	,,	11	10	2·3
	Total ...	,,	868	764	.....

120. The above statement shows that the number of pupils during the year was 764 against 868 in the last one, showing a decrease of 104. The reason is that the ryots of the State are mostly Kaliparaj, and being poor employ their children in household business. Although much persuasion is used by the District Officers to get them to send their children to school it has no effect whatever. Some of the pupils having completed their course here have left the schools. The famine of the last year had also some effect on the schools.

121. The State supplies clothes and books, and renders other assistance in order to encourage children to attend the schools, but the desired effect is not produced. However as the State continues its efforts in this direction it is hoped that there will be some improvement in future.

122. Scholarships have been issued in order to send boys and girls to Training Colleges for study. But no one having at present qualified himself for that purpose, none has been sent.

123. A boarding house has been opened for the orphans assembled here and the State supplies them with rations, books, &c. The poor-house having been closed the parentless children who were receiving support therein were sent to the boarding house. The number of the orphans at the end of the year was 74. It has been arranged to send them to schools. Such children do not stay for a long time but go away at their pleasure.

124. A school has been opened to train the Kaliparaj people in different kinds of professions. The number of pupils is 117. They are taught the professions of masons, carpenters, stone-cutters, &c.

125. Of the 764 pupils 527 were presented at the examination, of whom 388 were successful, the percentage being 73·6.

126. The expenditure on Education during the year amounted to Rs. 5,520 against Rs. 6,109 in the previous one. As one month's pay had remained unpaid and as only the actual expenditure has been shown, there appears a decrease under this head.

127. The Head-mistress of the girls' school has passed the 2nd year's course in the Ahmedabad Training College. Since her appointment to this post the number of girls has increased. She works diligently.

128. One school has been opened for educating the boys of the Mahars and Dheds. The teacher of the school is of the same caste. He had studied in the Dharampur school up to the highest class and passed the annual examination. He also works well.

129. It is our desire to send Kaliparaj boys to the Training College after they have passed the school examinations. Unless Kaliparaj masters can be engaged the village schools will not thrive. The Kaliparaj people trust only men of their own class. Efforts have been continued in this direction.

130. One Kaliparaj boy who had completed his course in the Dharampur Vernacular School has been sent to Ahmedabad to study English. It is expected that he will appear at the Matriculation examination within 2 years.

131. There are several school masters of the Parbhu caste, but owing to the bad climate of the place they cannot remain in the village schools. There is no other remedy for this but to engage Kaliparaj masters.

CHAPTER VIII.—Miscellaneous.

Wild animals.

132. There are many wild animals in this State and a Shikari Department has been engaged to destroy them. The employees of this department take rounds in the villages and destroy such animals.

During the year under report the following number of animals was destroyed :—

	Panthers.
By Lieut. Lely and friends	3
„ other people...	1
	4

Post and Telegraph Offices.

133. There is one Post Office in this State but no Telegraph Office. There is no need for a Post office elsewhere as there are only a few letters for outside villages.

Record Room.

134. There is one Record room in this State where the records are kept after they have been sorted.

Printing Press.

135. There is a Printing Press here, where the forms, stamped papers and labels used in the State are printed. Owing to the supply of printed forms much convenience is experienced in the office work.

Library.

136. There is one Library in this State which is named after the late Raja Saheb "Maharana Shri Narayendevji Library." 12 news-papers and 4 magazines are received therein. Some of these papers are given as presents by the State and some by other gentlemen.

137. There was a balance of Rs. 311-8-1 in the Library at the end of the last year and Rs. 68-3-4 having been received during the current year on account of subscriptions, &c., the total comes to Rs. 379-11-5. Of this sum Rs. 259-9-0 were spent during the year on account of servants' pay and news-papers, &c., leaving a balance of Rs. 120-2-5.

Jurisdiction.

138. The Ijardar of Baria Mr. Sorabji, having died, the powers of a 3rd class Magistrate were granted to his Agent Mr. Makuji Pestonji as an experiment. The period of the Ijara expires in 1905 and for that period the powers will be continued to him. The powers granted to the other gentlemen have been continued.

Concluding Remarks.

139. The preceding year was one of famine and there being scarcity of rain in the current year also the yield of crops was not adequate. Its effects were much felt in the "talat" portion. Such being the case the land revenue was not properly realized. The receipts on account of Abkari and Forests were also proportionately less.

140. Thinking it necessary I beg to give some details about the State debt. When I came to the gadi the debt amounted to Rs. 4,36,922 and after that I was obliged to incur the following expenses :—

Rs. 60,933 in the death ceremonies of the family members.

„ 4,79,716 in providing public works, there being none formerly in the State.

Rs.	2,00,000	in the marriage of my sister Sardar Kunvarbaiji.
„	25,000	in supplying grain to the people for seeds last year.
„	19,608	in plague measures.
„	1,00,657	in relief-works and in giving grain to the cultivators for seeds and their maintenance.
Rs.	8,85,914	

141. I am obliged to pay high rates of interest on this debt and the chief reason for the debt remaining unpaid—notwithstanding my efforts to pay it off—is the heavy amount of interest. If the Government will be kind enough to assist me according to the hope held out in their review on last year's Administration Report of the State there is a prospect of my being free from the debt within a short period, say within two or three years. The reasons for such a request are as follows :—

(1) The increase in the debt by the addition of heavy interest would cease.

(2) The sowcars may remit certain sums at the time of liquidating the debt.

(3) Where there is only one creditor, he may be paid regularly according to specified instalments.

Such being the case I will submit a separate proposal with the sanguine hope that the Government will be pleased to guarantee a loan.

142. I am much obliged to the Government, the Commissioner and the Agent for the help and valuable advice which I always receive from them, and I hope that such help will always be continued.

143. In concluding this report I have great pleasure in bringing to notice that the services of my Dewan, Rao Saheb Trikamlal Dinanath, which have been kindly lent to the State by Government upon my request, have been of great use to me, as the advice and assistance which he has given to me in every matter by his personal experience, ability, and activity have thoroughly satisfied me. He has carefully discharged the trust placed in him and I have so much confidence in him that I am not at all willing to part with him. I will, therefore, request Government before the expiry of his present term to continue his services in this State for a further period of one year.

I am &c.,

Jurisdiction 132
Concluding remarks 133–135
Remarks about the Dewan 136

English translation of letter No. 28, dated the 7th August 1902, from Maharana Shri Mohandevji Narandevji Rana, Raja Saheb of Dharampur to the Agent to His Excellency the Governor at Surat.

I have the honour to forward the following account of the Administration of my State for the Samvat year 1958, *i. e.* the period commencing from the 17th June 1901 and ending with the 5th July 1902, together with the Appendices hereto attached.

CHAPTER I.—Political.

2. The relations of the State with the British Government and the neighbouring Native States continue cordial and there is nothing worth reporting under this head.

3. No visit was paid during the year either by His Excellency the Governor or the Commissioner, N. D., but the Acting Agent, Mr. Wales visited the State at the end of December last, and stayed nearly a week. Also the Agent Mr. Sladen paid a visit in March 1902, and stayed for 4 days.

4. I did not perform any journey during the year, but I once went to Ahmedabad and once to Bulsar to see the Hon. Mr. Lely, Commissioner, N.D. Besides the above I visited many of the State villages with a view to enquire about the condition of the people. The records of several of the Talatis were also examined.

Changes in the Administration.

5. Last year Mr. Fezalli Gulamalli, a retired Police Inspector of the British Government, was appointed to the post of the Police Superintendent, but owing to the bad climate, he resigned his post. The vacant post has been filled up by the appointment of Mr. Chimanlal Ajitrai, a Jemadar of the Surat District Police, who has rendered good service in the British Police, and whose services have been kindly lent to me by Government at my request. He being on leave did not join his post during the year. There were no other changes among the Officers.

6. The population of the State according to the last Census is as follows :—

Males.	Females.	Total.
51,467	48,963	1,00,430

CHAPTER II.—Administration of Land.

Revenue Survey.

7. Up to the end of the last year the traverse survey of 216 villages was completed, and 33, including 2 uncompleted villages of the last year, having been traversed during the current year, the total number comes to 249. The traverse survey of one more village was commenced but remained incomplete at the end of the year.

8. The number of villages completely surveyed at the close of the last year was 203, and 26 being surveyed during the year under report the total of completely surveyed villages comes to 229. The survey of one more village was commenced but remained incomplete.

9. The area of the villages surveyed up to the end of the last year was 3,64,586 acres, and 9 gunthas and 42,244 acres and 37 gunthas of land having been surveyed during the year the total area comes to 4,06,831 acres and 6 gunthas. During the current year 42,244 acres and 37 gunthas of land were surveyed against 44,432 acres and 33 gunthas in the last year. Besides the above several big traverse numbers were divided into small ones the area of which is 2,078 acres and 5 gunthas. This added to the surveyed area the total area surveyed during the year will come to 44,323 acres and 2 gunthas.

10. The area of villages surveyed up to date is 4,06,831 acres and 6 gunthas of which 1,10,932 acres are under cultivation. A great portion of the State is covered over with hills and consequently more land cannot be cultivated.

11. The village and Huzur Accounts of the State are kept according to the forms prescribed by Mr. Hope, and the Jamabandi work is done accordingly.

12. The State has been divided into 4 parts, each being placed under a Thandar, They supervise the work of the Talatis, and inspect boundary marks. All revenue work is done through them.

13. I have appointed Mr. Bhikhabhai Haribhai to the Post of the Naib Dewan in this State. His services were lent to me by Government at my request. He is of a calm disposition, and discharges his duties cleverly and zealously.

14. The Jamabandi for the current year was done by my Dewan.

Boundary dispute.

15. There is no dispute about boundary at present. The boundary dispute that had existed with the village of Ozar in the Peint Taluka has been settled.

Wards' Estates.

16. My younger brother Prabhatdevji and Kumar Chandradevji, son of my deceased brother Haridevji, being minors, their estates are under the management of the State. Bhai Shri Prabhatdevji had joined the Poona Horse Cavalry stationed at Neemuch, for instructions but after staying there

a few months returned back. Kumar Chandradevji has joined the Gondal Girassia College where he studies well.

17. The age of Bhai Shri Prabhatdevji is at present 19 years. The gold and silver ornaments and other jewellery which my late father had given to his mother from the State are in my possession since her death. On my requesting the Agency to sell these ornaments and to place the sale proceeds in trust, steps are being taken in that direction. Of the ornaments worth Rs. 15,066 given to Bhai Shri Prabhatdevji for his use he has pledged some and by his extravagance has incurred a debt of Rs. 15,709. On account of such behaviour of his I have been obliged to take the above step.

18. I regret to have to note that, although he is under my guardianship, he has, without my consent, celebrated his marriage with the daughter of one Bhimbava, a distant relation, and an employee of the Raja Saheb of Bansda, at his (Raja Saheb's) palace. This act of his is hardly befitting my position. It is such as would lower my reputation and has been done with the advice of some one. I have brought this to the notice of the Agency.

19. For the above reasons it is of great importance to keep a proper check on his estate until he behaves well. Otherwise it is likely that he will make a misuse of the property given by the State.

20. The figures of receipts and charges of the minors' estates are as follows :—

No.	Name.	Age.	Place of birth.	Place of Education.	Balance at the beginning of the year.	Receipts.	Disbursement.	Balance at the end of the year.		Value of moveable property in hand.	Area of land under management.
								In cash.	In Government Securities.		
					Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs.		Ac. Gu.
1	Bhai Shri Prabhatdevji.	19	Dharampur.	Gondal. ...	490 13 0	7,482 5 2	7,100 4 7	872 13 7	47,000	...	4,973 2
	Kumar Shri Chandradevji.	16			172 12 10	8,747 8 11	7,883 12 11	1,036 8 10	28,000	...	3,632 0

CHAPTER III.—Protection.

21. The Civil and Criminal work of the State is being done on the principles of the British Indian Laws.

Legislation.

22. The strength of the Military Force during the year was the same as in the last year, *i. e.* 206. The details are as under :—

Military.

101 Police Constables.	6 Mounted Constables.
25 Abkari Constables.	3 Revenue Sowars.
36 Arabs.	3 Abkari Sowars.
2 Gunners.	30 Sowars of the paga.

23. For the protection of the people 110 men including officers have been engaged in this State as detailed below :—

Police.

1 Police Superintendent,	7 Head Constables.
1 Fouzdar.	94 Constables.
1 Naib Fouzdar.	6 Mounted Constables.
	110

24. During the year under report the number of police was 110 against 102 in the previous one. 1 Head Constable and 7 Constables were increased during the year.

25. To keep proper order in the State seven out-posts have been kept, and the men stationed therein take rounds in the villages and see that no offences occur. The village patels have been given police sanands, and they render good assistance to the police, detecting crimes, and keep proper order in their respective villages.

26. In addition to the number shown above, extra policemen have been engaged as a temporary measure, in order to see that criminals from the Nasik District and other surrounding territory such as Daman &c., may not enter the State limits, as also to prevent commission of serious crimes.

27. Of the total number of Police and Abkari Constables, 48 men are able to read and write, while 13 are under instruction.

28. Seven of the Police Constables were departmentally fined for small neglects, one was dismissed from the service for gross neglect, and one was magisterially punished for a criminal offence. Six of the Constables were rewarded with promotion for good work done.

29. At present one man who had learnt drill in the British Police has been engaged to give instructions in drill to the Police.

30. The number of offences that occurred during the current as well as the past year will be known from statements Nos. 7 and 9. During the year under report 228 offences were reported against 334 in the foregoing one, showing a decrease of 106 offences.

Criminal Justice.

31. The number of cases of theft during the year was 19 against 93 in the previous one showing a decrease of 74. The number of Abkari offences was 135 against 176 in the last one, showing a decrease of 41. Cases of hurt numbered 42 during the year under report against 27 in the previous one, showing an increase of 15. There have been some increase and decrease in other kinds of offences but it is not worth noting.

32. Among serious offences, there were 3 cases of dacoity and one of conspiracy against the State to commit offences punishable under section 121 of the Indian Penal Code.

33. In the first case of dacoity some 5 men residing in the Peint Taluka entered by night the house of Bai Chimi of the village of Panchvera of this State, and forcibly carried away Rs. 618, in cash and other property. The culprits were arrested, and, having been found guilty of the offence, were each sentenced to undergo 5 years' rigorous imprisonment.

34. In the second case of dacoity several Kolis and Makranis, in all 22 men, of the village of Barpuda of this State entered by night the house of Bamanji Rattanji of Diksal by breaking off the doors, and carried off grain and cooking pots, &c. The accused were arrested, and, being found guilty of the offence, were sentenced to undergo different terms of rigorous imprisonment.

35. In the third case of dacoity five years ago a Bohra was going to Bulsar from Dharampur with certain articles of apparel in his cart. While in the British limits he was set upon by several *budmashes* who, after maltreating him, carried off certain clothing and some money in cash. When making enquiries about other offences this year the culprits were discovered and being put on their trial were convicted and sentenced to undergo different terms of rigorous imprisonment. Some property concerned in this dacoity was recovered from a Makrani who was also put on trial and sentenced to imprisonment.

36. In the case under Section 121 A. several Makranis residing in Barpuda and other frontier villages of the State had collected a quantity of gunpowder, bullets and a number of arms and had been thinking of usurping some villages and of doing other mischief. They opposed the police who had been sent to arrest them but neither surrendered themselves nor their weapons. They were however apprehended by the State police with the assistance of the British police. They were put on their trial and being convicted some were sentenced to transportation for life and others to different terms of rigorous imprisonment. In this case the State as well as the British Police rendered good service and owing to their good arrangements no mischief was done.

37. During the year under report 5 cases had been reported to the Ijardar of Barai, three of hurt, one of theft and one of mischief. He has imposed punishment of fine only on 6 accused concerned in cases of mischief and hurt. The case of theft is pending as the accused concerned has not been arrested. The period of the Ijardar's lease expires in 1905 when the villages will revert to the State. It is therefore not necessary to make further comments about him.

38. During the current year Bhai Shri Buldevji did not decide any case. The records of the Abkari cases previously decided by him though not impowered to do so were sent for and the punishments awarded were cancelled. He has been warned not to do so again.

39. The Jagirdar of Behej also did not dispose of any case during the year. But enquiries are in progress about the Abkari cases decided by him last year though he had no powers to do so.

40. During the year under report 228 cases were to be disposed of. 225 were decided while 3 remained pending at the close of the year. Two await disposal pending the arrest of the accused concerned, and one owing to having been filed during the latter part of the year.

41. Of the 393 accused sent up for trial 291 were convicted and sentenced, 45 were either discharged or acquitted for want of sufficient evidence, while 53 were discharged without being brought to trial on mutual understanding. 4 of the accused awaited trial at the close of the year. The percentage of conviction this year was 91·8 against 80·4 in the last year, which shows a good result.

42. The property stolen during the year amounted to Rs. 635-13-0 of which, property worth Rs. 588-13-3 was recovered. Besides the above, property worth Rs. 695 concerned in a case of dacoity which occurred in the previous year was recovered. The percentage of property recovered to that stolen was 92·0 against 54·4 in the last year.

Criminal Appeals.

43. There were no appeals in the Huzur Court during the year. In the Dewan's Court there was one appeal which was disposed of during the year.

Extradition.

44. The relations of the State with the British Government and the neighbouring Native States as regards the extradition of offenders continue cordial. During the year under report the following number of offenders was made over by and to this State.

3 Prisoners were received from the 3rd Class Magistrate of Peint.
1 Prisoner was received from the City Magistrate of Surat.
2 Prisoners were do. 2nd Class Magistrate of Bulsar.
2 Do. do. do. Rajkot through the Agent to H. E. the Governor at Surat.

8

2 Prisoners were sent to the 2nd Class Magistrate of Pardi.
1 Prisoner was do. Bansda State.

Jail.

45. The Jail building is a pucca one where prisoners sentenced to imprisonment are kept. A room has been set apart in the building for the under-trial prisoners. The police mount guard at the Jail.

46. During the year under report 318 prisoners were confined in the Jail against 379 in the previous one showing a decrease of 61. The reason was that the number of offences were less this year. The total expenditure on the Jail including rations, &c., amounted to Rs. 2,956 against Rs. 2,549 in the last year.

47. The prisoners are mostly employed on roads. Prisoners for long terms are engaged in weaving cotton tapes, coir-mattings, ropes, &c.

48. The officers of the State occasionally visit the Jail and see that everything goes on properly. They also hear the complaints of the prisoners if they have any.

Civil Justice.

49. There are four courts in the State for the Administration of Civil Justice. The number and value of the suits filed during the year as well as in the previous one will be known from the following table :—

Name of Court.	Suits for immovable property.				Money Suits.			
	1900-1901.		1901-1902.		1900-1901.		1901-1902.	
		Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
R. S. Dewan's Court	...	.....	...	.....	...	.....	...	.....
Naib Dewan's ,,	...	.....	...	.....	...	.....	...	.....
Nyayadhish's Court...	...	.....	...	.....	36	12,822 12 11	52	5,110 12 6
Jagirdar of Behej ...	...	.....	...	.....	...	.....	...	.....

50. During the year under review 55 suits were filed, of which 52 were money suits covering a value of Rs. 5,110-12-6, and 3 were for the recovery of wives. Including the 6 undisposed of cases of the last year there were in all 61 to be disposed of. Of these 53 suits were disposed of during the year while 8 remained pending at its close. In 6, summonses were not served, and 2 were filed in the latter part of the year.

Civil Appeals.

51. During the year under report no appeals were filed either in the Huzur or the Dewan's Court as will be known from the following table :—

Name of Court.	Opening balance.		Filed during		Total.		Disposed of during		Closing balance.		Value of appeals filed during		How disposed of.								Average duration.				
													Decisions confirmed.		Decisions reversed.		Decisions amended.		Cases remanded for trial.		Cases compromised and otherwise disposed of.		Year.	Months.	Days.	Year.	Months. Days.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24			25

52. During the year under report there were 60 applications for the execution of Civil Court's decrees and 6 were pending from the last year which makes up the total of 66. Of these 58 were disposed of during the year while 8 remained pending, 2 pertaining to immovable property and 6 to moveable property.

Applications for the execution of decrees.

53. The State Nyayadhish Mr. Harpatram Harmukhram has passed the Pleader's examination and has a good knowledge of law. He is hard-working and sharp, and discharges his duties well.

54. The number of Documents presented for Registration during the current as well as the past year and their value have been given in the following table :—

Registration.

Number.	Description.	1900-1901.			1901-1902.		
		Number of documents.	Value of property.	Fees realized.	Number of documents.	Value of property.	Fees realized.
			Rs. a. p.	Rs. a. p.		Rs. a. p	Rs. a. p.
1	Mortgages	4	5,832 5 0	13 0 0	4	1,699 0 0	7 8 0
2	Sale-deeds	8	2,376 4 0	12 4 0	18	5,361 2 3	32 12 0
3	Wills	...	.....	.....	1	.....	2 0 0
4	Miscellaneous documents	1	425 4 0	2 0 0	2	.....	2 8 0
5	Money	...	.....	.....	...	.....	.....
	Total ...	13	8,633 13 0	27 4 0	25	7,060 2 3	44 12 0
	Deduct expenditure...	...	.....	.....	...	.....	...
	Net profit	...	.....	27 4 0	...	.....	44 12 0

55. As shown above 25 Documents were presented for Registration during the year under report against 13 in the previous one, and the Fees realized during the year was Rs. 44–12–0 against Rs. 27–4–0 in the last one. Of the Documents presented, 3 were refused registration being not according to rules.

56. There is a Municipality in the Town of Dharampur only. The State bears all the expenditure in connection with it. As the Kaliparaj ryots of the State build their huts in their own fields apart from each other, there appears no necessity for Municipalities elsewhere.

Municipality.

57. During the year under report the charges on account of Establishment, Lighting and Watering Roads &c., amounted to Rs. 2,973 against Rs. 1,718 in the previous one.

CHAPTER IV.—Production and Distribution.

Agriculture, weather and crops.

58. The public health was good this year. However, during the month of April, plague rats made their appearance in some quarters, but no deaths occurred. The current diseases were malaria, cough, diarrhœa, &c.

59. The rain-fall during the year measured 64 inches and 98 cents against 116 inches and 89 cents in the previous one, showing a decrease of 51 inches and 91 cents. The average rain-fall of the past five years was 84 inches and 91 cents. Although the rain-fall was good this year it was scanty in the latter part. Consequently the crops suffered to some extent and the yield of different kinds of pulses was not adequate. On the whole the average yield of crops was 12 annas in the rupee.

60. The thermometer rose to 101° F. H. during the year against 103° F. H. in the preceding one.

Wages of labour and prices of food grains.

61. The current year being a little more prosperous than the preceding ones, the people did not find any difficulty in obtaining labour. The rate of wages varied from 1½ to two annas.

62. The following comparative statement will show the prices of food grains during the current as well as the past year :—

Articles.	Rate per maund.	
	1900-1901.	1901-1902.
	Rs. a. p.	Rs. a. p.
Bangalia Paddy	1 8 0	1 4 0
Kolum	1 7 0	1 4 0
Ghonsalia	1 4 0	1 0 0
Wankvel	1 2 0	0 14 0
Nagli	1 0 0	1 2 0
Kodra	1 0 0	0 12 0
Val	1 4 0	1 8 0
Toor	2 2 0	1 8 0
Jowari	1 5 0	1 4 0

The prices were lower during the year except in two cases.

63. During the year, 6,000 maunds of grain were given to the poor cultivators for seeds, &c., as tagavi advances.

64. The labourers obtained labour during the year in the miscellaneous public works carried on by the State, and in cutting the forest sold last year, and consequently they did not find any difficulty in procuring their livelihood.

Forest.

Forest.

65. Up to the end of the last year 67 forests measuring 156 square miles and 38 acres, were reserved and 10 forests measuring 10 square miles 144 acres being reserved during the year under report the total number of such forests comes to 77 and the area

to 166 square miles and 182 acres. This area has been arrived at after deducting the 728 acres and 22 gunthas of land which was found culturable.

66. Lines have been made around the new reserves and 816 boundary marks have been raised.

67. The area of the forests brought under protection up to the end of the last year was 25,329 acres and 39 gunthas and the traverse numbers of some villages measuring 10,750 acres and 7 gunthas having been protected during the year under review, the total area comes to 36,080 acres and 6 gunthas.

68. Seeds of teak, tanach, mangoes, mowra, &c., were sown in different places as usual, many of which have germinated well.

69. During the year under report timber of the value of Rs. 2,158-4-3 was given to the cultivators free of charge for building purposes.

70. The previous 2 years were of famine; there was no rain during the current year in some parts of the country; the rights of forests being given to the people by the British Government in the Dehenu Taluka, timber was sold by them, and the forests of Surgana State and the Portuguese Territory were sold during the year. All these things lowered the value of the timber and consequently no forests were sold during the current year in this State. However, Rs. 27,254 were realized by the sale of bamboos and miscellaneous timber against Rs. 28,732 in the previous year.

71. During the year under report 37 offences against the Forest rules had occurred and the defaulters were fined Rs. 81-5-8 departmentally.

72. There were, during the year, fires in the forests of seven villages but not much damage was caused, as immediate assistance was received. The persons through whose neglect these fires took place were departmentally fined Rs. 12-14-6.

73. Sufficient establishment has been kept for the proper supervision of the forests. The Forest Officer, Mr. Ranchordas Dharsi has studied in the Madras Agricultural College. He takes great pains in his work and is energetic.

74. Forest Inspector, Mr. Nandlal Bholanath has passed in the subject of Forestry in the Poona College of Science. He also takes pain in his work.

Trade and Manufacture.

75. There are no means of trade in this State. Only Asindra and Timroo leaves for cheroots are usually exported during the season. As regards manufacture, only bamboo baskets and mats are made here.

Fairs.

76. In this State only one fair is held at Fatehpur in honor of Bhairavnath, during the month of Chaitra every year, and it is mostly attended by the Kaliparaj people.

Public Works.

77. During the year under report Rs. 11,379 were spent on Public Works against Rs. 12,608 in the previous one. Rupees 6,609 were spent on original works, Rs. 3,856 in repairs and Rs. 914 on account of establishment as detailed below :—

Public Works.

Rs.	1,732	0	0	were spent on the Huzur Haveli.
„	839	0	0	„ in making a wall around the Darbari buildings.
„	1,756	0	0	„ wooden railings around the Public Garden and the Dharmashala.
„	1,915	0	0	„ additions and alterations to the Sadar Distillery building.
„	367	0	0	„ additions and alterations to the Kharvel utara.
Rs.	6,609	0	0	
„	3,856	0	0	„ in repairing village Chowras and Darbari buildings.
„	914	0	0	„ on establishment charges.
Rs.	11,379	0	0	

78. There are still many works of public utility to be done in the State, but the financial condition of the State being not good, they cannot be taken in hand. I will however pay proper attention to the matter when the condition has improved.

CHAPTER V.—Revenue and Finance.

79. The figures of Receipts and Expenditure of the State will be known from the following table :—

Revenue and Finance.

Year.	Opening balance.	Receipts.	Expenditure.	Closing balance.
Samvat 1958.	Rs.	Rs.	Rs.	Rs.
A. D. 1901-1902 ...	2,968	4,07,047	4,08,743	1,272

80. The figures of receipts and charges under the different heads will be found in statement No. XVII.

81. During the year under report the Land Revenue amounted to Rs. 1,83,904 against Rs. 1,94,166 in the previous one, showing a decrease of Rs. 10,262. The reason for the decrease is that Rs. 37,436 on account of the revenue of the past year, realized during the current year, have been shown under the head "Recovery on account of former dues," otherwise the total realizations will amount to Rs. 2,21,340.

82. The Abkari revenue including receipts from Ganja, Bhang, Opium, Toddy, &c., amounted during the current year to Rs. 1,24,373 against Rs. 94,207 in the last one showing an increase of Rs. 30,166. The reason is

that Rs. 25,995-8-0 were remitted to the Abkari Contractor last year. Also Rs. 12,679, the shop license fees for the next year, were received and credited during this year.

83. There is no increase and decrease in the other kinds of revenue deserving mention.

Expenditure.

84. The expenditure under the head "Paga carriage Department, &c." amounted during the year under review to Rs. 7,076 against Rs. 12,184 showing a decrease of Rs. 5,108.

85. During the year under report Rs. 6,713 were spent on Education against Rs. 5,520 in the preceding one showing an increase of Rs. 1,193, which is due to the facts that the salary bills remaining unpaid at the end of the last year were paid during the current one.

86. During the year Rs. 6,891 were spent under the head "Survey" against Rs. 4,435 in the previous one, showing an increase of Rs. 2,456. The payment during the current year of the past year's bills and the purchase of a machine for printing maps are accountable for the increase.

87. The Establishment charges during the year amounted to Rs. 50,169 against Rs. 43,254 in the preceding one, showing an increase of Rs. 6,915. The reason for the increase is that all bills are usually paid according to English dates but the Gujarati year having closed in the middle of the month, the unpaid bills of the last year were paid in the beginning of the current one.

88. Remissions in land revenue were granted to the cultivators during the year to the extent of Rs. 25,600 against Rs. 74,020 in the preceding one. As remissions were granted to a large extent last year there appeared no necessity to grant more this year. The greater portion of the remissions is on account of the cost of grain given as tagavi for "Bee and Khavti."

89. The Darbari expenses during the year amounted to Rs. 18,628 against Rs. 26,090 in the last one showing a decrease of Rs. 7,462.

90. During the year under report the expenditure on account of police amounted to Rs. 18,710 against Rs. 10,297 in the preceding one. The reason for the increase in the expenditure is that 25 extra police men had to be engaged, as some Makranis were harassing the people residing in border villages. Also articles of clothing for the police were purchased during the year.

91. The College expenses during the year amounted to Rs. 11,381 against Rs. 16,987 in the previous one, showing a decrease of Rs. 5,606.

92. There is some increase and decrease in other kinds of expenditure but it is not worth mentioning.

Debt.

93. The amount of debt at the end of the last year was Rs. 7,52,740. During the year under report Rs. 1,67,744 were paid towards the liquidation of the debt, Rs. 89,360 in principal and Rs. 78,384 as interest, showing an increase of Rs. 53,144. The amount of debt at the end of the year was Rs. 6,62,780 which includes the amount of loan given by the Government.

Opium and Abkari.

Opium.

94. The sale proceeds of the opium farm during the year realized Rs. 110 against Rs. 170 in the last one, showing a decrease of Rs. 60. As there are not many opium eaters in the State its sale is limited and consequently the sale of the farm does not realize much. During the year under report 122 lbs. and 25½ tolas of opium were sold against 100 lbs. and 19 tolas in the preceding one.

95. The opium purchased by the Licensee for sale, is kept in the State Treasury and is issued to him in proportion to the consumption in one month. The abkari and other officers of the State examine the accounts of the farmer occasionally.

Abkari.

96. There are three distilleries in this State, *viz.*, at Fatehpur, Mandva and Dharampur. Liquor is distilled at these distilleries and sold by the Abkari Contractor. The Abkari contract was at first given for 5 years to Mr. Dinshaw Pestonji of Ahmedabad, but at his request the old license was cancelled and a new one given to him for one year on his agreeing to pay Rs. 99,000 on account of duty and Rs. 3,000 for establishment charges &c., total Rs. 1,02,000. He had also agreed to pay duty on the liquor issued in excess of the guaranteed amount.

97. During the Ijardar's management for 10 months and 10 days 1,74,383 gallons of 25° and 60° U. P. liquor were consumed and he had realized Rs. 1,28,609-14-9 on account of duty and margin besides Rs. 9,590-6-0 on account of shop license fees for that period, total Rs. 1,38,200-4-9. During the State's management for the remaining period of the year 20,744 gallons of liquor were sold and Rs. 14,853 were realized.

98. The total Abkari revenue during the year under report from bhang, ganja, country liquor, opium, European wines and toddy amounted to Rs. 1,24,273 against Rs. 94,207 in the last one.

99. In the neighbouring States of Bansda and Surgana and in the Portuguese territory, liquor is sold at the low rate of 1 anna per seer at the inner shops and consequently this State also lowered the selling prices. But the Kaliparaj people get their drink from the nearest shops they find convenient. This State has therefore to suffer much loss.

100. Sufficient establishment has been engaged to prevent illicit distillation and to see that the people may not bring liquor from foreign limits. The abkari offences during the year numbered 176 against the same number in the last one.

101. During the year under review Rs. 5,746 were realized on account of Chowth Jakat against Rs. 5,185 in the last one, showing an increase of Rs. 561.

Chowth Jakat.

CHAPTER VI.—Vital Statistics and Medical Relief.

102. There is one Dispensary in this State, and one travelling Dootor has been engaged who visits the State villages and distributes medicine to the villagers. The following statement will show the number of patients treated and the number that recovered during the year :—

Dispensary.

Dispensaries.	Number of patients treated.		Results.				Expenditure.	Average daily attendance.
	Indoor.	Outdoor	Discharged.	Absent.	Died.	Remaining under treatment.		
Jubilee Dispensary ...	83	11,600	11,574	...	5	104	7,584	175·9

103. From the above statement it will be seen that the number of in-door patients during the year was 83 against 71 in the previous one, showing an increase of 12 patients. Of the 83 patients 72 were discharged as cured, 5 died in the Dispensary, 3 of diarrhœa, 1 of brain fever and one of gout; while 6 remained under treatment at the close of the year. The number of out-door patients treated during the year including those that remained from the last year was 11,600 against 9,252 in the previous one. This shows an increase of 2,348. There was this year a good number of Kaliparaj patients and it can therefore be inferred that they have begun to show some confidence in the Dispensary. Of the 11,600 patients treated during the year 11,502 were discharged as cured and 98 remained under treatment at the close of the year. The travelling Doctor visited 32 villages and distributed medicine to 1,094 patients.

104. The number of lepers at the end of the last year was 25 and 20 having been admitted during the current year the total number was 45. Of these, 6 died of frightful leprosy and 9 left the Hospital, leaving at the end of the year 30 lepers, 21 males and 9 females. The average daily attendance was 28·7.

105. The public health was good during the year. Though fever was prevalent among the people the proportion of deaths was very small. No epidemic diseases broke out during the year.

106. The in-door patients and the lepers are provided with food and clothing at the State's expense and they are well taken care of. The total expenditure under the head Dispensary amounted during the year to Rs. 7,584 against Rs. 7,608 in the preceding one.

107. The Chief Medical Officer, Mr. Cawasji Temulji Pardiwalla, discharges his duties with great care, and being of a social disposition, the people are much pleased with him.

Births and Deaths.

108. The Talatis of villages keep registers of Births and Deaths and submit monthly returns. The Thandars and other Officers of the State while travelling in the District examine these registers. The following table will show the number of births and deaths :—

	1900-1901.	1901-1902.	Increase.	Decrease.
Births	1,438	1,543	105	...
Deaths	6,560	5,744	...	816

109. There was this year an increase of 105 in the number of births and a decrease of 816 in the number of deaths.

Vaccination.

110. Three Vaccinators have been engaged in this State to vaccinate children. The number of children vaccinated during the current as well as the past year will be known from the following table :—

Operation by whom performed.	Number of persons vaccinated in	Number of persons vaccinated in	Results.			
			Successful.		Unsuccessful.	
	1900-1901.	1901-1902.	1900-1901.	1901-1902.	1900-1901.	1901-1902.
3 Vaccinators ...	2,503	1,964	2,471	1,913	32	51

111. During the year under report 1,964 children were vaccinated against 2,503 in the last one, showing a decrease of 539. The number of deaths during the last year being large *i. e.* 6,560, more persons could not be found for vaccination. Of the total 1,964 vaccinations 1,913 proved successful and 51 unsuccessful. 58 children were re-vaccinated, of these 45 vaccinations were successful.

112. The expenditure on account of vaccination amounted during the year to Rs. 930 against Rs. 1,062 in the preceding one.

CHAPTER VII.—Instruction.

Education.

113. The number of schools during the year was 23 against 22 in the last one. The increase is due to the opening of a new school at the village of Nanivahial. The number of children taking education in each of the schools will be known from the following table :—

No.	Name of School.	Description of School.	Number of pupils on the 31st March, 1901.	Number of pupils on the 31st March, 1902.	Daily average attendance.
1	Maharana Shri Narayendevji English School	Boys.	42	49	35·2
2	Do. do. Vernacular School...	,,	214	238	153·3
3	Darbari Girls' school	Girls.	98	92	60·7
4	Do.. Urdu School	Boys.	...	31	15·6
5	Do. Mahar do.	,,	23	25	13·1
6	Rumla Vernacular do.	,,	52	50	36·9
7	Saravni Do. do.	,,	34	32	14·
8	Kakadveri Do. do.	,,	35	24	10·4
9	Motapondha Do. do.	,,	14	13	9·8
10	Balchondi Do. do.	,,	23	15	6·8
11	Varvat removed to Ozar V. School.	,,	25	29	18·4
12	Achhavni Do. do.	,,	24	22	17·9
13	Panaj Do. do.	,,	12	19	14·6
14	Nanapondha removed to Baberkhadak Vernacular School ...	,,	20	37	26·4
15	Baroomal Do. do.	,,	25	18	15 12
16	Amdha Do. do.	,,	15	15	8·4
17	Rajpuri Khatana do.	,,	14	20	7·2
18	Karanjveri Do. do.	,,	21	16	2·7
19	Tiskari Do. do.	,,	12	20	8·4
20	Bhervi Do. do.	,,	23	19	15·8
21	Ghodavani Do. do.	,,	28	16	4·3
22	Mandva Do. do.	,,	10	6	1·2
23	Nanivahial Do. do.	,,	...	17	13·3
		Total ...	764	823	

114. The above statement shows that the number of pupils during the year was 823 against 764 in the last one, showing an increase of 59. The State supplies gratis books, clothing, &c., in order to encourage children to attend schools. Several kaliparaj boys were called from the village schools and admitted in the Dharampur Vernacular and English schools and they are supplied with food, clothing, &c., by the State.

115. Scholarships have been established to send boys and girls to the Training College for study, but none at present take advantage of them. But the boys who have been admitted as shown above in the town schools will be sent there when they have completed their course here.

116. A boarding house has been opened for the orphans assembled here and the State supplies them with rations, books, &c. The poor house having been closed the parentless children who were receiving support therein were sent to the boarding house. They attend the town school.

117. A school has been opened to train the Kaliparaj people in different kinds of professions. Their number is 122 at present. They are taught the professions of carpenters, blacksmiths, stone-cutters &c.

118. Of the 823 pupils 604 were present at the examination of whom 427 were successful, the percentage being 70·6.

119. The expenditure on education during the year amounted to Rs. 6,713 against Rs. 5,520 in the previous one.

120. The Head-mistress of the Girls' school has passed the Ahmedabad Training College examination. She discharges her duties satisfactorily.

121. The teacher of the Mahar school is of the same caste. He has studied in the Dharampur school up to the highest class. The attendance in the school is good.

122. At present several Kaliparaj boys who had studied up to the highest class here have been appointed teachers in the village schools. Since their appointment the number of pupils in the schools is increasing and it is hoped that it will still increase in future.

123. The population of the State is mostly Kaliparaj and is very backward in the matter of education. The people being poor employ their children in household purposes. However endeavours are made in that direction. The Kaliparaj boys at present studying in the Dharampur town school will be sent to the Ahmedabad Training College, when they have completed their study here, and steps will be taken to appoint Kaliparaj teachers in all the village schools by degrees. This will create confidence among the people to send their children to the schools.

124. One Kaliparaj boy has been sent to Ahmedabad to study English. He is making good progress and will pass his Matriculation examination in a few years. Also one Parbhu boy has been sent to Broach for the same purpose and the State has given him a scholarship.

125. The Educational Department has been placed under the supervision of the State Nyayadhish.

CHAPTER VIII.—Miscellaneous.

Wild animals.

126. There are many wild animals in this State and a Shikari Department has been engaged to destroy them. The employees of this Department take rounds in the villages and destroy such animals. During the year under report, the following number of animals was destroyed :—

J. Sladen, Esquire...	3	Panthers.
Other people	5	„
	8	

As shown above 8 panthers were destroyed.

Post and Telegraph offices.

127. There is one Post office in this State but no Telegraph office. There is no need of a Post office elsewhere as there are only a few letters for outside villages.

Record Room.

128. There is one Record room in this State where the records are kept after they have been sorted.

Printing Press.

129. There is a Printing Press here where the forms, stamped papers, &c., used in this State are printed. Also one press has been newly purchased to print maps, prepared by the Survey Department.

Library.

130. There is one Library in this State which is named after the late Raja Saheb "Maharana Shri Narayendevji Library." 8 Newspapers and 2 Magazines are received therein. Besides the above other newspapers are given as presents by the State.

131. The balance at the end of the last year in the Library was Rs. 120-2-5 and Rs. 218-1-0 having been received during the current year on account of the Darbari grant and private subscriptions, the total comes to Rs. 338-3-5. Of this sum Rs. 180-5-0 were spent during the year on account of servants' pay and purchase of newspapers, &c., leaving a balance of Rs. 157-14-5 at the close of the year.

Jurisdiction.

132. The Magisterial powers conferred on the Jagirdar of Behej, the Ijardar of Barai, Bhai Shri Buldevji and the State Thandars have been continued to them.

Concluding Remarks.

133. The last three years having been unfavourable the usual revenue has not been realized. However by reduction in the current expenses I paid during the year towards the liquidation of the debt Rs. 1,67,744 on account of principal and interest. If the Government will be pleased to grant the loan applied for there will be a great saving in the amount of interest to be paid and the debt will be paid off within a few years.

134. After my coming to the Gadi, I was obliged to spend nearly Rs. 9,00,000 (nine lakhs of rupees) on Public Works, in marriage ceremonies, on famine works and in death ceremonies &c., which increased the amount of debt. But if I receive the loan as shown above the debt will be soon paid off.

135. I am very thankful to the Government, the Commissioner, N. D. and the Agent for the help and valuable advice which I always receive from them, and I hope that such help will always be continued.

136. In concluding this report, I have much pleasure in bringing to notice that the services of my Dewan, Rao Saheb Trikamlal were lent to me

by the Government at my request. The extension to remain in the State's service expires on the 31st March 1903. But he has given me much satisfaction by his good advice as well as by his personal experience, activity and ability in conducting the management of my State, and he has carefully discharged the trust placed in him. I am therefore not willing to part with him, and will request the Government before the expiry of his term to continue his services in this State for a further period of one year.

I have, &c.,

(Sd.) MAHARANA SHRI MOHANDEVJI N. RANA,

Raja Saheb of Dharampur State.

DHARAMPUR,
7th August, 1902.

Library 144–145
Jurisdiction 146
Concluding remarks 147–152
Remarks about the Dewan 153

English translation of letter No. 27 dated the 13th August 1903, from Maharana Shri Mohandevji Narandevji Rana, Raja Saheb of Dharampur, to the Collector and Political Agent, Surat.

I have the honor to forward the following account of the Administration of my State for the Samvat year 1959 *i. e.* the period commencing from the 6th July 1902 and ending with the 25th June 1903, together with the Appendices hereto attached.

CHAPTER I.—Political.

2. The relations of the State with the British Government and neighbouring Native States continue cordial.

3. No visit was paid during the year either by His Excellency the Governor or the Commissioner, N. D., but the Collector and Political Agent, visited the State in April last and stayed for five days only.

4. I did not perform any journey during the year but visited several of the State villages and enquired about the condition, &c. of the people.

5. The marriage of my step-sister Shri Suraj Kunvarbaijee was celebrated with the heir apparent of the Lakhtar Darbar in February during the current year and the ceremony passed off without any obstacle.

6. Besides this, the marriage of Shri Mahakunvarbaijee, daughter of my late brother Haridevji, was celebrated with the Kumar of Samatsingjee, Bhayat of the Palitana Darbar.

7. The occasion of the Coronation ceremony of His Majesty the King-Emperor was celebrated with great splendour in the State and the birth-day also was observed befittingly; the people held a feast, a special Darbar was held, streets were lighted and fire works were let off.

Changes in the Administration.

8. There were no changes among the State officers during the current year.

9. The population of the State according to the Census of 1901 is as follows:—

Males.	Females.	Total.
51,467	48,963	1,00,430

10. The condition of the people of this State will be known from the following facts :—

The farmers are not generally speaking in their former condition, as the late famine years had proved hard for them, still the current year being a little favourable in proportion to the previous years, their condition has slightly inproved, and if the years to come would be prosperous, it is greatly hoped that they will regain their former condition. The condition of the Ujaliat and the Kaliparaj farmers if viewed together is similar, but as the population of Kaliparaj is more, the number of poor is more in proportion. They live mostly upon labour and nominal cultivation.

11. The carpenters, blacksmiths and other artisans get sufficient labour and their condition is generally good. The number of the goldsmith class is more in proportion to the population of the town and consequently they do not get sufficient labour, but they being settlers of old, they follow cultivation and are in a good condition on the whole.

12. Several members of the trading class are in a very good condition while the condition of others is common, but there are none extremely poor. They maintain themselves by miscellaneous trades.

13. The Mussalmans are mostly servants and are in a good condition, while some follow cultivation only; some of them are in a good condition and some are in middle state.

14. The Parsis are few in the State and are in a very good condition. They follow cultivation as well as keep liquor shops; so they do not find it difficult to get labourers for the purpose of cultivation, because they go willingly through the temptation of getting liquor.

15. The labouring class gets good wages in the cutting of the State forests by the Contractors and in the works of public utility carried on by the State. Also they collect Asindra and Timroo leaves, Mowra flowers, Mowra seeds, &c., during the season and carry on good business, consequently they find no difficulty in getting means for their sustenance.

16. On the whole, the condition of the population of the State excepting a few is not so good as it should be. But if the years to come would prove prosperous, there is every likelihood of their condition being greatly improved.

CHAPTER II.

Revenue Survey.

17. The survey work is now mostly finished and it is hoped that the survey of the remaining villages will be completed during the next year. I intend to commence classification work when the survey is finished.

18. Up to the end of the last year, the traverse survey of 249 villages was completed and 18 having been traversed during the current year, the total number comes to 267.

19. The number of the villages completely surveyed at the close of the last year was 229 and 17 being surveyed during the current year, the total of completely surveyed villages comes to 246. The survey of three more villages was commenced but remained incomplete at the close of the year.

20. The area of the villages surveyed up to the end of the last year was 4,06,831 acres, and 6 gunthas, and 23,635 acres and 6 gunthas of land having been surveyed during this year, the total area comes to 4,30,466 acres and 12 gunthas. During the current year 23,635 acres and 6 gunthas of land were surveyed against 42,244 acres and 37 gunthas in the last year. The work appears to be less during the current year, but besides the above, big traverse numbers of several villages were divided into small ones and consequently the survey work appears less. Also the numbers surveyed this year are square and smaller than those in former years.

21. A Press has been bought to print the State maps, wherein the maps of the surveyed villages are printed. The numbers in the villages which are now surveyed are made small and square so that the village maps are now made of smaller size than prepared in previous years and consequently the village officials do not find it inconvinent to carry them.

22. The villages which remain to be surveyed are Chakariat villages and they will be completed during the next year.

23. Mr. Vithalrao Narsinh, the Survey Kamdar of the State, is a hard-working officer, performs his work very carefully and keeps good supervision over his subordinates.

24. The area of the Khalsa villages surveyed up to date is 3,40,904 acres and 18 gunthas, of which 82,542 acres and 5 gunthas are under cultivation. The previous years being unfavourable, the people relinquished 12,962 acres and 18 gunthas of land, but subsequently they took up for cultivation 10,434 acres and 5 gunthas of land by "kabuliats." So the actual amount of the "Rajinamas" is 2,528 acres and 13 gunthas. The rains being unseasonable during the previous years, the minds of the people had become disappointed; so they gave up the lands through fear that if the rain did not fall, they would be obliged to pay assessments for lands not cultivated by them. But now there are good hopes for rains and the people would take up more land for cultivation.

25. Several villages on the border of the Nasik District which had become depopulated on account of the oppression of the Makranis, are now being populated and it is expected that still more people will come in and settle there.

26. There is much waste land in the State, but the greater part of it being stony, it is not properly fit for cultivation. It was arranged to give the waste culturable land at half the rates to the people of the several villages, but the years being hard owing to the want of rains, none seemed willing to do so. It is hoped that several people will keep the land at the abovementioned rates if the rains would be adequate and the years prosperous.

27. The people have now enough land in proportion to their means and show no willingness to take up more land unless the years are prosperous.

28. The Huzur and village accounts in the State are kept according to the forms prescribed by Mr. Hope, and the Jamabandi, &c., is done accordingly.

29. There are four Thandars in the State for the Revenue work. They supervise the work of the Talatis, inspect boundary marks, registration of births and deaths and cultivation in waste lands, &c. All revenue work is done generally through them.

30. The revenue work has been entrusted to my Naib Dewan, Mr Bhikhabhai Haribhai, whose services have been kindly lent me by Government at my request. Mr. Bhikhabhai is a man of a calm disposition, and discharges his duties with great care. I have been much pleased with his services.

31. There is no dispute about boundary at present, consequently there is nothing to be reported under this head.

Boundary dispute.

Wards' Estates.

32. My step-brother Prabhatdevji and Kumar Chandradevji, son of my late brother Haridevji, being minors, their estates are under the management of the State. Kumar Shri Chandradevji is studying in the Girassia College, Gondal.

33. Steps are in progress to dispose of the ornaments of Bhai Shri Prabhatdevji as mentioned in my report for the last year, and the work will be commenced in a few days. Prabhatdevji now stays in Chhatrapur, Bombay and other places and it is feared that he must have increased his former debt. From the sale proceeds of the ornaments, Government securities will be purchased, so that there is every likelihood of his income being increased. And there would be no fear of his either selling or mortgaging the ornaments.

34. The figures of receipts and charges of the Minors' estates will be known from the following table :—

No.	Name.	Age.	Place of birth.	Place of Education.	Balance at the beginning of the year.	Receipts.	Disbursements.	Balance at the end of the year.		Value of moveable property in hand.	Area of land under management.
								In cash.	In Government Securities.		
					Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs.		Ac. Gu.
1	Bhai Shri Prabhatdevji.	20	Dharampur.	Gondal.	872 13 7	6,158 4 0	5,964 11 5	1,066 6 2	47,000	...	4,973 2
2	Kumar Shri Chandradevji.	17	Dharampur.	Gondal.	1,036 8 10	7,205 13 1	8,236 4 10	6 1 1	24,000	...	3,632 0

35. Rs. 2,600 were paid during the current year towards the liquidation of Bhai Shri Prabhatdevji's debts and consequently the expenditure appears rather more.

36. Rs. 8,713-6-9 were spent in the marriage ceremony of the sister of Kumar Shri Chandradevji during the current year, of which bills amounting to Rs. 7,521-7-4 have been paid and Rs. 1,191-15-5 still remain to be paid. Having no other balance in hand, I was obliged to sell off Government securities of the value of Rs. 4,000 belonging to Chandradevji.

CHAPTER III—Protection.

Legislation.

37. The Civil and Criminal work of the State is being done on the principles of the British Indian Laws.

Military.

38. The strength of the Military force during the year was the same as in the last year *i. e.* 206. The details will be known from Appendix No. V.

101	Police Constables.	6	Mounted Constables.
25	Abkari Constables.	3	Revenue Sowars.
36	Arabs.	3	Abkari Sowars.
2	Gunners.	30	Sowars of the paga.
		206	

Police.

39. For the protection of the people, 110 men including officers have been engaged in this State as detailed below :—

1	Police Superintendent.	7	Head Constables.
1	Fouzdar.	94	Constables.
1	Naib Fouzdar.	6	Mounted Constables.
		110	

40. During the year under report the number of police was the same as that of the last year *i. e.* 110.

41. To keep proper order in the State seven outposts have been kept and the men stationed therein take rounds in villages and see that no crimes occur. The police patels of villages render good assistance to the police in their work and keep proper order in their respective villages.

42. Of the total number of Police and Abkari Constables, 52 men are able to read and write while 14 are under instruction. One pensioned officer of the British police has been engaged to give instructions in drill to the police.

43. Three of the police constables were dismissed the service for neglect of duty, seven were departmentally fined and one was magisterially punished during the current year.

44. Six of the Constables were rewarded with promotion for good work done.

45. Mr. Chimanlal Ajitrai, 1st Class Head Constable in the Surat District Police, has been appointed to the post of the Police Superintendent in the State. He is very active, discharges his work very well, and keeps proper supervision over his subordinates.

Criminal Justice.

46. The number of offences that occurred during the current as well as the past year will be known from Statements No. 7 and 9. During the current year 171 offences were reported against 228 in the previous year.

47. The number of cases of theft during the year was 31 against 19 in the previous year, showing an increase of 12. The number of Abkari offences was 89 against 135 in the previous year, showing a decrease of 46. Cases of hurt numbered 25 during the current year against 42 in the previous one, showing a decrease of 17. There have been some increase and decrease in other kinds of offences, but it is not worth noting.

48. Among serious offences, there was only one case of culpable homicide during the year under report while there were four serious offences of dacoity, &c., in the previous one.

49. The facts of the offence of culpable homicide are that one Pandia Kakadia was a servant to Ramji Janu, resident of the Ijara village Varna. This Pandia had an improper connection with Ramji's wife. One day all were intoxicated with toddy and while Ramji's wife was sleeping outside the house beneath a tree, Pandia went there and forcibly cohabited with her. Upon her crying out, her husband at once came there. As his rage was excited to the utmost seeing Pandia practising such a foul deed, he struck him with a stone in the excitement of drunkenness and killed him. The said Pandia had been a servant at the accused's for many years. The accused was acquitted as he committed this offence in a state of intoxication and having had cause for grave and sudden provocation, but without any intention of killing him.

50. The Ijardar of Barai disposed of 1 case of theft, 2 of mischief, and 2 of hurt during the current year. He imposed punishment of fines only in the cases of theft and mischief and acquitted the accused concerned in the case of hurt.

51. The Jagirdar of Behej disposed of 2 cases, 1 of theft and 1 of hurt, during the year under report. The accused concerned in the case of theft was sentenced with imprisonment, and punishment of fine was imposed on the accused concerned in the case of hurt.

52. During the year under report, 174 offences were to be disposed of including 3 which were pending from the last year. 173 were decided while 1 remained pending at the close of the year as the accused concerned were not arrested.

53. Of the 257 accused sent up for trial, 177 were convicted and sentenced, 78 were either discharged or acquitted for want of sufficient evidence as well as without being brought to trial on mutual understanding, and 2 of the accused awaited trial at the close of the year.

54. The percentage of conviction this year was 88·3 against 91·8 in the previous year. The reason for the decrease in the percentage is that several accused were discharged on mutual understanding.

55. The property stolen during the year amounted to Rs. 1,266-2-6 of which property worth Rs. 1,001-12-0 was recovered. The property stolen in the last year amounted to Rs. 635-13-0 of which property worth Rs. 588-13-3 was recovered. The percentage of property recovered to that stolen was 79 against 92 in the last year.

Criminal Appeals.

56. There were no appeals in the Huzur Court during the year. In the Dewan's Court, there was one appeal which was disposed of during the year.

Extradition.

57. The relation of the State with the British Government and the neighbouring Native States, as regards the extradition of offenders, continues cordial. During the current year the following number of offenders was made over by and to this State.

1 Prisoner was received from the 2nd Class Magistrate, Dahanu.
1 Prisoner was received from the 2nd Class Magistrate, Peint.
1 Prisoner was received from the Commissioner of Police, Bombay.
1 Prisoner was received from the 2nd Class Magistrate, Chikhli.

4

2 Prisoners were sent to the 2nd Class Magistrate, Peint.
1 Prisoner was sent to the Bansda State.

3

Jail.

58. The Jail building is a pacca one where prisoners sentenced to imprisonment are kept. A room has been set apart in the building for the under trial prisoners. The Police mount guard at the Jail.

59. During the year under report 246 prisoners were confined in the Jail against 318 in the previous year. The average daily attendance of the prisoners was 39·8. Besides the above, several prisoners convicted of offences against the State have been sent to the Thana, Yeravda and Hyderabad Jails. The total expenditure on the Jail including rations, &c., amounted to Rs. 3,334 against Rs. 2,956 in the last year.

Roads.

60. The prisoners are mostly employed on roads. Prisoners for long terms are engaged in weaving cotton tapes, coir mattings, ropes, &c. The officers of the State occasionally visit the Jail and see that everything goes on properly.

61. There are four Courts in the State for the administration of Civil Justice. The number and value of the suits filed during the year as well as in the previous one will be known from the following table :—

Civil Justice.

Name of Court.	Suits for immoveable property.				Money Suits.			
	1901-1902.		1902-1903.		1901-1902.		1902-1903.	
		Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
R. S. Dewan's Court...	...	.....	...	.....	...	.....	...	.....
Naib Dewan's ,, ...	...	.....	...	.....	...	.....	...	.....
Nyayadhish's ,, ...	...	.....	...	.....	52	5,110 12 6	38	7,755 0 5
Jagirdar of Behej ...	...	.....	...	.....	...	.....	...	.....

62. During the year under report 41 suits were filed of which 38 were money suits covering a value of Rs. 7,755-0-5 and three were for other rights.

Including the 8 undisposed of cases of the last year, there were in all 49 to be disposed of. Of these 46 suits were disposed of during the year while 3 remained pending at its close. 1 is pending the appointment of a guardian to the minor defendant, 1 is pending the appointment of an heir to the deceased defendant, and 1 is pending on examining accounts.

63. During the year under report no appeal was filed in the Huzur Court. 2 appeals were filed in the Dewan's Court, which were disposed of during the year.

Civil Appeals.

64. During the year under report, there were 33 applications for the execution of Civil Court's decrees, and eight were pending from the last year, which makes up the total of 41. Of these 39 were disposed of during the year while 2 remained pending at its close 1 pertaining to immoveable and 1 to moveable property.

Application for the execution of decrees.

65. The State Nyayadhish, Mr. Harpatram Harmukhram Mehta has passed the Pleader's examination. He discharges his duties very carefully and impartially.

66. The number of documents presented for Registration during the current as well as the past year and their value have been given in the following table :—

Registration.

Number.	Description.	1901-1902.				1902-1903.			
		Number of documents.	Value of property.		Fees realized.	Number of documents.	Value of property.		Fees realized.
			Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
1	Mortgages	4	1,699 0 0		7 8 0	6	1,546 5 0		10 0 0
2	Sale-deeds	18	5,361 2 3		32 12 0	11	6,829 8 11		26 0 0
3	Wills	1	.....		2 0 0	...	.....		.....
4	Miscellaneous documents	2	.....		2 8 0	1	151 0 0		1 8 0
	Total ...	25	7,060 2 3		44 12 0	18	8,526 13 11		37 8 0
	Deduct expenditure...	...	.....		.....	...	.....		...
	Net profit	...	.....		44 12 0	...	.....		37 8 0

67. As shown above 18 Documents were presented for Registration during the current year against 25 in the previous one, showing a decrease of 7. The fees realized during the year was Rs. 37-8-0 against Rs. 44-12-0 in the last one. All the documents presented were registered.

The ryots of this State are mostly Kaliparaj and poor, consequently more documents are not executed.

68. There is a Municipality in the town of Dharampur only. The State bears all the expenditure in connection with it. As the Kaliparaj ryots of the State build their huts in their own fields apart from each other, there appears no necessity for Municipalities elsewhere.

Municipality.

69. During the year under report, the charges on account of Establishment, Lighting and Watering roads, &c., amounted to Rs. 2,047 against Rs. 2,973 in the previous year, showing a decrease of Rs. 926.

CHAPTER IV.—Production and Distribution.

Agriculture, weather and crops.

70. The public health was not good this year. Plague rats made their appearance from the month of January and the first case of plague occurred in the fishermen's quarters. It raged up to the month of May and cases occurred at intervals in scattered places. The current diseases were malaria, cough, diarrhœa and skin diseases.

71. The rain-fall during the year measured 93 inches and 40 cents against 64 inches and 98 cents in the previous year, showing an increase of 28 inches and 42 cents. The average rain-fall of the past five years was 81 inches and 71 cents. Although the rain-fall was more during the year, but it being not seasonable, the crops suffered to some extent and the yield of lower sort of rice was less. The crops of pulse also suffered to some extent. On the whole, the average yield excepting that of the lower sort of rice was 14 annas in the rupee.

72. During the year, worms in several villages damaged the corn that was sown and the grass. Locusts made their appearance in several villages but they did not commit much ravages.

73. The thermometer rose to 101° F. H. during the year as it did in the last one.

74. The people did not find any difficulty in obtaining labour as cutting of the forest was carried on by the Contractors and by the State departmentally. The rate of wages varied from 1½ annas to 2 annas.

The following comparative statement will show the prices of food grains during the current as well as the past year :—

Articles.	Rate per maund.					
	1901-1902.			1902-1903.		
	Rs.	a.	p.	Rs.	a.	p.
Bangalia Paddy	1	4	0	1	3	0
Kolum	1	4	0	1	3	0
Ghonsalia	1	0	0	1	0	0
Wankvel	0	14	0	0	13	0
Nagli	1	2	0	0	14	0
Kodra	0	12	0	0	8	0
Toor	1	8	0	1	1	0
Jowari	1	4	0	1	0	0
Val	1	8	0	0	13	0

75. The prices being lower during the current year than the last one, the people had to suffer losses to some extent.

76. Since the famine year, the people have learnt to keep grain in store, consequently they did not require much grain as tagavi for seeds, &c. However 2,000 maunds of grain were given to the middle class people of several villages for seeds, &c. as tagavi advances.

Forest.

77. Up to the end of the last year 77 forests, measuring 166 square miles and 182 acres, were reserved, and 16 forests, measuring 8 square miles and 469 acres, being reserved during the year under report, the total number of such forests comes to 93 and the area to 168 square miles and 74 acres. This area has been arrived at after deducting the area of those forests which were removed from the number of reserved forests during the year.

Forest.

78. Lines were made around the new reserves and 814 boundary marks were raised.

79. The area of the forests brought under protection up to the end of the last year was 36,080 acres and 6 gunthas of which 100 acres being added to the reserves, the actual area comes to 35,980 acres and 6 gunthas. The traverse numbers of some villages measuring 8,160 acres and 2 gunthas, having been protected during the current year, the total area comes to 44,140 acres and 8 gunthas.

80. Seeds of teak, tanach, kher and mowra were sown during the current year as usual, but they did not germinate properly owing to the want of rain in the latter part of the year.

81. No State forests could be sold owing to the famine of the previous years, prevalence of plague here and there, and the forests of the neighbouring States being sold at cheaper rates. However Rs. 32,019 were realized by the sale of bamboos and miscellaneous timber during the current year against Rs. 27,254 in the previous one, *i. e.* Rs. 4,765 more were realized during this year.

82. During the year under report 21 offences against the Forest rules had occurred and the defaulters were fined in the aggregate to Rs. 44-5-0.

83. There were, during the year, fires in the forests of 4 villages, which spread into 350 acres of land. Rs. 9 on account of damages were realized from the persons through whose neglect these fires took place.

84. Sufficient establishment has been kept for the proper supervision of the forests. The Forest Officer, Mr. Ranchhoddas Dharsi, has studied in the Madras Agricultural College and has a good knowledge of the Forest Department. He discharges his work very carefully.

85. Forest Inspector, Mr. Nandlal Bholanath has passed in the subject of Forestry in the College of Science, Poona. He also takes pains in his work.

Trade and Manufacture.

86. There are no means of trade in this State. Only grain, and Asindra and Timbroo leaves for Cheroots are exported during the season. As regards manufacture, only bamboo baskets and mats are made here.

Fairs.

87. In this State only one fair is held at Fatehpur in honor of Bhairavnath during the month of Chaitra every year, and it is mostly attended by the Kaliparaj people of this State as well as those of the neighbouring Native States. Besides the above, no other fairs worth noting are held at other places.

Public Works.

Public Works.

88. During the year under report Rs. 45,210 were spent on Public Works of which Rs. 32,128 were spent on original works, Rs. 12,121 in repairs, and Rs. 961 on account of establishment as detailed below :—

Original Works.

Rs.	1,604	5	1	Additions to the Huzur Haveli and staircases in the Mohan Vilas.
„	6,602	10	2	Additions and alterations in the Survey and Police offices.
„	519	10	6	Additions to the Art-school building.
„	366	10	4	Amount spent in providing railings to the Dharampur Tank.
„	866	2	0	Additions to the Dharmashala building.
„	367	14	10	Paving of stones in the Hanuman Jhampa Police station.
„	7,148	14	8	A new bungalow, cook-rooms, store house and cattle-shed in the Public garden.
„	1,422	6	0	Amount spent in erecting plague-huts.
„	1,183	14	8	Do. in completing the Mahar school building.
„	887	2	6	Do. in making new kiln and roof in the Sadar Distillery.
„	95	14	4	Do. in making a foundation of a Dehri.
„	776	9	7	Do. on the Mohangarh carriage Department.
„	473	12	5	Do. in building a wooden bridge on the Malanpada road and pucca crossing on the road behind the Jail.
„	5,997	6	6	Amount spent on the Chowras in the village of Amba.
„	3,815	0	0	Do. do. wells do.
Rs.	32,128	5	7	

Repair Works.

Rs.	3,490	13 1	Amount spent on the Bulsar, Amba, Avdha, Luveri and other roads.
„	553	12 4	Amount spent on the Chowras in the villages of Barsal, Kharvel, Khatana, Bopi, &c.
„	8,076	0 7	Repairs to miscellaneous buildings and offices.
Rs.	12,120	10 0	
„	961	0 0	Establishment charges.
Rs.	45,209	15 7	

89. Expenditure on Public Works was incurred as stated above. Works remaining incomplete from the past years and others that were deemed necessary were finished during this year.

90. The expenditure on the Chowras and wells in the village of Amba was incurred in the last year but having remained unpaid, was paid during this year.

CHAPTER V.—Revenue and Finance.

91. The figures of Receipts and Expenditure of the State will be known from the following table :—

Revenue and Finance.

Year.	Opening balance.	Receipts.	Expenditure.	Closing balance.
Samvat 1959,	Rs.	Rs.	Rs.	Rs.
A. D. 1902-1903 ...	1,272	3,60,045	3,52,983	8,334

92. The figures of receipts and charges under the different heads will be found in Statement No. XVII.

93. During the current year, the total income amounted to Rs. 3,60,045 against Rs. 4,07,047 in the previous one showing a decrease of Rs. 47,002 the reasons for which are stated below.

94. During the year under report, the Land revenue amounted to Rs. 1,77,434 against Rs. 1,83,904 in the previous year *i. e.* Rs. 6,470 less were realized during the year as most of the people gave "Rajinamas" of land owing to the unseasonable and untimely rain-fall in past years.

95. The Abkari revenue including receipts from Ganja, Bhang, Opium, Toddy, &c. amounted to Rs. 1,00,918 during the current year against Rs. 1,24,373 in the previous one, showing a decrease of Rs. 23,455 which is due to the insufficient sale of liquor owing to the unfavourable times, as well as to the fact that no shop license fee was realized this year, the contract having been given to a farmer.

96. The miscellaneous Receipts amounted to Rs. 2,293 in the current year against Rs. 7,530 in the previous one showing a decrease of Rs. 5,237.

97. Rs. 22,160 were realized during the current year under the head "Recovery on account of former dues" against Rs. 56,030 in the previous one showing a decrease of Rs. 33,870. The realizations during the year

appear less as most of the dues were realized during the previous year and it is proposed to remit the remainder, to recover which there are no means left.

Expenditure.

98. The total expenditure during the current year amounted to Rs. 3,52,983 against Rs. 4,08,743 in the previous one showing a decrease of Rs. 55,760 which is due to nothing having been paid towards the liquidation of debt and interest during the current year, the details for which have been given later on.

99. During the year under Report Rs. 45,210 were spent on Public Works against Rs. 11,379 in the previous one showing an increase of Rs. 33,831.

100. Remissions in land revenue were granted to the cultivators to the extent of Rs. 9,476 during the year under report against Rs. 25,600 in the previous one *i. e.* Rs. 16,124 less were remitted to the people. As remissions to a large extent were granted to the poor cultivators last year, there appeared no necessity to grant more.

101. There was an increase of Rs. 4,299 in Darbari expenses during the year but there was a decrease of Rs. 600 in the expenses of my family members.

102. During the year under report nothing was paid on account of principal of debt but Rs. 8,431 were paid on account of interest, the reasons for which have been given under the head of debt.

103. The College expenses during the year amounted to Rs. 9,009 against Rs. 11,381 in the previous year showing a decrease of Rs. 2,372.

104. Rs. 1,028 on account of Pleader's fees, &c., were spent during the current year against Rs. 354 in the previous one showing an increase of Rs. 674.

105. Also Rs. 43,867 were spent in the marriage ceremony of my step-sister. The health of my heir apparent Shri Vijaydevji having failed through fever, &c., I was advised by the Civil Surgeon to send him to Dumas, Bombay, Poona, Tithal, &c., where a large sum of Rs. 35,495 was spent on account of Doctor's fees, house-rent, boarding, &c. I had no other remedy but to incure this expenditure to improve his health. His health has improved by the help of the Doctors and good weather. His illness was such as to cause great anxiety but now it is better.

106. My Rani Saheb was suffering from severe illness for about seven months. On the advice of the Doctors to send her to a warm climate I sent her to her father's at Virpur and a large sum was spent in travelling, Doctor's fees, on the men who had accompanied her there, which expenditure is included in the above mentioned amount.

107. The climate of the State being very unhealthy it cannot but affect either me or some one of my family members every second or third year, in which, I regret, I am obliged to spend a large sum.

108. In addition to the above Rs. 3,185 were spent while my camp was at Tiskari owing to the prevalence of plague in the Town.

Debt.

110. The sum of Rs. 8,431 only was paid towards the liquidation of debt in this year and as I had to spend a large sum in the marriage ceremony of my sister, in unforeseen illness of my heir-apparent and Rani Saheb, I regret I could not pay more towards it but I hope to pay a good sum in the next year.

At the close of the year the debt amounted to Rs. 6,81,234; besides Rs. 17,854 are added to the said sum and which bear no interest.

Abkari and Opium.

111. The sale proceeds of the opium farm during the year realized were Rs. 100 against Rs. 110 in the previous year. As there are not many opium eaters in the State its consumption is limited and consequently the sale of the farm does not realize much. During the year under report 117 lbs. and 18½ tolas of opium were sold against 122 lbs. and 25½ tolas in the preceding one.

Opium.

112. There are 3 distilleries in this State where liquor is distilled and supplied to the different licensed Vendors. Up to the last year, the Abkari farm was given to Mr. Dinshaw Pestonji of Ahmedabad but he being unable to pay the instalments regularly it was cancelled at his request within the year and its management was conducted by the State.

Abkari.

113. During the year 2,083 gallons of 25° U. P. and 1,53,963½ gallons of 60° U. P. liquor were sold against 2,444½ gallons of 25° U. P. and 1,92,683 gallons of 60° U. P. liquor in the previous year.

114. The total Abkari revenue during the year under report from Bhang, Ganja, Opium, Country liquor, &c., amounted to Rs. 1,00,918 against Rs. 1,24,373 in the previous year, showing a decrease of Rs. 23,455 which is due to the straitened condition of the people, since the last famine they have been storing up grain, leaving the habit of drinking as they underwent some hardship during that year. Also they had not sufficient money to buy liquor as none would lend them on credit during such times. Further the shop license fee which was received every year was not received during this year the Abkari farm having been given to a contractor.

115. In the neighbouring States of Bansda and Surgana, 60° U. P. liquor is sold at the rate of 1 anna per seer and the people of this State go there to drink cheap liquor. In the Portuguese territory, the liquor is sold even at less rate occasionally and consequently the State has to suffer much loss in

the Abkari revenue. To prevent this the State was obliged to keep the rate of 1 anna at several shops during the current year.

116. The Abkari management was conducted for the first eight months by the State and for the last four months the farm was given to Messrs Pestonji Ratanji & Co. resident of Bilimora for Rs. 90,000 per year. The above period expiring the contract has been granted for a further period of 5 years on the same condition.

117. Sufficient establishment has been engaged to prevent illicit distillation and to see that the people may not bring liquor from foreign limits. The Abkari officers during the year numbered 89 against 135 in the previous one.

Chowth Jakat.

118. During the year under review Rs. 5,402 were realized on account of Chowth Jakat against Rs. 5,746 in the previous one showing a decrease of Rs. 344 which was owing to the less exports during the year.

CHAPTER VI.—Vital Statistics and Medical Relief.

Dispensary.

119. There is one dispensary in this State and one travelling Doctor has been engaged who visits the State villages and distributes medicine to the villagers. The following statement will show the number of patients treated and the number that recovered during the year.

Dispensaries.	Number of patients treated.		Results.				Expenditure.	Average daily attendance.
	Indoor.	Outdoor	Discharged.	Absent.	Died.	Remaining under treatment.		
Jubilee Dispensary...	84	97,89	9,753	...	5	115	6,892	175·1
Leper Asylum ...	37	...	...	9	3	25	1,174	25·7

120. From the above statement it will be seen that the number of in-door patients during the year was 84 against 83 in the previous one. The number of out-door patients was 9,789 during the current year against 11,600 in the preceding one showing a decrease of 1,811. The decrease is due to the fact that plague having broken out in the month of January the people were persuaded to go out of the town whence they returned only in the month of May. Consequently they did not come for medicine. Of the indoor patients, 74 having recovered were discharged and 5 patients died while in the dispensary, of whom 3 died from brain-fever, 1 from fever, and 1 from gout and 5 remained under treatment at the close of the year. All the in-door patients were mostly Kaliparaj.

121. Of the 9,789 out-door patients, 9,679 patients having recovered were discharged and 110 remained under treatment at the close of the year. Of these patients, 1,757 were Kaliparaj from which it can be presumed that they have left their former superstitions and have begun to avail themselves of the dispensary. Some had surgical operations willingly performed.

122. The number of lepers at the end of the last year was 30, and 7 having been admitted during the current year the total number comes to 37. Of these 3 died of frightful leprosy and 9 left the asylum, leaving at the end of the year 25 lepers, 15 males and 10 females under treatment.

123. The public health was not good during this year. The chief diseases were those of fever, diarrhœa, dysentery, cough, eye-diseases, &c. Plague rats made their appearance in the month of January and the first case from plague occurred in the fish market in the beginning of this month. The people being instructed to vacate the town and stay out, did so, consequently not much harm was caused. It continued up to the month of May. There were in all 39 attacks and 24 deaths. The public health in other months excepting these was good and the death rate was low.

124. The in-door patients and the lepers are provided with food, milk and clothing at the State's expense and they are well taken care of.

The total expenditure under the head Dispensary amounted during the year to Rs. 6,892 against Rs. 6,787 in the previous one.

Sufficient stock of medicine and instruments has been kept in the dispensary and the people experience no inconvenience.

125. Mr. Cawasji Temulji Pardiwalla, the Chief Medical Officer, is a graduate of the Grant Medical College. He discharges his duties with great care and pains, and being of a very social disposition, the people are much pleased with him. He visits patients unable to attend the dispensary at their houses with great delight and without any desire for gain.

126. The Talatis of villages keep registers of births and deaths and submit monthly returns. The following table will show the number of births and deaths during the current year :—

Births and Deaths.

	1901-1902.	1902-1903.	Increase.	Decrease.
Births	1,543	2,482	939	...
Deaths	5,744	3,346	...	2,398

127. Three Vaccinators have been engaged in this State to vaccinate children. They move into the villages and vaccinate children. The number of children vaccinated during the current as well as in the past year will be known from the following table :—

Vaccination.

Operation by whom performed.	Number of persons vaccinated in	Number of persons vaccinated in	Results.			
			Successful.		Unsuccessful.	
	1901-1902.	1902-1903.	1901-1902	1902-1903.	1901-1902.	1902-1903.
3 Vaccinators ...	1,964	3,161	1,913	3,077	51	84

128. During the year under report 3,161 children were vaccinated against 1,964 in the previous one showing an increase of 1,197. Of the total 3,161 vaccinations, 3,077 proved successful and 84 unsuccessful. 34 children were re-vaccinated. During the current year the Inspector of the vaccination Department had been here to inspect the work of the vaccinators.

129. Three Kaliparaj boys from this State have been sent to Surat to learn the vaccination work at the State's expense. The expenditure on account of vaccination amounted to Rs. 970 during the current year against Rs. 930 in the previous one.

CHAPTER VII.—Instruction.

Education.

130. The number of schools during the current year was the same as in the last one *viz.* 23. The number of children taking instruction in each of the schools will be known from the following table :—

No.	Name of School.	Description of School.	Number of pupils on the 31st March, 1902.	Number of pupils on the 31st March, 1903.	Daily average attendance.
1	Maharana Shri Narayendevji English School	Boys.	49	45	32·5
2	Do. do. Vernacular School...	,,	238	238	158·8
3	Darbari Girls' school	Girls.	92	98	54·6
4	Do. Urdu School	Boys.	31	34	10·5
5	Do. Mahar do.	,,	25	25	22·
6	Rumla Vernacular do.	,,	50	56	32·5
7	Saravni Do. do.	,,	32	30	14·5
8	Kakadveri Do. do.	,,	24	22	17·7
9	Motapondha Do. do.	,,	13	14	9·8
10	Balchondi Do. do.	,,	15	15	6·7
11	Ozar Do. do.	,,	29	26	18·4
12	Achhavni Do. do.	,,	22	17	11·4
13	Panaj Do. do.	,,	19	17	11·9
14	Babarkhadak Do. do.	,,	37	31	18·7
15	Barumal Do. do.	,,	18	17	12·6
16	Amdha Do. do.	,,	15	15	6·7
17	Rajpuri Do. do.	,,	20	20	10·2
18	Karanjveri Do. do.	,,	16	14	3·9
19	Tiskari Do. do.	,,	20	20	9·3
20	Bhervi Do. do.	,,	19	16	10·2
21	Ghodavani Do. do.	,,	16	14	4·6
22	Mandva Do. do.	,,	6	6	1·4
23	Nanivahial Do. do.	,,	17	15	11·3
	Total ...	...	823	805	

131. The above statement shows that the number of pupils during the year was 805 against 823 in the previous one, showing a decrease of 15. The State supplies gratis books, clothing, &c., in order to encourage children to attend schools. Several Kaliparaj boys were called last year from villages and admitted in the Dharampur Vernacular and English Schools and they are supplied with food, clothing, &c., by the State.

132. Scholarships have been established to send boys for further study in the Training College, but none at present takes advantage of them. However it is hoped that in a year or two some boys from the higher standards of the Vernacular School will be sent to Ahmedabad for study. Scholarships have been awarded to two students and they have been sent to Bombay and Broach to study English. One boy is studying English in Ahmedabad.

133. A boarding house has been opened for the orphans and they are supplied with food, clothing, books, &c., by the State.

134. A school had been opened to train the Kaliparaj people in different kinds of professions. Their number was 125 and they having learnt the professions of carpenters, blacksmiths, masons, stone-cutters, &c., are now employed to work.

135. Kaliparaj masters have been employed in most of the schools in order that the Kaliparaj boys, seeing them, might be tempted to attend the school, and as others will be fit for the work, they will be employed in the remaining schools.

136. The master of the Dharampur Vernacular school and the Headmistress of the girls' school, have studied in the Ahmedabad Training College and passed the examination. They are doing their duties satisfactorily.

137. The attendance in the village schools is not sufficient although steps as stated above are being taken by the State to give every sort of encouragement to the people. As the Kaliparaj people have a great apathy to education and being of poor state, they engage their children in the field and house-hold duties. It will take still much time before these people will realize the true value of education. However if the present attempts are continued by the State, it is hoped that they will be civilized in a short time.

138. Of the 805 pupils, 578 were presented at the examination during the current year, of whom 390 were successful. The result was 67·4 per cent which is satisfactory.

139. The expenditure on education during the year under report amounted to Rs. 7,382 against Rs. 6,713 in the previous one.

CHAPTER VIII.—Wild Animals.

Wild animals.

140. There are many wild animals in this State and a Shikari Department has been engaged to destroy them. The employees of this Department take rounds in the villages and destroy such animals. During the year under report, the following number of animals was destroyed :—

J. Sladen, Esquire...	1	Panther.
Other people	4	„
	5	

141. There is one Post office in this State but no Telegraph office. There is no need of a Post office elsewhere as there are only a few letters for outside villages.

Post and Telegraph offices.

142. There is one Record room in this State where the records are kept after they have been sorted.

Record room.

143. There is a Printing Press here where the forms, stamped papers, and stamp labels used by the State are printed. Also one press has been purchased to print maps, prepared by the Survey Department.

Printing press.

144. There is one Library in this State which is named after the late Raja Saheb "Maharana Shri Narayandevji Library." 6 Newspapers and 2 Magazines are received therein, besides 8 Newspapers given as presents by the State.

Library.

145. The balance at the end of the last year in the Library was Rs. 157-14-5 and Rs. 434-6-6 having been received during the current year on account of the Darbari grant and private subscriptions, the total comes to Rs. 592-4-11. Of this sum Rs. 565-3-2 being spent during the year, the balance at its close was Rs. 27-1-9.

Jurisdiction.

146. The Magisterial powers conferred on the Jaghirdar of Behej, the Ijardar of Barai, Bhai Shri Buldevji, and the State Thandars have been continued to them.

Concluding Remarks.

147. I could not pay more during the current year towards the liquidation of debt as the Land revenue was not properly realized the past years being unfavourable, and as I had to spend Rs. 1,27,757 in the marriage-ceremony of my sister Shri Suraj Kunverba, the ill-health of my heir-apparent and on Public Works. The prospects of the next year appear promising and if the revenue will be properly realized a good sum will be paid towards its liquidation. The forest income also is not properly received owing to bad years.

148. The famine year and the subsequent three years being hard I had to incur heavy expenditure and as the income was not fully realized I could not pay anything towards the debt. However I shall try my best to pay it off in a short time.

149. I have been greatly obliged to you and the Government for the assistance rendered in the arrangement for the marriage of my sister and niece during the current year. Also I and the Ryots of my State are under great obligation to you as with your assistance I was able to remove the Makranis from my State.

150. Rs. 47,002 less were realized during the current year on account of Abkari, Land Revenue and miscellaneous dues while Rs. 43,867 were spent in the marriage ceremony of my sister Shri Suraj Kunverbaiji. I had to spend according to the State customs a large sum of about two lakhs of rupees in the marriage of my sister Sardar Kunver after I came to the Gadi. Also a large sum was spent in the famine year for the maintenance of my ryots, and I have done all in my power to help them which Government are well aware of.

151. The marriage of my sister Shri Suraj Kunvar was celebrated this year with the assistance of Government and the Collector and Political Agent and Rs. 43,867 were spent after it. Had I not been sufficiently assisted in the matter by the Collector and Political Agent I would have been obliged to spend not less than what I had done in the marriage of my sister Sardar Kunverbaiji, *i. e.*, I would have had to incur an expenditure of two lakhs of rupees. However with some economy I spent the above sum in this marriage and for which I am greatly obliged to you.

152. Owing to the above facts I was able to pay nothing towards the debt this year but if the next year would prove prosperous I hope I shall be able with economy to pay a good sum.

153. In concluding this report I am very glad to express my satisfaction at the good services rendered by my Dewan, R. S. Trikamlal Dinanath, that since he was engaged in this State's service he has paid much attention to every work. He is very able, active and careful in his work and thus he has been able to make and continues to make many improvements in the Land Revenue and other Departments of the State. He has been of great service to me in every work relating to my Administration. I am, therefore, not willing to part with him and will request the Government to kindly continue his services in this State for a further period of one year.

I am &c.,

(Sd.) MAHARANA SHRI MOHANDEVJI N. RANA,

Raja Saheb of Dharampur State.

DHARAMPUR,
13th August, 1903.

English translation of letter No. 21 dated the 20th August 1904, from Maharana Shri Mohandevji Narandevji Rana, Raja Saheb of Dharampur, to the Collector and Political Agent, Surat.

I have the honour to forward the following account of the Administration of my State for the Samvat year 1960, *i. e.* the period commencing from the 26th June 1903 and ending with the 13th July 1904, together with the Appendices hereto attached.

CHAPTER I.—Political.

2. The relations of the State with the British Government and the neighbouring Native States continue cordial.

3. Mr. E. Lawrence, Commissioner, N. D. paid a visit to this State during the month of April to deliver to my Dewan Mr. Trikamlal Dinanath, the Sanad for the title of "Rao Bahadur" which the Government had kindly conferred on him. He stayed here nearly six days. Mr. W. T. Morison, Collector and Political Agent, Surat visited the State during the month of May and stayed about three days.

4. I did not perform any journey during the year but travelled in the State villages for some time.

5. During the year under report my step-brother Shri Buldevji died on the 27th May 1904, in the prime of his life after suffering a long sickness, which caused great sorrow among the members of my family.

6. Also my step-sister Shri Chandrakuverbaiji who was married to the Raja Saheb of Bansda died on the 3rd September 1903, after a long illness which was a matter of great sorrow to us.

Changes in the Administration.

7. There was no change among the officers of the State during the year.

8. The population of the State according to the last census is as follows :—

Males.	Females.	Total.
51,467	48,963	1,00,430

9. The condition of the ryots of the State is as follows :—

The condition of the cultivators is the same as in the last year. Although the rainfall was good during the year, the appearance of the

locusts during the latter part of the season caused damage to some extent to the crops. In the hilly parts the damage was great. The crops of Nagli, Khursani and Jowari were chiefly destroyed. The other crops being ripe no damage was done to them. Since the famine year the people are every year beset with some kind of calamity. However, if the future years turn out prosperous their condition will improve soon. The condition of the Ujaliat cultivators is the same as above.

10. The condition of the carpenters, lohars and other artisans is commonly good as they can get sufficient labour. The number of goldsmiths is more than is needed in proportion to the population of the town and consequently they cannot get sufficient work. Many of them, however, carry on cultivation and so the condition of many of them is good.

11. Among the trading class the condition of some is ordinary, while others are in very good condition. They trade in grain and other miscellaneous articles.

12. The greater portion of the Musalmans are in the service of the State and they are in good condition. Some follow cultivation, only a few of them being well-to-do, while others are in fair condition.

13. The number of Parsis in the State is limited. Many of them are in good condition, while a few are poor. They follow the occupations of cultivation, giving grain to the people for "bee khavti," and also keep liquor shops.

14. The labouring class gets good wages in the cutting of the State forests sold to contractors and also in miscellaneous works carried on in the State as well as in the town. Besides the above the labourers collect mowra flowers and seeds and asindra and timroo leaves during the season wherein they earn a good amount of money. They do not find any inconvenience in maintaining themselves.

CHAPTER II.

Survey.

15. As stated in the last year's report the survey work was completed during the year. The traverse survey and survey with cross-staffs and chains of 267 villages have been completed. Only 6 Ijara villages remain to be surveyed. I had written to the Ijardar of Barai on the subject and he had consented to have them surveyed. No communication has been received from him as to whether the survey of the villages has been completed.

16. The area of the villages surveyed up to the end of the last year was 4,30,466 acres and 12 gunthas and land measuring 7,063 acres and 26 gunthas having been measured during the year under report, the total area comes to 4,37,529 acres and 38 gunthas.

17. In former years the "Dharmada" and "Chakariat" villages were only traversed and their survey was completed during the current year. Also several large traverse numbers of some villages were made into small ones during the year. The survey work being completed some of the measurers were employed in renewing old maps and re-writing worn out registers.

18. The survey work having been completed it is intended to commence classification from the next year.

19. A press for printing maps has been procured, in which the maps of the State villages are printed. Small and square numbers of land surveyed now are being made so that the size of the maps is smaller than that of those prepared in former years and consequently the village officials do not find any inconvenience in carrying them.

20. The area of the Khalsa villages surveyed up to date is 3,40,344 acres and 20 gunthas, of which land measuring 87,694 acres and 1 guntha is kharaba land. Of the total area, land measuring 83,795 acres and 7 gunthas is under cultivation, while the rest remains waste.

21. The years following the famine having proved unfavourable, the zeal among the people has disappeared. They do not show any ardour to take up new land, as in case of the failure of the rain they may be obliged to pay money for the land not cultivated by them. In the talat or flat portion there is also some land such that no proper crops can be grown therein. Although the population of this part is more than in the rest of the State, the land being of inferior quality no one shows willingness to take it up. The land in the jungle part is also such that after being tilled for 2 or 3 years the cultivators are obliged to relinquish it and take up waste numbers instead.

22. During the year under report land measuring 4,803 acres and 19 gunthas was relinquished while land measuring 7,159 acres and 18 gunthas was taken up on kabuliats which shows that kabuliats were more than rajinamas.

23. Steps are being taken to give the waste land for cultivation at reduced rates, but there being no certainty about the rains no one wishes to increase his holding by taking up new land. Moreover the Kaliparaj people do not live permanently at one place. For a year or two they live in one village and then move to another. Owing to these reasons land is not cultivated in greater proportion than at present.

24. The Village and Huzur Accounts of the State are kept according to the forms prescribed by Mr. Hope, and the Jamabandi and other work is done accordingly.

25. Four Thandars have been engaged in the State to do the revenue work. They supervise the work of the Talatis, examine boundary marks, registers of births and deaths and cultivation in waste lands. They travel in their respective charges throughout the whole season.

26. Mr. Bhikhabhai Haribhai occupies the post of the Naib Dewan.

27. There being no dispute about the boundary there is nothing to write on the subject.

Boundary Disputes.

Wards' Estates.

28. My step-brother Prabhatdevji, and Kumar Chandradevji son of my deceased brother Haridevji being minors their estates are managed by the State. Kumar Shri Chandradevji studies in the Gondal Girassia College.

29. During the year under report the ornaments belonging to Bhai Shri Prabhatdevji were sold in the presence of the Political Agent. Also his Tapti Valley Railway shares valued at Rs. 47,000 were sold through the Agent, Bank of Bombay, Surat Branch. The total sum realized by the sales amounted to Rs. 2,22,068-12-6 which was borrowed by the State with the permission of Government to pay off the State debt. The sale of the shares did not realize the exact amount, but the deficiency was made good by the State.

30. The Government securities valued at Rs. 14,000 and Tapti Valley Railway shares to the amount of Rs. 9,000 belonging to Kumar Shri Chandradevji were also sold. The deficiency caused by the sale of the shares was made good by the State and the total amount Rs. 23,215-6-6 was taken up by the State as a loan. Besides the above Government Security for Rs. 1,000 was sold and the amount paid in his debt.

31. The figures of receipts and charges of the minors are as under :—

No.	Name.	Age.	Place of birth.	Place of Education.	Balance at the beginning of the year.	Receipts.	Disbursements.	Balance at the end of the year.		Value of moveable property in hand.	Area of land under management.
								In cash.	With the State.		
1	Bhai Shri Prabhatdevji.	21	Dharampur.	Gondal.	Rs. a. p. 955 7 7	Rs. a. p. 6,589 1 3	Rs. a. p. 7,045 9 6	Rs. a. p. 498 15 4	Rs. a. p. 2,22,068 12 6	...	Bi. Va. 4,973 2
2	Kumar Shri Chandradevji	18			108 2 1	6,103 14 0	6,143 7 0	68 9 1	23,215 6 6	...	3,632 0

32. Bhai Shri Prabhatdevji was formerly allowed Rs. 250 per month for his expenses, but the allowance was increased to Rs. 500 at his own request.

33. The reason for the increase in Kumar Shri Chandradevji's expenditure is that a part of the marriage expenses of his sister and his other debt was paid during the year.

CHAPTER III.—Protection.

34. The Criminal and Civil work in this State is done on the principles of the British Indian Laws.

Legislation.

35. The strength of the Military Force during the year was 199. The details are as under:—

Military.

96 Police Constables.	6 Mounted Constables.
23 Abkari Constables.	3 Revenue Sowars.
36 Arabs.	3 Abkari Sowars.
2 Gunners.	30 Sowars of the Paga.
	199

36. In this State 105 policemen including officers have been entertained as per details given below :—

Police.

1 Police Superintendent.	4 Head Constables.
1 Fouzdar.	92 Constables.
1 Naib Fouzdar.	6 Mounted Constables.
	105

37. To keep proper order in the State 7 out-posts have been kept and the policemen stationed therein take rounds in the villages and see that no crimes occur. The police patels of villages assist them in every way and keep proper order. Besides the above policemen, 21 armed men have been engaged as a temporary measure as reserve.

38. Of the total number of the district and abkari police 50 men are able to read and write while 7 are under instruction. To train the police in drill a pensioned Havildar of the British Police has been engaged.

39. During the year under report 12 of the policemen were fined for neglect in duty.

40. Mr. Chimanlal Ajitrai, 1st Class Head Constable of the Surat District Police holds the post of the Police Superintendent.

41. The number of offences that occurred during the last as well as the current year will be known from statements Nos. 7 and 9. There were during the year 196 offences against 171 in the previous one.

Criminal Justice.

42. During the year under report 14 cases of theft occurred against 31 in the previous one, showing a decrease of 17. The abkari offences during the current year numbered 119 against 89 in the preceding one, showing an increase of 30. There were during the year 45 cases of hurt against 25 in the last one, showing an increase of 20.

43. Among serious offences there was during the year 1 case of culpable homicide, the details of which are as under.

44. One Ladia Potia of the village of Amba possessed some land in Dabhkhal near the house of his nephew Kakadia Jivoo. As the goats and hens of the latter damaged the crops of Ladia, he told him to remove his hut from the place. After this they went to a liquor shop and took some drink there. They also brought some liquor with them which they sat to drink at Kakadia's house. While drinking the liquor the above matter was renewed and the dispute took a serious turn. Kakadia being much intoxicated went into the house in that state and brought a scythe and wounded Ladia on the head with it, of the effects of which he died a short time after. This act was not done maliciously, but was committed under the influence of drink. The accused being found guilty was sentenced to suffer 7 years rigorous imprisonment.

45. The Ijardar of Barai disposed of 6 cases during the year, 3 of mischief and 3 of hurt. 5 of the accused were sentenced to fine and 1 was discharged.

46. Bhai Shri Buldevji and the Jagirdar of Behej did not decide any cases during the year.

47. There were during the year 197 cases including 1 remaining from the last year to be disposed of, all of which were decided during the year.

48. Of the 266 accused sent up for trial 155 were convicted while 111 were either discharged or acquitted.

49. The percentage of convictions during the year was 58·2 against 68·8 in 1902-1903 which shows a decrease. The reason is that many of the accused concerned in cases of hurt &c., were acquitted without being brought to trial.

50. The value of property stolen during the year amounted to Rs. 1,738-4-0 against Rs. 1,266-2-6 in the last one. Property worth Rs. 1,407-10-0 was recovered during the year against that worth Rs. 1,001-12-0 in the previous one. The percentage of property recovered to that stolen was 81 against 79·06 in the preceding year, which result is good.

Criminal Appeals.

51. There were no appeals in the Huzur Court from the decisions of the lower courts, but there was 1 appeal filed in the Dewan's Court which was disposed of during the year.

Extradition.

52. The relations of the State with the British Government and the neighbouring Native States regarding the extradition of offenders continue cordial. During the year under report the following number of offenders was made over by this and to this State:—

1 Prisoner was received from the Fouzdari Nyayadhish of Gandevi.
1 Do. do. do. 1st Class Magistrate of Surat.
1 Do. do. do. 2nd Class Magistrate of Bulsar.
1 Do. do. do. from the Fouzdar of Bansda.
1 Do. do. do. 3rd Class Magistrate of Pardi.

1 Prisoner was sent to the Chief Constable of Mehmadabad.
2 Prisoners were made over to the Jhavar State.
3

53. The Jail building is a pacca one where prisoners sentenced to imprisonment are kept. A room has been set apart in the building to keep under-trial prisoners.

Jail.

54 During the year under report 123 prisoners were confined in the Jail against 246 in the previous one. The daily average attendance in the jail was 18·3. Some of the prisoners convicted of offences against the State have been sent to the Thana, Hyderabad and other jails. Including their maintenance charges the expenditure on the jail amounted to Rs. 4,684 against Rs. 3,334 in the last year.

55. The prisoners are mostly employed on roads. The prisoners at present in the jail being in for short terms of imprisonment no other work is taken from them.

56. For the Administration of Civil Justice there are 4 Courts in the State. The following number of suits was filed during the year:—

Civil Justice.

Name of Court.	Suits for Immovable Property.				Money Suits.			
	1902-1903.		1903-1904.		1902-1903.		1903-1904.

57. During the year under report in all 66 suits were filed of which 65 were money suits while one was for other right. The amount involved in the money suits was Rs. 3,749-9-3. Including the three pending cases of the last year there were in all 69 suits to be disposed of during the year. Of these 68 were disposed of during the year while one remained pending at its close on procuring evidence by commission.

During the year under report 66 suits were filed against 41 in the previous one showing an increase of 25.

58. One Civil appeal was filed and disposed of in the Huzar Court during the current year.

Civil Appeals.

59. During the year under report there were 47 applications for the execution of Civil Courts' decrees and 2 were pending from the last year, making a total 49. Of these 45 were disposed of during the year while 4 remained pending.

Applications for the execution of decrees.

60. The State Nyayadhish Mr. Harpatram Harmukhram has passed the District Courts Pleader's Examination.

61. The following Statement will show the number of documents presented for registration during the current year.

Registration.

Number.		1902-1903.				1903-1904.			
		Number of documents.	Value of property.			Number of documents.	Value of property.		
			Rs.	a.	p.		Rs.	a.	p.
1	Mortgages	6	1,546	5	0	12	7,636	0	0
2	Sale-deeds	11	6,829	8	11	24	14,275	4	0
3	Wills	...	.....			4	.....		
4	Miscellaneous documents	1	151	0	0	2	54	0	0

	Net profit	...	.....			...	.....		

Number.		1902-1903. Fees realized.				1903-1904. Fees realized.			
		Rs.	a.	p.		Rs.	a.	p.	
1	Mortgages	10	0	0		26	12	0	
2	Sale-deeds	26	0	0		51	0	0	
3	Wills	.....				8	0	0	
4	Miscellaneous documents	1	8	0		2	0	0	
5	Money	.....				4	8	0	
	Total ...	37	8	0		92	4	0	
	Deduct expenditure...	.....				...			
	Net profit	37	8	0		92	4	0	

62. As shown above 45 documents were presented for registration during the current year against 18 in the preceding one showing an increase of 27. The fees realized during the year amounted to Rs. 92-4-0 against Rs. 37-8-0 in the last one. Of the documents presented one remained to be registered at the end of the year.

Municipality.

63. In this State there is a Municipality in the town of Dharampur only the State bearing all the expenses. The inhabitants of other villages being Kaliparaj and living in separate huts from each other, there appears no necessity for one elsewhere.

64. During the year under report the charges on account of establishment, lighting and watering roads and purchase of new lanterns, &c., amounted to Rs. 1,205 against Rs. 2,047 in the last one showing a decrease of Rs. 842.

CHAPTER IV.—Production and Distribution.

Agriculture weather and crops.

65. The public health was good during the current year and no epidemic of any kind had made its appearance. The prevailing diseases were fever, diarrhœa, worm diseases, mumps and diseases of sore eyes and skin, &c.

66. The rain-fall during the year was 97 inches and 90 cents against 93 inches and 40 cents in the last year which shows an increase of 4 inches and 30 cents. The average rain-fall of the past 5 years was 84 inches and 71 cents. The rain-fall being adequate during the year the crops were good, but the appearance of the locusts during the latter part of the season caused some damage. The crops of nagli, better sort of rice, and kharsana and jowari in the talat portion were particularly damaged. On the whole the average yield of crops was 14 annas in the rupee.

67. The thermometer rose to 99° F. H. during the year against 101° F. H. in the preceding one.

Wages of labour and prices of food grains.

68. The people get sufficient labour in the cutting of forests carried on by contractors and in the works of public utility carried on by the State. The rate of wages varied from 1½ annas to 3 annas. The following statement will show the prices of food grains of the current as well as the past year:—

Articles.	Rate per maund.					
	1902-1903.			1903-1904.		
	Rs.	a.	p.	Rs.	a.	p.
Bangalia Paddy	1	3	0	1	2	0
Kolum	1	3	0	1	2	0
Ghonsalia	1	0	0	1	0	0
Wankvel	0	13	0	0	14	0
Nagli	0	14	0	0	15	0
Kodra	0	8	0	0	8	0
Val	0	13	0	0	10	0
Toor	1	1	0	1	2	0
Jowari	1	0	0	0	13	0

69. During the current year also as in the last one the people did not require grain for "bee and khavti" as they have learnt to store up the necessary stock of grain since the famine year. However 1712 maunds of grain was given to the people for the purpose.

Forest.

Forest.

70. For the last five years the forest demarcation work has been carried on by the Revenue Survey Department. This year also the work was performed by that Department. In the previous years the Forest Department had measured large blocks of forests. However, at present the actual jungle portion has been settled and the excess part made open. During the year under report 49 new blocks of reserved forests were made, which together with the blocks of former years make up a total of 142. But the area of the forests excluding the portion made open as shown above has decreased to 1,02,415 acres and 1 guntha. 1,338 small boundary marks were set up around the new reserves.

71. The area of the forests brought under protection up to the end of the last year was 44,140 acres and 8 gunthas, and the forests of two villages having been brought under protection during the current year the total area comes to 44,770 acres and 30 gunthas.

72. Seeds of teak, tanach, kher, beo, harda, and mowra were sown during the year as usual. The greater portion of them have grown up well. These plantations have been made to a great extent on slopes of hills.

73. The total forest revenue amounted to Rs. 47,858 during the year against Rs. 32,019 in the last one showing an increase of Rs. 15,839. There being great demand for timber, &c., and the year being rather prosperous there has been an increase in the revenue.

74. During the year under report 33 offences against the forest rules occurred. Two of the cases were magisterially disposed of and the two offenders were each sentenced to undergo 8 days imprisonment. The other cases were departmentally disposed of, and the fines inflicted on the culprits amounted in the aggregate to Rs. 74-10-2.

75. There were fires in the forests of 6 villages during the current year which spread over 204 acres of land. The damage caused was only Rs. 7-12-0.

76. Sufficient establishment has been entertained for the supervision of the forests. The Forest Officer Mr. Ranchordas Dharsi has studied in the Madras Agricultural College.

77. Forest Inspector Mr. Nandlal Bholanath has passed in the subject of Forestry in the Poona College of Science.

Trade and Manufacture.

78. There are no means of trade in this State. Only grain and asindra and timroo leaves are exported during the season. As regards manufacture, only bamboo baskets and mats of palm trees are made.

79. In this State only one fair is held at Fatehpur during the month of Chaitra every year and it is mostly attended by the Kaliparaj people of the State as well as neighbouring places. Traders from Nasik and other places bring to the fair brass and copper pots for sale. No other fairs worth mentioning are held in the State.

Fairs.

Public Works.

80. During the year under report Rs. 11,676 were spent on works of public utility against Rs. 45,210 in the last one. Rs. 7,470 were spent on original works, Rs. 3,096 in repairs and Rs. 1,110 on account of establishment charges. The details are as under :—

Public Works.

Rs.	565	15	2	Were spent on the Club-House.
„	870	6	4	„ in making additions and alterations to the new lines.
„	1,050	7	2	Were spent on the Mohan Vilas and Huzur Haveli.
„	796	11	11	Were spent in paving stones in the Bungalow in the Public garden and on the kitchen.
„	744	2	11	Were spent in erecting a cattle-house and railings in the Public garden.
„	470	12	4	Were spent on the houses on Mohangadh.
„	737	9	4	Were spent on the new building near the Dewan's Office.
„	1,824	11	5	Were spent on the Mandva Distillery.
„	342	9	6	Were spent on the Sadar Distillery.
„	42	15	1	„ the bridge on the Malanpada road.
„	24	0	0	„ the Asura Jhampa Police station.
Rs.	7,470	5	2	

Repair Works.

Rs.	229	10	4	Were spent on the Arnai Road.
„	137	15	11	„ „ Avdha road.
„	195	11	8	„ „ Amba, Luveri, Dhamni Makadman and other roads.
„	235	6	10	„ „ Municipality in repairing carts &c.
„	405	11	8	„ „ Gâdi Karkhana.
„	321	5	9	„ „ Dispensary building.
„	349	11	4	„ „ Art school building.
„	75	0	5	„ in fixing railings to the bridge.
„	114	10	5	„ on the Tiskari Bungalow.
„	307	3	11	„ „ paga building.
	723	9	5	„ „ miscellaneous buildings.
Rs.	3,096	1	8	
„	1,110	0	0	Establishment charges.
Rs.	11,676	6	10	Total expenses.

81. As above Rs. 11,676-6-10 were spent on Public Works which shows a decrease of Rs. 33,533-8-9 on the last year's expenditure.

CHAPTER V.—Revenue and Finance.

82. The following table will show the figures of receipts and charges of the State :—

Revenue and Finance.

Year.	Opening balance.	Receipts.	Expenditure.	Closing balance.
Samvat 1960.	Rs.	Rs.	Rs.	Rs.
A. D. 1903-1904 ...	8,334	6,48,598	6,54,691	2,241

83. The figures of receipts and charges under the different heads will be known from Statement No. XVII.

84. Excluding the amount borrowed and that remitted by the creditors the net receipts including the last year's balance amounted to Rs. 3,72,435.

85. The receipts from land revenue during the year were Rs. 1,81,474 against Rs. 1,77,434 in the last one showing an increase of Rs. 4,040.

86. The Abkari revenue during the year under report amounted to Rs. 96,341 against Rs. 1,00,918 in the previous one showing a decrease of Rs. 4,577.

87. During the year under report the Forest revenue amounted to Rs. 47,858 against Rs. 32,019 in the preceding one showing an increase of Rs. 15,839, the reason for the increase was that more timber and bamboos were sold during the year.

88. The receipts from Chowth jakat during the current year amounted to Rs. 6,968 against Rs. 5,402 in the last one showing an increase of Rs. 1,566.

89. The receipts from Civil and Magisterial fines amounted during the year to Rs. 2,686 against Rs. 1,383 in the last one showing an increase of Rs. 1,303.

90. There was an increase of Rs. 10,491 in the miscellaneous receipts.

Expenditure.

91. The total expenditure during the year amounted to Rs. 6,54,691 against Rs. 3,52,983 in the preceding one, showing an increase of Rs. 3,31,708. The reasons for it are as under :—

92. The expenditure under the head "Public Works" was this year less by Rs. 33,534.

93. During the year under report the expenses on Paga amounted to Rs. 13,873 against Rs. 7,405 in the previous one showing an increase of Rs. 6,468. The reason is that new horses and horses' gear were purchased

during the year. The saddles had become old and useless and the horses being purchased many years ago were not fit for further use. The increase in the feeding charges is also one of the causes for the increase.

94. The expenditure under the head "Dispensary &c." during the year amounted to Rs. 11,792 against Rs. 8,301 in the last one showing an increase of Rs. 3,491. The reason is that a larger quantity of medicine had to be purchased during the year.

95. The reason for the increase in expenditure under the head "Establishment Charges" is that the salaries that had remained unpaid last year and the whole year's salaries for this year were paid now.

96. There is an increase of Rs. 4,453 in the expenses under the head "Allowances to family members." The reason is that the allowances of several Baijis for two years were paid during the current year.

97. The deficit Rs. 10,667 caused by the sale of Bhai Shri Prabhatdevji's and Kumar Shri Chandradevji's Tapti Valley Railway shares and Government securities was made good by the State.

98. Rs. 10,605 on account of the cost of Mowra flowers purchased the year before last was paid during the year.

Debt.

99. During the year under report Rs. 3,10,540 were paid towards the debt in principal and Rs. 72,622 in interest. Last year only Rs. 8,431 were paid in interest. So that during the current year Rs. 3,74,731 more were paid towards the liquidation of the debt.

100. At the end of the last year the amount of debt was Rs. 6,81,234 and after deducting the amount borrowed from the sum paid, the amount of debt remains Rs. 6,15,978 at the end of the year of which Rs. 3,14,060 are at the rate of 4 per cent and Rs. 3,01,918 at the rate of 9 per cent.

101. The interest due to the creditors who were paid during the year was added to the principal. They remitted a sum of Rs. 39,213 from the interest. The accounts of some of the other creditors have been settled and of some are still to be settled. When this has been done, and the amount they will remit has been ascertained, the net amount of interest due to them will be credited in the accounts.

102. The bills for articles purchased for the new year have not been taken into the accounts because they are paid one after the other every month. The charge will be debited in the next year.

Opium and Abkari.

Opium.

103. During the year under report the sale proceeds of the opium farm realized Rs. 70 against Rs. 100 in the last year. There being not much consumption of opium in the State and there being not persons desirous of keeping the farm the sale proceeds did not realize an adequate sum. The quantity of opium consumed during the year was 122 seers and $22\frac{3}{4}$ tolas against 117 seers and $18\frac{1}{2}$ tolas in the last one.

104. There are three distilleries in this State, where liquor is distilled and issued to the shop-keepers. During the current year the Abkari Farm was given to Messrs. Pestonji Ratanji and Co. of Navsari for a period of 5 years on their agreeing to pay a minimum sum of Rs. 90,001 on account of duty, establishment charges, &c.

Abkari.

105. During the year under report 6,524 gallons of 25° U. P. and 2,51,533 gallons of 60° U. P. liquor, in all 2,58,057 gallons were consumed.

106. The total Abkari revenue during the year from bhang, ganja, opium, toddy and liquor amounted to Rs. 96,341 against Rs. 1,00,918 in the previous one showing a decrease of Rs. 4,577.

107. In the neighbouring Native States and in the Portuguese territory liquor is sold at low prices and consequently this State was also obliged to keep the rate at 1 anna per seer at many of the shops. If this were not done the State people would have purchased it from foreign limits and the State would have been put to much loss.

108. Sufficient establishment has been engaged to prevent illicit distillation and to see that the people may not bring liquor from foreign limits. The Abkari offences during the year numbered 119 against 89 in the last one.

109. During the year under report the receipts from Chowth Jakat amounted to Rs. 6,968 against Rs. 5,402 showing an increase of Rs. 1,566.

Chowth Jakat.

CHAPTER VI.—Vital Statistics and Medical Relief.

110. There is one Dispensary in the State. The number of patients treated during the year and the number that recovered will be known from the following Statement :—

Dispensary.

Dispensaries.	Number of patients treated.		Results.				Expenditure.	Average daily attendance.
	Indoor.	Outdoor	Discharged.	Absent.	Died.	Remaining under treatment.		
Jubilee Dispensary ...	121	11,268	11,204	...	1	184	10,789	174·7
Leper Asylum ...	37	...	...	5	...	32	1,003	26·7

111. The above statement will show that the number of in-door patients during the year was 121 against 84 in the last one showing an increase of 37 patients. The number of out-door patients was 11,268 against 9,789 in the foregoing year showing an increase of 1,479. Of the number of in-door patients 116 were discharged as cured, 1 died of general debility in the dispensary and 4 remined under treatment at the close of the year. The greater part of the in-door patients was Kaliparaj and many of them submitted to surgical operations quite willingly.

112. Of the 11,268 out-door patients 11,088 were discharged as cured and 180 remained under treatment at the end of the year. The number of Kaliparaj patients treated was 1,786. From this it appears that they have begun to understand the advantages of the Dispensary. Sufficient stock of medicine is being kept and so the patients easily get the proper medicine.

113. The number of lepers at the end of the last year was 25 and 12 having been admitted during the year under report the total number was 37. Of these 5 left the Asylum, leaving at the end of the year 32 lepers, 17 males and 15 females. The health of the lepers was good and no one died during the year.

114. The public health was good during the year. The chief diseases were fever, diarrhœa, cough, worm, eye and skin diseases and mumps.

115. The in-patients in the Dispensary and the lepers are supplied with clothes, rations, milk &c., at the State's expense and they are well taken care of.

116. The total expenditure on the Dispensary during the year amounted to Rs. 10,789 against Rs. 6,892 in the last one.

117. The Chief Medical Officer Mr. Cawasji Temulji Pardiwalla is a graduate of the Medical College.

Births and deaths.

118. The Talatis of villages keep registers of Births and Deaths and submit monthly returns. The number of births and deaths of the current year will be known from the following table :—

	1902-1903.	1903-1904.	Increase.	Decrease.
Births	2,482	1,855	...	627
Deaths	3,346	1,314	...	2,032

Vaccination.

119. Three Vaccinators have been engaged to vaccinate children. They travel in the villages and do their work. The details of the work done by them will be known from the following Statement :—

Operation by whom performed.	Number of persons vaccinated in	Number of persons vaccinated in	Results.			
			Successful.		Unsuccessful.	
	1902-1903.	1903-1904.	1902-1903.	1903-1904.	1902-1903.	1903-1904.
3 Vaccinators ...	3,161	3,282	3,077	3,211	84	71

120. During the year under report 3,282 children were vaccinated against 3,161 in the last one, showing an increase of 121. Of the 3,282 vaccina-

tions 3,211 proved successful and 71 unsuccessful. Re-vaccination was performed to the case of 73 children. Of these 61 proved successful and 12 unsuccessful.

121. Three of the Kaliparaj boys were sent from here to learn vaccination work of whom one has got employment here. The other two still learn the work. The expenditure on account of vaccination amounted during the year to Rs. 1,446 against Rs. 970 in the previous one.

CHAPTER VII.—Instruction.

Education.

122. The number of schools during the year was 23 as in the last year. The number of students taking education in each of the schools will be known from the following statement :—

No.	Name of School.	Description of School.	Number of pupils on the 31st March, 1903.	Number of pupils on the 31st March, 1904.	Daily average attendance.
1	Maharana Shri Narayendevji English School	Boys.	45	64	44·5
2	Do. do. Vernacular School...	,,	238	226	155·2
3	Darbari Girls' school	Girls.	98	94	49·9
4	Do. Urdu School	Boys.	34	33	26·
5	Do. Mahar do.	,,	25	21	7·6
6	Rumla Vernacular do.	,,	56	67	41·2
7	Saravni Do. do.	,,	30	35	17·8
8	Kakadveri Do. do.	,,	22	18	6·9
9	Motapondha Do. do.	,,	14	17	10·2
10	Balehondi Do. do.	,,	15	12	7·4
11	Ozar Do. do.	,,	26	25	8 9
12	Achhavni Do. do.	,,	17	16	5·7
13	Panaj Do. do.	,,	17	15	9·9
14	Babarkhadak Do. do.	,,	31	17	11·
15	Barumal Do. do.	,,	17	14	7·3
16	Amdha Do. do.	,,	15	17	11·6
17	Rajpuri Do. do.	,,	20	23	12·5
18	Karanjveri Do. do.	,,	14	12	6·2
29	Tiskari Do. do.	,,	20	16	13·
20	Bhervi Do. do.	,,	16	11	4·3
21	Ghodavani Do. do.	,,	14	15	8·3
22	Mandva Do. do.	,,	6	11	3·8
23	Nanivahial Do. do.	,,	15	11	9·6
	Total ...	....	805	790	

123. The number of pupils during the year under report was 790 against 805 in the last one showing a decrease of 15. In order to induce the boys to attend the school they are supplied gratis by the State with books, clothes, &c. In the same manner some of the Kaliparaj boys who study in the Dharampur school are supplied with rations also.

124. Scholarships have been established to send boys to the Training College for study, but none at present avails himself of it. However one boy studies English in Broach, one in Bombay and one in Ahmedabad and they receive good assistance from the State. One Kaliparaj girl learns the work of Midwifery in Ahmedabad.

125. A boarding house has been opened for the orphans, and the State supplies the boys with rations, clothes, books, &c.

126. To train the Kaliparaj people in professions an Art School has been opened. They have been taught the work of carpenters, blacksmiths, bricklayers &c.

127. In most of the schools Kaliparaj teachers have been engaged in order that the Kaliparaj boys may be induced to attend school, and when other boys will be fit for work on completing their study they will be employed in the remaining schools. Inducements as above are offered to induce the boys to take education but the attendance in the village schools is not as much as desired. The Kaliparaj people being poor, they engage their children in cultivation and household purposes. They do not understand the advantages of education and some time will still be required before they learn to do so. However the state continues to take all possible means to spread education.

128. Of the 790 pupils 609 were presented at the examination of whom 312 were successful, the percentage being 51·2.

129. The expenditure on education during the year amounted to Rs. 7,929 against Rs. 7,382 in the previous one.

130. During the year under report my heir-apparent Kumar Shri Vijayadevji according to his persevering disposition made a collection of the things produced in this State and purchased others from outside places, and has arranged them in the form of a good museum. His intention to bring it on a good foundation in future is praise-worthy. He will be given due encouragement in the matter, as it is supposed that both the State and the people will be benefitted thereby. Taking advantage of this opportunity I must say that if the Rajkumars were to engage themselves in such matters they can thereby get harmless pleasure, and in future they may prove useful to the State and people in proportion to the ardour with which they work in such things. The Commissioner, N. D. the Collector and Political Agent and the District Judge, Surat, inspected this small museum and all alike praised it and expressed their satisfaction at the Kumar's interest in the matter. I also wish that the Kumar Shri may give proper attention to it and realize his laudable ambitions.

CHAPTER VIII.—Miscellaneous.

Wild animals.

131. There are many wild animals in the State and a Shikari Department has been engaged to destroy them. The employees of the Department make rounds in the villages and destroy such animals. During the year under report the following number of animals was destroyed.

By H. L. Hervey, Esquire ...	...	2 Panthers.
„ Other people ...	... ...	4 „
		6

Post and Telegraph office.

132. There is one post office in the State but no telegraph office. As there are few letters for outside villages there is no need for a post office anywhere else.

Record Room.

133. There is a record-room where the State records are kept after they have been sorted.

Printing Press.

134. In the State there is one printing press where the forms, stamped papers &c. in use in the State are printed. One press has been also procured to print maps &c. prepared by the Survey Department.

Library.

135. There is one Library in this State which is named after the late Raja Saheb "Maharana Shri Narandevji Library," 3 Magazines and 5 Newspapers are received therein. Besides the above other newspapers are given as a present by the State.

136. The balance at the end of the last year in the Library was Rs. 27-1-9 and Rs. 405 having been received during the current year on account of private contributions and the State grant, the total comes to Rs. 432-1-9. Of this sum Rs. 165-1-2 were spent during the year on account of purchase of newspapers and servants' pay, &c., leaving a balance of Rs. 267-0-7 at the close of the year.

Jurisdiction.

137. The Magisterial powers conferred on the Jagirdar of Behej and the Ijardar of Barai, &c., have been continued to them. Bhai Shri Buldevji having died, his powers have been withdrawn.

138. Kumar Shri Vijayadevji having come of age his annual allowance from the commencemet of the new year will be settled so that he may keep his expenses within due limits. By this he will himself understand the rules of economy. Also arrangements will be made for him to examine the different departments of the State in company with the Dewan so that he can gain personal experience in everything.

Concluding Remarks.

139. I have to thank the Government very much for their kindly lending to me to pay off my debt the sum of Rs. 2,45,284 from the estates of Bhai Shri Prabhatdevji and Kumar Shri Chandradevji. This will cause great advantage in the amount of interest in subsequent years and it is therefore hoped that the debt will be liquidated sooner.

140. In former years no works of public utility had been done in the State and so I was obliged to spend up to date Rs. 5,75,484 on them. Also I had to spend large sums on the marriages of my sisters and had to take a loan from the Government to support the people during the famine. During the famine and subsequent years the rainfall not being timely and adequate proper revenues could not be realized. If the years to come prove favourable it is hoped that good income may be obtained.

141. I beg to offer my thanks to the Government and the Political Agent for the good advice I receive from them from time to time.

142. The services of my Dewan, Rao Bahadur Trikamlal Dinanath, were kindly lent to me by Government upon my request. He has been on the epost for the last 12 years. I have referred in the Administration Reports of very year to his zeal and fitness. His health being not good owing to old age he retires on pension so that we part with him with sorrow.

I am, &c.,

(Sd.) MAHARANA SHRI MOHANDEVJI N. RANA,

Raja Saheb of Dharampur State.

DHARAMPUR,
26th August, 1904.

Remarks about the Dewan 106
Concluding Remarks 107

English Translation of letter No. 34 dated 22nd August 1905.

FROM,

MAHARANA SHRI MOHANDEVJI NARANDEVJI RANA,
RAJA SAHEB OF DHARAMPUR.

TO,

THE COLLECTOR AND POLITICAL AGENT,
SURAT.

MY FRIEND,

I have the honour to submit the Annual Administration Report of the Dharampur State for the year ending Samvat 1961, *i. e.*, the period commencing from 14th July 1904 to 2nd July 1905, together with the Appendices annexed thereto.

CHAPTER I.

2. **General and Political.**—The area of the State is *704* square miles with a population of *1,00,430* persons according to the last Census, of whom *51,467* are males and *48,963* females, and the gross revenue based on the average of past five years is Rs. *3,85,492*.

A sum of Rs. *9,000* is paid annually to the British Government under an agreement, dated 6th April 1870 (Aitchison's Treaties Vol. 4 Page 318), in lieu of *Chowth Jakat* formerly levied by Government in my territory. No tribute of any kind is paid to any other State.

Name and Title.—My name is Maharana Shri Mohandevji Narandevji Rana and my age is 42. I belong to the Sisodia Rajput caste (Solar dynasty). I have two sons by name Kumar Shri Vijaydevji and Kumar Shri Nrisinhdevji, by my only Rani Shri of Virpur in Kathiawar.

3. **Political Relations.**—The relations of the State with the British Government and the neighbouring Native States continue cordial.

4. **Visits.**—Mr. A. S. A. Westropp, Collector and Political Agent, Surat, visited the State in the month of June and stayed here for two days, and handed over to Bhai Shri Prabhatdevji his remaining ornaments and the village of Tiskari selected by him in exchange for Godethal which was managed by the State during his minority.

Mr. F. B. P. Lory, Acting Educational Inspector, N. D., came to see the State schools in the early part of May and stayed here for six days. He examined the town schools and some of the village schools and was greatly interested in seeing the State schools and to note the endeavours made by the State to provide adequate means of education for all classes in its borders. In honour of his visit school sports were held and prizes distributed to the boys and girls of the schools. During his stay a Shikar party was, at his request, organised and he succeeded in shooting a large panther.

5. **Domestic Occurrences of interest in the Raja Saheb's family.**—The most interesting event in my family was the marriage of my heir-apparent Kumar Shri Vijaydevji with the younger Kunvari of Maharana Shri Gambhirsinhji of Raj-pipla. It was celebrated on the 8th of March 1905, in a due and becoming manner, and it is gratifying to observe that everything connected with it passed off smoothly and satisfactorily. Among the principal visitors that attended the marriage may be mentioned the names of the Raja Saheb of Bansda, the Thakore Saheb of Virpur and the Chief of Kurandwad.

My younger Kumar Shri Nrisinhdevji was betrothed to the Kunvari of the heir-apparent Shri Pratapsinghji of Kotharia Taluka, in May last.

6. **Journey.**—Owing to plague from October to January 1905, I was obliged to shift my quarters temporarily to the village of Tiskary, which is some 3 or 4 miles off the city. I did not perform any long journey during the year, but visited some of the State villages at different times, with a view to enquire about the condition of the people and to know their wants.

7. **Changes in the Administration.**—Various changes took place in the personnel of the Administration of which the most important are as follows:—

Rao Bahadur Trikamlal Dinanath, having retired on account of old age, Mr. S. G. Jayakar, M. A., B. Sc., was appointed in his place.

My heir-apparent Kumar Shri Vijaydevji, having completed his College course, expressed his willingness to take up the Revenue work of the State and so he was appointed Revenue Commissioner, with Mr. Vrajlal Jagjeewan, his former tutor and companion, as Joint Revenue Officer. Owing to the zeal and earnestness with which the Kumar does his work, assisted by the hearty co-operation of his co-adjutor, Mr. Vrajlal, I am glad to say that during the year under report the work of the Revenue Department has been very satisfactorily done.

Mr. Kapurchand Gopalji has been appointed Personal Assistant to me. He is an honest and conscientious officer. His work is of a high order and his long experience extending over a period about 21 years has been of great use to me in disposing of several important matters of the State.

Mr. Bhikhabhai Haribhai, late Naib Diwan, having at his request,

reverted to the British Service, Mr. Amritlal Vardhman, M. A., LL. B., was appointed in his place.

Mr. Harpatram Harmookhram, late Nyayadhish, having resigned, Mr. Kanyalall Nagindas Marfatia, B. A., LL. B., was appointed in his place.

Mr. Chimanlal Ajitrai, Police Superintendent of the State, having reverted to the British Service, his place was filled by Mr. Kharsedji Sorabji Jassawala.

CHAPTER II.

Administration of land.

8. The work of Survey was completed during the last year, but only six Ijara villages remain to be surveyed. The Berai Ijardar had promised last year to survey them at his own expense, but no report has yet been received about the completion of the work.

The area of the villages surveyed is 4,37,529 acres and 38 gunthas. No new revenue land settlements were introduced in the State during the year under report. The rates of assessment, which are fair and reasonable, continue to be the same as before. No complaints are made against them and the ryots pay them without much difficulty. During the year under report, Rs. 823-15-0 were remitted against Rs. 6,068 in the preceding one.

9. The total area of Khalsa villages is 3,58,629 acres and 15 gunthas, of which 2,63,832 acres and 11 gunthas are culturable, while 94,797 acres and 4 gunthas are *Kharaba*. Of the total area, land measuring 87,647 acres and 37 gunthas is under cultivation and the rest being mostly covered with hills and forests is not fit for cultivation and consequently remains waste. Steps are, however, being taken to give the waste land at reduced rates, but owing to the uncertainty of the rains and the impoverished condition of the *Kaliparaj* people due to famine and other causes, there is no great demand to take up more land for cultivation. Moreover, the Kaliparaj people do not settle in one place permanently. For a year or two, they live in one village and then migrate to another. This also accounts for the land not being cultivated in greater proportion than at present. During the year, land measuring 9,539 acres and 16 gunthas was relinquished, while land measuring 6,667 acres and 11 gunthas was taken up for cultivation. It would thus appear that there were this year more *Rajinamas* than *Kabulats*, which is due to the fact that the people having suffered owing to scanty rainfall had not sufficiently recovered to take up any more land.

10. **Accounts.**—The village and Hazur accounts of the State are kept in accordance with the forms prescribed by Mr. (Now Sir T. C.) Hope, and the *Jamabandi* work is done accordingly.

11. The State has been divided into 4 parts. Each part is placed under a *Thandar*. The Thandars supervise the work of the Talatis, inspect boundary marks, examine registers of births and deaths and cultivation in waste lands. In short, the whole of the revenue work is done through them. They travel in their respective charges throughout the entire season.

12. **Boundary Disputes.**—There were no disputes about the boundary during the year under report, and so there is nothing special to be reported under the head.

13. **Government and Wards' Estates.**—My younger brother, Bhai Shri Prabhatdevji having come of age, the estate of Tiskari was, at his request, handed over to him in June last, in exchange for the village of Godethal, which was, during his minority, managed by the State, in the presence of Mr. A. S. A. Westropp, Collector and Political Agent, Surat. The few remaining ornaments belonging to him, which were still in the custody of the State, were also handed over to him at the time.

Kumar Shri Chandradevji, son of my deceased brother Haridevji, being still a minor, his estate is managed by the State. He was allowed Rs. 150 per month, for his personal expenses, but at his request the allowance has recently been increased to Rs. 200 a month. He studies in the Gondal Grassia College.

As mentioned in the last year's report, a sum of 2,22,068-12-6 belonging to Bhai Shri Prabhatdevji and Rs. 23,215-6-6 belonging to Kumar Shri Chandradevji have been taken as a loan by the State at 4 p. c. interest, under the orders of Government.

The receipts and disbursements of the estate of Kumar Shri Chandradevji are as under:—

No.	Name.	Age.	Place of birth.	Place of education	Balance at the beginning of the year.	Receipts.	Disbursements.	Balance at the end of the year.		Value of moveable property in land.	Area of land under management.
								In cash.	With the State.

CHAPTER III.

Protection.

14. **Legislation.**—The Civil and Criminal work of the State is conducted on the principles of the British Indian laws. There were no changes in the legislature of the State during the year.

15. **Military Force.**—No regular Military force exists in the State.

16. **Police.**—The Police force is kept on the system of the British District Police. The number of police including officers and mounted constables, was 142 during the year against 131 in the last year. The cost of the force was Rs. 15,719-0-0 against Rs. 16,443-0-0 in the last year. The details are as under:—

1 Police Superintendent	6 Head Constables
1 Fouzdar	123 Constables
1 Naib Fouzdar	10 Mounted Constables
	142

17. Out of the total number, 60 are able to read and write, 13 are under instruction.

18. The proportion of Police to population and area is 1.41 per *mille* and 20.2 per 100 square miles respectively.

19. Besides the regular Police, 36 arab guards have been engaged to watch and guard the treasury, *Jamdar Khana* and the *Zenan Khana* &c.

20. **Village Police.**—In addition to the regular police, there are nearly 400 *Sirbandhis* in the State but they are only called on emergent occasions for duty. They hold land free, subject to their rendering service whenever required. The Patels are also empowered to take part in the "*Panchnamas*" held in cases of suicide and accidental deaths.

21. The Police force is supplied with guns, swords and batons.

22. To keep proper order in the State 7 out-posts have been kept and the Policemen stationed therein take rounds in the villages and see that no offences occur. The Police Patels of the villages also co-operate with them in detecting offences and in keeping proper order in their respective villages.

23. To train the Police in drill a pensioned Havildar of the British Police has been engaged.

24. During the year under report, 59 of the Police force were departmentally fined for neglect of duty, 4 were dismissed from service for gross negligence, and 3 were judicially punished, while 25 were promoted and 4 were pecuniarily rewared for efficient performance of duty.

25. The results of the working of the Police are as follows:—

Name of State.	Number of offences.		Number of accused arrested.		Number of accused sent for trial.		Number of accused convicted.		Number of accused acquitted or discharged.		Percentage of conviction columns (4 and 5)		Percentage of convicted accused sent for trial.		Remarks.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Dharampur.	143	104	160	174	160	172	145	137	12	31	91	78.73	91	79.65	2 accused were not sent for trial. 2 accused died under trial, while on bail. 2 accused were under trial.

26. The amount of property stolen and recovered during the year was as follows :—

State.	Amount Stolen.		Amount recovered.		Percentage of recoveries of property stolen.		Remarks.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
1	2	3	4	5	6	7	8
Dharampur.	1,735-4-0	10,395-7-1	1,404-10	10,182-12-3	81	99	

27. There has been a decrease of 39 crimes over the last year's number. There were two serious crimes of culpable homicide during the year. The percentage of convictions is satisfactory.

28. The percentage of property recovered to that stolen was 99 p. c. during the year under report against 81 during the previous year, which speaks well of the Police Department.

29. The proportion of crimes to population is 1.03 per *mille*.

30. **Fires.**—There was one fire during the year. It broke out in the State grass depôt, which is on the out-skirts of the city. Grass worth about Rs. 300 was consumed by the fire; but for the prompt measures taken by the Police and the Municipality to put down the fire, the results would have been serious.

31. **Accidental deaths.**—There were 32 accidental deaths due to snake-

bites, falling from trees, drowning, suicide &c. There were no cases of infanticide, or highway robbery.

32. **Criminal Justice.**—There are 4 Criminal Courts of Thandars, 1 of Nyayadhish, 1 of Naib Diwan and 1 of Diwan. Besides these there are two Courts of Honorary Magistrates.

33. The work relating to Criminal justice will be known from the following Statements: —

Name of Court.	Number of offences reported during the year.		Number of persons dealt with.								Persons disposed of					Persons remaining at the end of the year.	Remarks.
			Brought to trial 1904—05.						Total.								
	Past year.	Present year.	Remaining at the end of last year	Arrested by Police	Upon warrant.	On Summons.	Voluntary.	Arrested in presence of Magistrate.	Past year.	Present year.	Discharged without trial.	Acquitted.	Convicted.	Committed or referred.	Died, escaped, or transferred.

Total..	3	...	...	6	2	...	...	...	...	1	1	...	...	...	...	...	...	

34. There was a decrease of crimes during the year under report. The principal decrease is due to Abkari offences being less this year than those of the previous one.

35. Among serious offences there were two cases of culpable homicide not amounting to murder during the year under report against one in the last year.

36. The number of criminal cases reported during the year was 177 against 196 in the previous one. Only 5 cases remained to be disposed of at the end of the year. The number of persons tried was 293 against 266 the previous year. Of these 163 were convicted against 155 in the preceding year, while 128 were either discharged or acquitted. The percentage of convictions was 55.6 against 58.2 in the previous year. The percentage of convictions is low this year, as many of the accused concerned in cases of hurt were discharged without trial, because the cases were compounded. Of the 163 persons convicted, 9 were sentenced to imprisonment for more than 6 months, 56 to periods ranging from 1 to 6 months, and 98 were only fined. The total amount of fines inflicted was Rs. 2,461-0-0 against Rs. 1,462-0-0 in the previous year, out of which Rs. 2,209-0-0 were recovered against Rs. 827-13-6 in the preceding year.

There was no sentence of capital punishment inflicted during the year.

As the number of offences was not very great, all the cases were disposed of in the Nyayadhish's Court.

37. **Appeals.**—During the year under report 3 appeals were filed in the Diwan's Court, all of which were disposed of during the year. There were no appeals in the Huzur Court.

38. **Civil Justice.**—The number of suits and appeals filed and disposed of during the current as well as the last year will be known from the following Statements :—

Name of State.	Tribunals.	Number of cases on file at the end of the last year.	Number filed during the year.	Total.		Number disposed of during.		Arrears.		Remarks.
				Past year.	Present year.	Past year.	Present year	Past year.	Present year.	
Dharampur	Naya-dhish.	1	29	69	30	68	27	1	3	

Civil Appeals.

Name of State.	Tribunals.	Number of appeals on file at the end of the previous year.	Number filed during the year.	Total.		Number disposed of during		Arrears.		Remarks.
				Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
Dharampur	Divan's Court.	...	1	...	1	...	1	...	✗	
	Huzur Court.	...	...	1	...	1	...	✗	...	
Total ...	...	...	1	1	1	1	1	✗	✗	

39. The number of suits filed during the year was 29, the amount involved therein being Rs. 2,449-14-4. The number of suits to be disposed of including the last year's arrears was 30, of which 27 were disposed of and 3 remained pending at the close of the year.

40. The average duration of suits was 1 month and 15 days.

41. The proportion of suits to population is 2.8 per 10,000 souls, *i. e.*, 7/25 per *mille.*

42. **Applications for execution of decrees.**—During the year under report there were 10 applications for execution of decrees. These together with the last year's arrears came to 14. Of these 9 were disposed of during the year and 5 remained pending at its close.

43. **Civil Appeals.**—There was only one Civil appeal during the current year in the Dewan's Court, which was disposed of during the year.

44. **Extradition.**—The relations of the State with the British Government and the neighbouring Native States as regards the extradition of offenders continue cordial. During the year under report, the number of offenders made over by and to the State is as follows:—

7 Offenders were made over to the State through the Political Agent, Surat.
1 Offender was made over by the Bansda State to the State.

8

1 Offender was made over to the Second Class Magistrate, Pardi Taluka.
14 Offenders were made over to the Bansda State.

15

45.—During the year all the extradited persons were convicted.

46. **Prison.**—The State has only one Jail building which is a *pacca* one, where prisoners sentenced to imprisonment are kept. A room has been set apart for under-trial prisoners. During the year under report, including the last year's remnants, 130 prisoners were confined in the jail, against 123 in the preceding one as will appear from the following statement :—

Stations.	No. of prisons.	Number of prisoners.				Daily average		No. of prisoners remaining at the end of the year.	Total cost of Jail and prisoners.	Average period of accussed under trial.	Remarks showing mortality among convicts in Jail.
		Remaining from last year.	Admitted during the year.	Total. Past year.	Total. Present year	Past year.	Present year.				
Dharampur	1	28	102	123	130	18.3	14.6	36	Rs. 5,072	Days. 3.4	Three convicts died of fever during the year.

47. The daily average attendance in the Jail was 14.6. Some of the prisoners convicted of offences against the State have been sent to Thana, Hyderabad and other jails. Including their maintenance charges the expenditure on the Jail amounted to Rs. 5,072 against Rs. 4,684 in the previous year.

48. The prisoners are mostly employed on roads. Occasionally, however, they are engaged in weaving cotton tapes, coir-matting, ropes &c.

49. The Dewan, the Naib Dewan and the Nyayadhish have been appointed visitors of the Jail. They visit it occasionally and see that everything goes on properly. They also hear the complaints of the prisoners, if they have any.

Registration.

50. **Registration.**—The number of documents registered during the year under report was 20 against 45 in the previous year, and the fees realized amounted to Rs. 39 against Rs. 92-4-0 in the last one.

51. **Cost of Registration.**—No separate establishment is kept for the work of registration. The work is done in the Dewan's office.

Municipality.

52. **Municipality.**—There is a Municipality in the town of Dharampur only, and there seems to be no necessity for it elsewhere in the State.

53. No Municipal taxes are levied from the people, but the whole of the expenditure is borne by the State. The town roads are swept and occasionally watered and the streets are lighted and due steps are taken for ensuring the cleanliness and sanitation of the town. The total expenditure under this head amounted to Rs. 2,227 against Rs. 1,205 in the previous year, showing an increase of Rs. 1,022.

CHAPTER IV.

Production and Distribution.

54. **Season.**—The season this year was generally favourable. Excepting plague from October to January last there was no other epidemic. About 93 persons were attacked by plague, out of whom 77 died. The prevailing diseases were Malaria, Bronchitis, Dyspepsia, Skin diseases, Ulcers, Worms, Nervous prostration, Eye diseases, and Ear diseases. The maximum and minimum thermometer readings were 99° F. H. and 54° F. H. respectively during the year, against 99° F. H. and 58° F. H. in the previous year.

55. **Rain-fall.**—The rain-fall during the year was 43 inches and 78 cents against 97 inches and 90 cents, showing a decrease of 54 inches and 12 cents over that of the last year.

56. In spite of the scanty fall of rain and some damage done by locusts to standing crops, the yield of crops during the year was 14 annas.

57. **Wages and Labour. Prices of food grains.**—The people get sufficient labour in the cutting of forests carried on by contractors and in works of public utility conducted by the State. The rate of wages varied from 0-1-6 to 0-3-0 annas.

The following comparative statement shows the prices of food grains of the current as well as the past year.

Articles.	During March Past year.			During March Present year.			Remarks.
Jowar per Maund	1	4	0	1	6	0	
Bajri per Maund	1	10	0	1	10	0	
Rice with husks per Maund ...	1	2	0	1	2	0	
Nagli per Maund	1	0	0	1	0	0	
Kodra per Maund	0	10	0	0	10	0	
Tuver (a kind of pulse) per Maund	1	6	0	1	5	0	

58. **Forests.**—The work relating to the demarcation of forests has been carried on by the Survey Department. During the year under report the number of blocks which in the preceding year was 142 has been converted into 156, a portion of these blocks as they formerly stood being brought under culturable land. Thus 98,340 acres and 34 gunthas remain as reserve at the close of the year against 1,02,415 acres and 1 guntha in the preceding year.

Large traverse blocks of the villages of Narwad and Gundia were brought under protection and allowing for addition and deduction the total area of Protected forests was 46,511 acres and 17 gunthas at the close of the year against 44,770 acres and 30 gunthas, showing an increase of 1,740 acres and 27 gunthas.

59. Seeds of teak, sadda, kher and harda were sown during the year as usual, out of which a greater portion has grown up well. Mango and Jamboo trees planted at Nana Pondha are doing well and are likely to yield good revenue to the State in the near future.

60. During the year under report 27 breaches of forest rules occurred against 33 in the preceding one and the fines inflicted on the offenders amounted to Rs. 74-10-9 against Rs. 74-10-2 in the preceding year.

61. There were 4 fires in the forest during the year under report against 6 in the preceding one, the damage done being Rs. 9-14-6 against Rs. 7-12-0 in the previous year.

62. Sufficient establishment has been entertained for the supervision of the State forests. The Forest Officer is Mr. Ranchhoddas Dharsi who is a duly qualified man and has obtained a First Class Diploma from the Madras Agricultural College. He is an energetic officer and is fully conversant with his duties.

63. The revenue realized by the sale of timber and bamboos &c. amounted during the year under report to Rs. 1,00,936 against Rs. 47,858 in the previous year, showing an increase of Rs. 53,078.

64. **Trade and Manufacture.**—There are no means of trade in the State. Only grain and Asindra and Timroo leaves for *bidis* were exported during the season. As regards manufacture, only bamboo baskets and mats of palm trees are made.

65. **Quarries.**—No business in quarries is carried on in the State.

66. **Public Works.**—The expenditure under the head amounted during the year to Rs. 12,881 against Rs. 11,676 in the previous year. Rs. 8,107 were spent on original works, Rs. 3,939 on repairs and Rs. 835 were spent on establishment charges. The principal works executed are as follows :—

Original Works.

Rs. 1,114 0 0 were spent on additions to the public garden Bungalow and stable.
Rs. 652 0 0 were spent on additions to Mohanvilas.
Rs. 1,969 0 0 were spent on the new Building near the Dewan office.
Rs. 1,153 0 0 were spent on the Mahar School.
Rs. 363 0 0 were spent on additions to and alterations in the Museum Building.
Rs. 1,136 0 0 were spent on additions to the old Durbari Buildings.
Rs. 1,720 0 0 were spent on minor works.

Rs. 8,107 0 0.

Repairs.

Rs. 334 0 0 were spent on carriage sheds.
Rs. 312 0 0 were spent on Municipal carts &c.
Rs. 161 0 0 were spent on the big gate.
Rs. 263 0 0 were spent on the Public Garden Buildings.
Rs. 1,243 0 0 were spent on furniture.
Rs. 115 0 0 were spent on the Dispensary Building.
Rs. 1,511 0 0 were spent on miscellaneous repairs.

Rs. 3,939 0 0.
Rs. 835 0 0 were spent on establishment charges.

Total Rs. 12,881 0 0.

67. **Irrigation.**—There are no irrigation works in the State.

68. **Post and Telegraph Office.**—There is one Post Office in the State but no Telegraph Office. Proposals have, however, been submitted to Government and it is hoped that ere long it will be opened and thus the long and much felt want will be removed.

69. **Mint.**—There is no mint in the State.

70. **Condition of the people.**—The condition of the people of this State is as follows:—

As the year under review was somewhat favourable, the condition of the cultivators, most of whom are *Kaliparaj* people, has improved a little, and if the years to come prove prosperous, marked improvement will follow in their condition. The *Ujaliat* cultivators whose number, however, is very small are better off on the whole than the Kaliparaj ryots.

The carpenters, black-smiths and other artisans get enough labour and their condition is fairly good. The number of gold-smiths is in excess of the demand and so, many of them do not get sufficient work. They, however, carry on cultivation, and thus earn their livelihood.

The trading classes have no great scope for carrying on their work. They trade in grain and other miscellaneous articles and though their earnings were not very large, the year was a good one for them.

The majority of the Mahomedans are in the service of the State. Some also follow cultivation. Their condition on the whole is good.

There are very few Parsees in the State. Of these some follow cultivation and others keep liquor shops. On the whole they are in well-to-do condition.

Revenue and Finance.

71. **Revenue and Finance.**—The gross revenues amounted during the year to Rs. 4,12,091 against Rs. 6,48,598 which includes the amount of Rs. 2,45,284 borrowed and the amount of rupees 39,213 remitted by Sowcars as shown in the last year's report; and the expenditure came to Rs. 4,09,949 against Rs. 6,54,691 the previous year.

The principal items of income are as under:—

	1903-04	1904-05.
Land Revenue	1,81,474 0 0	1,99,139 0 0
Abkari	96,341 0 0	96,654 0 0
Forest	47,858 0 0	1,00,936 0 0
Amount borrowed	2,45,284 0 0	...
Recovery of former dues. ...	15,296 0 0	...
Amount remitted by Sowcars	39,213 0 0	...
Miscellaneous receipts ...	23,132 0 0	15,362 0 0
Total Rs. ...	6,48,598 0 0	4,12,091 0 0

72. There has been an increase of Rs. 17,665 under the head Land Revenue, which is due partly to large recoveries made during the year under report without many remissions or suspensions, owing to the year being comparatively a good one, and partly to the reversion of the two villages belonging to my deceased brother Buldevji, the revenue of which added to the general revenue of the State.

73. There is an increase of Rs. 313 under the head Abkari.

74. There is an increase of Rs. 53,078 under the head Forest, which shows that more forests and bamboos were sold during the year on account of high prices prevailing elsewhere.

75. **Chowth Jakat.**—During the year under report, the receipts from Chowth Jakat amounted to Rs. 9,399 against 6,968 in the previous one, showing an increase of Rs. 2,431. The increase is due to the larger quantity of timber and bamboos sold during the year under report than in the preceding one.

76. **Abkari-Opium.**—During the year under report the sale proceeds of the opium farm realized Rs. 153 against Rs. 70 in the preceding one. The consumption of opium was not very large in the State. The quantity of opium consumed during the year was 93 seers and $\frac{1}{2}$ tola against 122 seers and $22\frac{3}{4}$ tolas in the previous one.

77. **Distilleries.**—There are 3 distilleries in the State where liquor is distilled and issued to the Shop-keepers. During the year under report the Abkari farm given to Messrs Pestonji Ratanji & Co. for five years was continued to them for a yearly minimum sum of Rs.90,001 on account of duty, establishment charges &c.

During the year under report 8,388½ gallons of 25° U. P. and 2,58,890 gallons of 60° U. P. liquor was consumed against 6,524 gallons of 25° U. P. and 2,51,533 gallons of 60° U. P. during the previous year.

78 The total Abkari revenue during the year from Bhang, Ganja, Opium, Toddy and Liquor amounted to Rs. 96,654 against Rs. 96,341 in the previous one, showing an increase of Rs. 313.

79. Sufficient establishment has been engaged to prevent illicit distillation and to see that the people do not smuggle liquor from foreign limits.

80. The Abkari offences during the year numbered 58 against 119 in the previous one, showing a decrease of 61.

81. **Expenditure.**—The increase in expenditure is due to the marriage of my heir-apparent in March last. In addition to this, Rs. 40,709 were paid in liquidation of the debt. A sum of Rs. 9,378 was also paid on account of interest.

82. There is an increase of Rs. 1,205 in expenditure under the head Public Works.

83. **Local Funds.**—No Local Fund cess is levied in this State.

84. **Debts.**—At the end of the last year the amount of debt was Rs. 6,15,978-0-0. During the year under report Rs. 40,709-0-0 were paid towards the principal and Rs. 9,378 towards the interest from the State revenue. Thus at the end of this year the amount of debt was Rs. 5,75,269 of which Rs. 2,96,799 are at 4 p. c. and Rs. 2,78,470 at 9 p. c.

CHAPTER VI.

85. **Vital Statistics.**—There is one Dispensary in the State. Besides this there is a travelling Dispensary. The number of indoor patients treated during the year was 57 against 121 in the previous one. The number of outdoor patients was 10,865 against 11,268 in the last year. Of the 57 indoor patients, 6 died, 45 recovered, while 6 remained under treatment at the close of the year. Of 10,865 outdoor patients, 10,768 patients recovered and 97 remained under treatment.

The indoor patients were mostly Kaliparaj and in the number of outdoor patients 1,957 were Kaliparaj people.

The number of lepers treated during the year was 44. Of these 9 left the Asylum, 5 died, and 30 remained at the close of the year.

86. The total expenditure on the Dispensary and the Leper Asylum during the year amounted to Rs. 8,463 against Rs. 11,792 in the previous year.

The Chief Medical Officer Mr. Cawasji Temulji Pardiwalla is a Medical Graduate of the Bombay University. He is an expert in his profession and does his work with zeal and satisfaction. He is very popular with his patients.

87. **Births and Deaths.**—The number of births and deaths during the year under report was 1,835, and 1,538 respectively, against 1,855, and 1,314, in the previous one. There has been a decrease in the number of births and an increase in the number of deaths.

88. **Vaccination.**—There are 3 vaccinators in the State. During the year under report 4,066 children were vaccinated against 3,282 in the preceding one. Of 4,066 vaccinations 3,997 were successful, while 69 were unsuccessful against 71 last year. The expenditure on account of vaccination amounted during the year to Rs. 976 against Rs. 1,446 in the previous one.

89. **Plague.**—Plague broke out here in October 1904 and continued up to January 1905. Proper measures were taken to check the disease, such as disinfection, isolation and evacuation. 77 persons died of plague.

CHAPTER VII.

Education.

90. **Education.**—The number of schools was 23, it being the same as last year. Of this one is an Anglo-Vernacular school, one Girls' school, one Urdu school and one Mahar school.

The number of students attending the schools during the year was 750 against 790 in the previous year. The average daily attendance of scholars in these schools was 377.5.

Out of 300 students in the village schools 235 presented themselves at the examination, of which 45 were successful, showing a percentage of 19.2 against 51.8 in the previous year. The schools in town were not examined this time as they were closed during the latter part of the year, partly on account of plague and partly on account of my heir-apparent's marriage.

91. In order to induce the boys to attend school the State supplies them with books, clothing &c. Scholarships have been set apart for boys willing to attend the Training College at Ahmedabad but none at present avails himself of this concession. However, at the expense of the State, 2 boys study English in Surat and 2 receive collegiate education in Bombay.

92. In most of the village schools Kaliparaj teachers who are in touch with the people have been engaged in order to induce Kaliparaj boys to attend school. Notwithstanding this and the other inducements that are held out to the boys in the shape of books, clothing &c., as pointed out above, very few avail themselves of these advantages. This accounts for the meagre attendance in the village schools. Moreover, the Kaliparaj people being generally poor, they engage their children in cultivation and domestic work. They do not understand the benefits of education and it will be sometime before they begin to appreciate them properly. However the State accords the same generous treatment in the matter of education as in the previous year.

93. **Physical Education.**—In the town schools attention is paid to the physical education of boys. The schools are equipped with gymnastic apparatus and other requisites for drill exercise, and every day, for an hour or two, the boys engage themselves in sports and games.

94. The expenditure on education during the year amounted to Rs. 6,870 against Rs. 7,929 in the previous one.

CHAPTER VIII.

Miscellaneous.

95. **Printing Press.**—There is a Printing Press here where forms, Stamped papers and Stamp labels used in the State are printed. There is also another press for printing maps prepared by the Survey Department.

96. **Library.**—There is a library in the State called "The Maharana Shri Narandevji Library." It subscribes for 4 newspapers and 2 magazines. Besides these, the Durbar makes a present of some newspapers. It is equipped with a large stock of useful and interesting books.

The balance at the end of the last year was Rs. 267-0-7 and Rs. 359-6-0 having been received during the current year on account of the Durbar's grant and subscription from members, the total comes to Rs. 626-6-7. Out of this sum Rs. 394-2-6 were spent on account of the establishment charges and newspapers &c. leaving a balance of Rs. 232-4-1.

97. **Museum.**—The State is provided with a museum, which contains a collection of local and outside products. To these have been added rare and interesting objects of antiquity such as old guns, swords and bows &c. The credit of this institution is due to my heir-apparent, who started it some two years ago.

Various European officers, that have visited Dharampur, have been pleased with the collection and have expressed their hearty appreciation thereof. The State makes an annual grant of Rs. 500. It is hoped that with further development its sphere of usefulness will extend considerably.

98. **Mohandevji Club.**—This is a club newly started. Its object is to afford healthy recreation to members in the shape of indoor and outdoor games and sports.

In addition to the subscription from the members, the Durbar made a grant of Rs. 200 to the club, during the year under report.

99. **Record Room.**—There is a record room in the State where the records are kept after they have been sorted.

100. **Wild Animals.**—There are many wild animals in the State. During the year under report one panther was shot by Mr. Lory, Acting Educational Inspector, N. D.

101. **Fairs.**—In this State a fair is held annually at Fatepur in the month of Chaitra in honour of Bhairavnath, which is generally attended by the Kaliparaj people of the State as well as those of the neighbouring Native States.

102. **Jurisdiction.**—The magisterial powers conferred on the Jagirdar of Behej, the Ijardar of Barai and the State Thandars have been continued to them.

103. **King's Birth Day.**—The occasion of the Birth Day of His Most Gracious Majesty the King Emperor was celebrated with due ceremony.. All the schools and public offices were closed and the day was observed as a general holiday.

104. **Remarks about the Heir-apparent.**—As mentioned above, my Heir-apparent has taken up the revenue work almost as a labour of love. The keen and earnest way in which he does the work is very gratifying and there is no doubt that the valuable experience he now gets in conducting one of the important departments of the State will be of great use to him hereafter.

105. I am much obliged to Government and the Political Agent for the help and valuable advice I have received from them from time to time, and I trust that such advice and help will always be continued.

106. **Remarks about the Dewan.**—Before concluding this report, I cannot refrain myself from alluding to the valuable services rendered to the State by my present Dewan, Mr. S. G. Jayakar, M. A., B. Sc. He is a distinguished graduate of the Bombay University and a trusted officer of Government of long-standing and it was at my request that his services were lent to me by Government, for which I am much thankful to them.

Mr. Jayakar's geniality of disposition, probity of character, devotion to duty and sound common sense have made him a very useful and capable officer of the State and I have no hesitation in saying that under his regime the present embarrassed condition of the State will greatly improve.

107. **Concluding Remarks.**—In conclusion, it may be remarked that the only burden, the State has, is the outstanding debt, for which, properly speaking, I am not responsible. When I succeeded to the "Gadi" the State was heavily encumbered and there were at the time hardly any public works of utility, such as office buildings, village Chowras &c., the completion of which necessitated a large outlay aggregating Rs. 5,75,484. In addition to this, I had to spend large sums of money on the marriages of my sisters. All these causes and the unfavourable condition of the subsequent years have gone to swell the debt. But as mentioned in para 84, now that nearly half the debt is at 4 p. c., there will be a great saving in the amount of interest, and if the succeeding years prove favourable there will be no difficulty in paying off the debt, and all the more so, because proper steps have already been taken to retrench expenditure with a view to liquidate the debt. Moreover, as the period

of 40 years' lease under which the six villages of the State have been held by the Barai Ijardar is about to terminate very shortly (the actual date being 6th September 1905,), the income of these villages will add to the revenue of the State, and thus contribute to its material improvement, so far as its financial condition is concerned.

I am &c.

DHARAMPUR,
22nd August, 1905.

(Sd.) MAHARANA SHRI MOHANDEVJI RANA,
Raja Saheb of Dharampur State.

No. 43 of 1906.

FROM,

MAHARANA SHRI MOHANDEVJI RANA,

Raja Saheb **OF DHARAMPUR STATE.**

To

A. S. A. WESTROPP, Esquire, **I. C. S.,**

COLLECTOR AND POLITICAL AGENT,

SURAT.

Dharampur, 1st SEPTEMBER 1906

MY FRIEND,

I have the honour to submit the annual Administration Report of my State for the period commencing from 3rd July 1905 to 30th June 1906.

CHAPTER I.

2. **General and Political.**—The area of the State is *704* square miles, with a population of *1,00,430* persons, of whom *51,467* are males and *48,963* females. Its gross revenue based on the average of the past five years is Rs. 3,92,375.

A sum of Rs. 9,000 is annually paid to the British Government, under an agreement dated 6th April 1870, in lieu of *Chowth Jakat* formerly levied by Government in my territory. No tribute of any kind is paid to any other State.

Name and Title.—My name is Maharana Shri Mohandevji Narandevji Rana and my age is 43. I belong to the Sisodia Rajput caste (Solar dynasty). My two sons are Kumar Shri Vijaydevji and Kumar Shri Narsinhdevji by my only Rani Shri of Virpur in Kathiawar.

3. **Political Relations.**—The relations of my State with the British Government and the adjacent Native States continue cordial and satisfactory.

4. **Visits.**—Mr. A. S. A. Westropp, Collector and Political Agent, Surat, visited the State in the month of June and stayed here for two days. During his visit he went round to see the principal public institutions of the State. In honour of his visit school sports were organized but, owing to the rains, they had to be abandoned. School recitations in English, Gujarati, Sanskrit, and Urdu were gone through and Mrs. Westropp was kind enough to distribute prizes to the boys and girls of the schools.

5. **Domestic Occurrences of interest in the Raja Saheb's family.**—No event of special interest happened in my family during the year under report.

6. **Journey.**—I did not perform any long journey during the year but in response to the kind invitation of Government, and in order to testify my loyalty and attachment to the British Throne, I visited Bombay in November last on the occasion of the arrival of Their Royal Highnesses the Prince and Princess of Wales. At that time I was very cordially received by Government and had the honour of being presented to His Royal Highness the Prince of Wales. During my stay in Bombay I attended all the public functions in connection with the Royal visit. My stay there was for nearly a fortnight. My two kumars accompanied me at the time as also my Dewan and some of my leading State Officials. I had also with me a sufficient number of my retinue in keeping with my dignity.

Besides this visit to Bombay I also visited many of the State villages at different times to see personally the condition of the people and ascertain their wants.

7. **Changes in the Administration.**—The only important changes that took place in the personnel of the Administration are the appointment of Mr. D. V. Saraiya, B.A., LL. B. as Naib Dewan vice Mr. A. V. Modi resigned, and that of Mr. Fejalli Gulamalli, a retired Government Police Inspector, as Police Superintendent, in place of Mr. K. S. Jassavala resigned.

CHAPTER II.

Administration of land.

8. **Revenue Survey.**—The survey of the whole State has been completed except that of the six Barai villages. These villages which were held by the Ijardar under the 40 years' lease, reverted to the State on 7th September 1905. Steps are being taken to have them surveyed and it is hoped that the survey work will soon be completed.

The area of the villages surveyed is 4,37,529 acres and 38 gunthas. No new revenue land settlements were introduced in the State during the year under report. The rates of assessment which are fair and reasonable continue to be the same as before. During the year under report a sum of Rs. 804-10-0 was remitted against Rs. 823-15-0 in the preceding one.

9. **Waste Lands.**—The total area of *Khalsa* villages is 3,60,477 acres and 20 gunthas, of which 2,64,208 acres and 6 gunthas are culturable, while 96,269 acres and 14 gunthas are *Kharaba*. Of the total area, land measuring 95,568 acres and 14 gunthas is under cultivation and the rest being hilly and covered with trees is unfit for cultivation and remains waste. Inducements were offered to the Kaliparaj people to take up this waste land by reducing the rates, but owing to their impoverished condition due to previous famines and a succession of unfavourable years, as also on account of their migratory habits there was no great demand to take up more land for cultivation. During the year under report, land measuring 7,316 acres and 10 gunthas was relinquished

against 10,521 acres and 27 gunthas taken up for cultivation. It would thus appear that there were this year more *Kabulats* than *Rajinamas*.

10. **Accounts.**—The village and Hazur accounts of the State are kept in accordance with the forms prescribed by Sir T. C. Hope and the *Jamabandi* work is done accordingly.

11. The State is divided into five parts, each part being placed under a *Thandar*. The *Thandars* supervise the work of the Talatis, inspect boundary marks, compare the Ryots' receipt-books and examine registers of births and deaths and cultivation in waste land. In fact, the whole of the revenue work is done through them.

12. **Boundary disputes.**—There were no disputes about the boundary during the year under report.

13. **Government and Wards' Estates.**—On account of the minority of Kumar Shri Chandradevji, son of my deceased brother Shri Haridevji, his estate is managed by the State. Having completed his course in the Gondal Garassia College he was, at his request, allowed to proceed to England to study for some profession. He went to England in June last with a view to qualify himself as a Veterinary Surgeon. He now gets an allowance of Rs. 400 per month.

Kumar Shri Chandradevji, having expressed his desire to have his ornaments lying in the custody of the State sold off, arrangements were made for their sale with the sanction of the Collector and Political Agent, Surat. The sale was effected at Surat on 12th May and subsequent days in the presence of the Collector and Political Agent and my Dewan. The amount realized by the sale was Rs. 52,103-13-10. This amount has been, with the sanction of the Collector and Political Agent, invested in the State debts, at 4 per cent. interest.

In addition to this, as reported last year, a sum of Rs. 2,22,068-12-6 belonging to Bhai Shri Prabhatdevji and Rs. 23,215-6-6 belonging to Kumar Shri Chandradevji have been taken as a loan by the State, at 4 per cent. interest, under the orders of Government.

The receipts and disbursements of the estate of Kumar Shri Chandradevji are as follows :—

No.	Name.	Age.	Place of birth.	Place of education.	Balance at the beginning of the year.	Receipts	Disbursements.	Balance.		Value of moveable property in hand.	Area of land under management.
								In cash.	With the State.		
1	Kumar Shri Chandradevji	20	Dharampur.	At present studying in England.	Rs. as. p. 1,150-14-1	Rs. as. p. 68,090-11-2	Rs. as. p. 7,061-8-2	Rs. as. p. 76—3-3	Rs. as p. 75,319-4-4	...	Bighas, 3,632

CHAPTER III.

Protection.

14. **Legislation.**—The Civil and Criminal work of the State is conducted in accordance with the principles of the British Indian Laws. No changes were effected in the legislation of the State during the year under report.

15. **Military Force.**—There is no regular Military force in the State.

16. **Police.**—The Police force is maintained on the system of the British District Police. The number of police including officers and mounted constables was 120 during the year against 142 in the preceding one. The cost of the force was Rs. 14,680 against Rs. 15,719 last year. The details are as follows :—

Name of State.	Mounted.	Foot.	Total strength.	Total cost.	Remarks for number and description of hereditary Police.
				Rs.	
Dharampur.	10	110	120	14,680	There are nearly 400 *Sirbandis* in the State but they are only called on emergent occasions for duty.

17. Out of the total number 50 are able to read and write and 10 are under instruction.

18. The proportion of Police to population and area is 1.19 per mille and 17.04 per 100 square miles respectively.

19. Besides the regular Police force, 37 Arab guards have been engaged to guard the Treasury, *Jamdarkhana* and the *Zenankhana.*

20. The Police force is supplied with batons, guns and swords.

21. To maintain proper order in the State, 8 outposts have been kept and the men stationed therein take rounds in the villages to guard against the occurrences of any offences. The village Police Patels also co-operate with them in detecting offences and preserving proper order in their respective villages.

22. During the year under report, 19 of the Police force were departmentally fined for neglect of duty, 9 were dismissed for gross negligence and 2 were judicially punished, while 9 were promoted for efficiency in the performance of duty.

23. **Village Police.**—In addition to the regular Police, there are nearly 400 Sirbandis in the State and their servicesare availed of on occasions of emergency. They hold land free subject to rendering service whenever required. The Patels are also empowered to take part in "Panchnamas" held in cases of suicide and accidental deaths.

24. The results of the working of the Police are as follows:—

Name of State.	Number of offences.		Number of accused arrested.		Number of accused sent for trial.		Number of accused convicted		Number of accused acquitted or discharged.		Percentage of convictions columns (4 and 5)		Percentage of convicted accused sent for trial.		Remarks.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Dharampur.	104	93	174	138	172	127	137	109	31	18	78.73	78.9	79.65	85.82	

25. The amount of property stolen and recovered during the year was as follows:—

State.	Amount Stolen.		Amount recovered.		Percentage of recoveries of property stolen.		Remarks.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
1	2	3	4	5	6	7	8
Dharampur.	Rs. as. p. 10,395—7—1	Rs. as. p. 1,251—2—1	Rs. as. p. 10,182—12—3	Rs. as. p. 1,219—11—7	99	97	

26. There has been a decrease of 11 crimes over the last year's number. There were 2 serious crimes of culpable homicide during the year as against the same number last year.

27. The percentage of property recovered to that stolen was 97 per cent. during the year against 99 per cent. the previous year.

28. The proportion of crimes to population is .92 per mille against 1.03 the preceding year.

29. **Fires.**—No fire worth mentioning broke out in the State during the year under report.

30. **Accidental deaths.**—There were 58 accidental deaths due to snake bites, falling from trees, drowning, suicide &c. There were no cases of infanticide or highway robbery.

31. **Criminal Justice.**—There are 5 Criminal Courts of Thandars, 1 of Nyayadhish, 1 of Naib Dewan and 1 of Dewan. Besides these, there is a court of Honorary Magistrate of the Jahagirdar of Behej. Last year there were two such courts, the other one being the court of the Ijardar of Barai; but as the Barai villages have reverted to the State the latter court ceases to exist.

32. The work relating to Criminal Justice will be known from the Appendices VII, VIII and IX.

33. There was a decrease of crimes during the year under report. The principal decrease is due to the Abkari offences being less this year than in the previous one.

34. Among serious offences there were 2 cases of culpable homicide, one amounting to murder and the other not amounting to murder during the year against 2 in the previous year.

35. The number of Criminal cases reported during the year was 161 against 177 in the previous one. Only 1 case remained to be disposed of at the end of the year. The number of persons tried was 289 against 300 in the preceding one. Of these 127 were convicted against 163 in the previous year, while 161 were either acquitted or discharged, 1 person remaining under trial at the end of the year. The percentage of convictions was 43.9 against 55.6 in the previous year. Of the 127 persons convicted 8 were sentenced to imprisonment for more than 6 months, 18 for terms less than 6 months and 101 were only fined.

The total amount of fines inflicted during the year under report was Rs. 1,059-4-0 against Rs. 2,461 last year, the amount recovered being Rs. 783 against Rs. 2,209 in the previous year.

No sentence of capital punishment was inflicted during the year.

All these cases except 3 Sessions cases were disposed of in the Nyayadhish Court. 3 Sessions cases were disposed of in the Diwan's Court.

36. **Appeals.**—During the year there was one appeal in the Diwan's Court.

37. **Civil Justice.**—As shown in statements X and XII, the number of suits and appeals filed during the year was 45 and 1 respectively, the amount involved therein being Rs. 2,427-14-7. Two suits related to land. The number of suits to be disposed of including the last year's arrears was 48, of which 35 were disposed of and 13 remained pending at the close of the year.

38. The average duration of suits was 4 months and 6 days.

39. The proportion of suits to population is .045 per mille.

40. **Applications for execution of decrees.**—During the year under report there were 41 applications for the execution of decrees. These together with the last year's arrears came to 46, of which 41 were disposed of during the year and 5 remained pending at its close.

41. There was one application in the Diwan's Court for getting letters of administration.

42. **Civil Appeals.**—There was one Civil Appeal in the Hazur Court. One application was made in the Hazur Court praying for the exercise of its extraordinary revisional jurisdiction but the application was rejected.

43. **Extradition.**—During the year under report the number of offenders made over by and to the State is as follows :—

8	Offenders made over to the State through the Collector and Political Agent, Surat.
1	Offender made over by the Bansda State to this State.
9	
1	Offender made over to the 2nd class Magistrate, Peint.
2	Offenders made over to the Bansda State.
3	

44. During the year all the extradited persons were convicted, with the exception of two persons who have been acquitted.

45. **Remarks about the State Nyayadhish.**—The State Nyayadhish Mr. K. N. Marphatia is a B. A., LL. B., of the Bombay University. He is a very capable and conscientious officer and his knowledge of law is sound and upto date.

46. **Prison.**—There is only one jail building here which is a *pucca* one wherein two rooms have been set apart for under-trial prisoners. During the year under report including the last year's remnants, 90 prisoners were confined in the jail against 130 in the preceding one, as will be seen from the Appendix XIII.

47. The daily average attendance in the jail was 19.07. Some of the prisoners convicted of offences against the State have been sent to Thana, Hyderabad and other jails. Including their maintenance charges the expenditure on the Jail amounted to Rs. 4,372 against Rs. 5,072, the previous year.

48. The prisoners are mostly employed on roads. Occasionally, also, they are engaged in weaving cotton tapes, ropes, coir matting &c.

49. The Dewan, the Naib Dewan and the Nyayadhish have been appointed visitors of the Jail. They visit it from time to time to see that everything is in proper order and hear the complaints of the prisoners, if they have any, with a view to redress.

Registration.

50. **Registration.**—The number of documents registered during the year was 19 against 20 last year, and the fees realized amounted to Rs. 33-4-0 against Rs. 39 the preceding year.

51. **Cost of Registration.**—No separate establishment is maintained for the work of registration, the work being done in the Dewan's office.

Municipality.

52. **Municipality.**—There is a Municipality in the town of Dharampur only and there seems to be no necessity for it elsewhere in the State, as the villagers who are mostly Kaliparaj people live in huts in their own fields apart from each other.

53. No Municipal taxes are levied from the people, the whole of the expenditure in connection with the Municipality being borne by the State. The town roads are swept and occasionally watered and the streets are lighted and due steps are taken to ensure the cleanliness and sanitation of the town. The total expenditure under this head amounted to Rs. 2,471 against Rs. 2,227 in the preceding year, showing an increase of Rs. 244.

CHAPTER IV.

Production and Distribution.

54. **Season.**—The past season was generally favourable, and public health good. No epidemic of any kind made its appearance during the year under report. The prevailing diseases were Malaria, Dyspepsia, Bronchitis, Diarrhoea and skin diseases. The maximum and minimum thermometer readings were 100° F. H. and 53° F. H. respectively, during the year against 99° F. H. and 54° F. H. last year.

55. **Rain-fall.**—The rain-fall during the year was 53 inches and 44 cents, against 43 inches and 78 cents, last year, showing an increase of 9 inches and 66 cents over that of the preceding year.

56. **Crops.**—The yield of crops was 14 annas; but for the failure of the rains just at the end of the season the yield would have been more satisfactory.

57. **Wages and Labour—Prices of food grains.**—The people get sufficient labour in the cutting of forests and in the building works conducted by the State and private individuals. The rate of wages varied from 0-1-6 to 0-3-0 annas.

The following statement shows the prices of food grains during the current as well as the past year:—

Articles.	During March Past year.			During March Present year.			Remarks.
Jowar per Maund	1	6	0	1	7	0	
Bajri per Maund...	1	10	0	1	11	0	
Rice with husks per Maund ...	1	2	0	1	4	0	
Nagli per Maund	1	0	0	1	4	0	
Kodra per Maund	0	10	0	0	13	0	
Tuver (a kind of pulse) per Maund	1	5	0	1	12	0	

58. **Forests.**—The work relating to the demarcation of forests has been carried on by the Survey Department. During the year under report the number of blocks which in the preceding year was 156 has been converted into 160. At the close of the year 91,246 acres and 3 gunthas remain as reserve against 98,340 acres and 34 gunthas in the preceding year.

Large traverse blocks of the villages of Ashlona and Vadoli were brought under protection, and the total area of protected forests was 53,290 acres and 14 gunthas at the close of the year, against 46,511 acres and 17 gunthas the previous year, showing an increase of 6,778 acres and 37 gunthas.

59. Seeds of teak, kher, harda &c. and Mowra were sown during the year and they are doing well. Mango and Jamboo trees planted at Nana Pondha are also thriving and are likely to yield a good return hereafter.

60. During the year under report, 35 breaches of forest rules occurred as against 27 in the preceding one and the total fine collected amounted to Rs. 93-10-7 against Rs. 74-10-9 last year.

61. There were 6 fires in the forests during the year against 4 in the preceding one, the damage done being Rs. 5-14-0 against Rs. 9-14-6 last year.

62. For the proper supervision of the State forests, sufficient establishment has been maintained. The Forest Officer is Mr. Ranchhoddas Dharshi who is a distinguished graduate of the Madras Agricultural College. He is an energetic and efficient officer of the State and does his work in a very satisfactory manner.

63. The revenue realized by the sale of timber, bamboos &c. amounted to Rs. 86,887 against Rs. 1,00,936 in the previous year, showing a decrease of Rs. 14,049.

64. **Trade and Manufacture.**—There are hardly any means of trade in the State. Only different kinds of grain and *Assindra* and *Timroo* leaves for

country *bidis* are exported during the season. As regards manufacture, there is very little sign of any general improvement of minor industries other than the making of bamboo baskets, mats of palm trees and screens of seeds interwoven.

65. **Quarries.**—No quarry work is carried on in the State.

66. **Public Works.**—The expenditure under this head amounted during the year to Rs. 7,992 against Rs. 12,881 in the previous year. Rs. 2,550 were spent on original works, Rs. 4,714 on repairs and Rs. 728 on establishment charges. The principal works executed are as follows :—

Original Works.

Durbar Compound Wall	Rs.	757	5 0
Huzur Office alterations	„	468	13 7
Completion of the building near the Dewan's Office	„	539	9 0
Out-houses near the public garden	„	784	12 6
	Rs.	2,550	8 1

Repairs.

Repairs to the Museum	Rs.	50	3 11
Do. to the Darbari Well	„	137	2 0
Do. to Old Darbari building	„	3,010	3 5
Do. to the building in the Public garden...	„	100	7 7
Do. to the Asura Police Station			
Do. to the Leper Asylum			
Do. to the Paga			
Do. to the Jamanpada School	Rs.	1,416	7 7
Do. to the Revenue Office			
Do. to the Kharvel Bungalow			
Do. to the Survey Office and other miscellaneous repairs			
	Rs.	4,714	8 6

67. **Irrigation.**—There are no irrigation works in the State.

68. **Post and Telegraph Offices.**—Upto October last, there was simply a Post Office in the State, but thanks to Government, a Telegraph Office has, since then, been opened, whereby a long and much-felt public want has been removed.

69. **Mint.**—There is no mint in the State.

70. **Condition of the people.**—The past season being somewhat favourable the condition of the cultivators most of whom are Kaliparaj people is showing signs of gradual improvement. A demand from the State for money advances for sinking wells and for free timber (timber worth Rs. 2514 being given to these men from the State, free of cost, during the year) for construct-

ing tiled semi *pucca* buildings is a clear indication of a steady change that is going on in the migratory habits of the Kaliparaj men, whereby they are induced to locate in one place instead of roaming about, as they did before, and there is no doubt that if the succeeding years prove favourable, the condition of these people will improve considerably. The Ujaliat cultivators who form a minority are better off on the whole than the Kaliparaj ryots and they are doing well.

There is sufficient scope for the carpenters, blacksmiths and other petty artisans to earn their livelihood. A few of them also follow cultivation.

The trading classes who generally deal in grains and other miscellaneous articles had a fairly good year, on account of high prices prevailing in the adjacent districts.

Most of the Mahomedans are in the service of the State, though some of them also follow cultivation. They are in fairly good condition.

The number of Parsees in the State is very small. Some of them keep liquor-shops and others depend on cultivation. On the whole they are well-off

71. **Measures taken to ameliorate the condition of the Kaliparaj ryots.**—With a view to ameliorate the condition of the Kaliparaj people and to remove them from their chronic indebtedness, a *Bee-khavti* Loan-Association working under the auspices of the State, has recently been started by some of the local leading traders. Moderate loan advances are made by the Association to the Kaliparaj cultivators for strictly agricultural purposes, at a very reasonable and fixed rate of interest and the repayment of such loans is guaranteed by the State. All these loan transactions both as regards advances and their repayments are carried on through the Revenue Commissioner with the assistance of the *Talatis* who are required to make proper enquiries and satisfy themselves as to the necessity of the advances asked for and likewise to see that the advances when made are utilized for strictly agricultural purposes.

It is also under contemplation to have a suitable building in Dharampur for the use of the village *patels* and *khatedars* who come to Dharampur from time to time on State duty. The building is to be called the "Patels-Home" where these petty officials and *khatedars* may stay comfortably, without being much inconvenienced as is the case at present.

CHAPTER V.

Revenue and Finance.

72. The gross revenue amounted during the year to Rs. 4,70,695, which includes the amount of Rs. 52,103-13-10 lent to the State at 4 per cent. interest, being the sale-proceeds of Kumar Shri Chandradevji's ornaments, as mentioned in para 13. Last year the gross revenue amounted to Rs. 4,12,091.

The principal items of income are as follows :—

	1904-05 Rs.	1905-06. Rs.
Land Revenue	1,99,139	2,09,421
Abkari...	96,654	1,03,521
Forest	1,00,936	86,887
Amount borrowed	...	52,104
Recovery of former dues	...	4,745
Miscellaneous Receipts	15,362	14,017
Total Rs.	4,12,091	Rs. 4,70,695

73. There has been an increase of Rs. 10,282 under the Land Revenue head which is due partly to large recoveries made during the year without many remissions or suspensions, owing to the year being comparatively a favourable one and partly to the resumption of the six Barai villages as mentioned in para 8.

74. The following table contains figures showing the amount of Land Revenue collected and the amount remitted during the last five years :—

Year.	Amount of Land Revenue collected.	Amount remitted.	Percentage of remission to amount collected.	Remarks.
	Rs.	Rs.		
1901-1902	1,83,904	12,908	7.01	
1902-1903	1,77,434	8,618	4.8	
1903-1904	1,81,474	6,068	3.3	
1904-1905	1,99,139	823	0.4	
1905-1906	2,09,421	804	0.3	

The average of the last two years' Land Revenue as compared with that of the preceding two years is Rs. 2,04,280 against Rs. 1,79,454 showing an increase of Rs. 24,826.

From the above figures it will appear that there has been a steady rise in the land revenue collections during the last two years as compared with the collections made in previous years. In like manner the amount of remissions or suspensions during these two years is proportionately much less than what it was in the preceding years. For this satisfactory state of things great credit is due to my heir-apparent Kumar Shri Vijaydevji who by his personal supervision, assiduity, enthusiasm, and his innate love for work and with the hearty co-operation of Mr. V. J. Mody as Joint Revenue Commissioner has succeeded in placing the Revenue Department on a proper footing and in bringing about such happy results.

75. **Chowth Jakat.**–The receipts under this head amounted to Rs. 7,643 against Rs. 9,399 in the previous year, showing a decrease of Rs. 1,756.

76. **Abkari and Opium.**–The sale proceeds of the opium farm aggregated Rs. 65 against Rs. 153 in the preceding year. The consumption of opium is gradually decreasing, the quantity consumed this year being 77 seers and 10 tolas against 93 seers and ½ tola in the preceding one.

77. **Distilleries.**—There are 3 distilleries in the State *viz.* at Fatehpur, Mandwa and Dharampur, where liquor is distilled and issued to the shopkeepers. The Abkari farm given to Messrs. Pestonji Ratanji & Co., for 5 years has been continued to them for a yearly minimum sum of Rs. 90,001, on account of duty, establishment charges, &c.

During the year under report the quantity of liquor consumed was 11,580¾ gallons of 25° U. P. and 3,10,738 gallons of 60° U. P. against 8,388½ gallons of 25° U. P. and Rs. 2,58,890 gallons of 60° U. P. in the previous year.

78. The total Abkari Revenue during the year from Bhang, Ganja, Opium, Toddy and Liquor amounted to Rs. 1,03,521 against Rs. 96,654 in the preceding year, showing an increase of Rs. 6,867.

79. Sufficient establishment has been engaged by the State, as also by the farmer to prevent illicit distillation and smuggling.

80. The number of abkari offences during the year was 45 against 58 in the previous one showing a decrease of 13.

81. **Expenditure.**—The expenditure this year came to Rs. 4,71,533 against Rs. 4,09,949 the previous year. The expenditure would not have been large but for the payment of the balance of Rs. 39,307 due in respect of the marriage of my heir-apparent last year and also on account of my visit to Bombay on the occasion of the Royal visit there in November last which involved an expenditure of Rs. 32,855.

82. **Local Funds.**—No local fund cess is levied in this State.

83. **Debts.**—At the end of the last year the amount of debt was Rs. 5,75,269. In addition to this a sum of Rs. 52,104 was advanced to the State at 4 per cent., being the amount of the sale-proceeds of Kumar Shri Chandradevji's ornaments, whereby the total debt amounted to Rs. 6,27,373. During the year under report Rs. 1,63,497 were paid in liquidation of the debt, Rs. 1,18,641 being towards the principal and Rs. 44,856 towards the interest, as against Rs. 40,709 towards the principal and Rs. 9,378 towards the interest paid last year. Thus at the end of the year, the amount of debt is Rs. 5,08,732, of which Rs. 3,31,642 are at 4 per cent. and Rs. 1,77,090 at 9 per cent.

CHAPTER VI.

Vital Statistics.

84. **Dispensary.**—There is one Dispensary in the State and one Travelling Dispensary which is in charge of a qualified Hospital Assistant who visits the State villages and looks after the health of the villagers.

85. The following table shows the number of out-door and in-door patients treated during the year together with other particulars as compared with those of the previous year.

Dispensary.	No. of patients treated in 1904-05. Out door.	No. of patients treated in 1904-05. Indoor.	No. of patients treated in 1905-06. Out door.	No. of patients treated in 1905-06. Indoor.	Results of Indoor patients in 1905-06. Discharged.	Absented.	Died.	Remaining under treatment.	Daily average of all the patients in 1904-05.	Daily average of all the patients in 1905-06.	Expenditure. 1904-05. Rs.	Expenditure. 1905-06. Rs.	Remarks.
Jubilee Charitable Dispensary.	10,865	57	10,857	72	63	...	5	4	195.7	204.2	6,720	6,537	
Travelling* Dispensary.	...	...	628	...	...	...	...	...	...	11.9	450	464	*The figures for the previous year are not available, as no regular statistics were kept at the time.

The indoor patients in the Jubilee Dispensary were mostly Kaliparaj and in the number of out-door patients 1998 were Kaliparaj people.

In the Travelling Dispensary almost all the patients were Kaliparaj people.

The number of lepers treated during the year was 40 against 44 last year. Of these 6 left the Asylum, 3 died and 31 remained at the close of the year. The daily average attendance was 30.1 against 28.5 the previous year.

The total expenditure on the Leper Asylum during the year amounted to Rs. 1,197 against Rs. 1,293 in the preceding year.

86. The Chief Medical Officer of the State is Mr. Cawasji Temulji Pardiwala who is an L. M. & S., of the University of Bombay. He is a very capable and competent officer and does his work with whole-heartedness. His patients have great confidence in him. He is in charge of the State Jubilee Charitable Institution which, as remarked in the Visitors' Book by the Collector and Political Agent when he visited the Institution on the last occasion, "seems to be in excellent order and to be well managed by the Doctor in charge. There were four in-patients who seem to be made very comfortable with good blankets and sheets."

87. **Births and Deaths.**—The Talatis of the villages keep registers of births and deaths and submit monthly returns. The following table shows the details of births and deaths.

	1904-05.	1905-06.	Increase.	Decrease.	Remarks.
Births	1835	2111	276	...	
Deaths ...	1538	1256	...	282	

88. **Vaccination.**—Upto the end of December 1905, the Vaccination Department of the State was under the control and management of Government, but since January 1, 1906, the work has been, at my request, transferred by Government to this State, for which I am much thankful to them. It is in charge of Dr. Pardiwalla, the Chief Medical Officer of the State. He is assisted by one Inspector, Mr. Hussenkhan who was once in the service of Government as Vaccinator. There are also four trained vaccinators working in the department.

Appendix XXV shows the number of children vaccinated and the expenditure incurred on account of vaccination during the current year.

Looking to the results of vaccination it seems that the vaccination work of the State is going on satisfactorily.

89. **Plague.**—There was slight rat mortality in the middle of April but owing to timely precautions, happily no case of plague occurred here during the year.

CHAPTER VII.

Instruction.

90. **Education.**—The number of Schools during the year was 23, the same as last year. Of these 1 is an Anglo-Vernacular School, 1 Girls' School, 1 Urdu School and 1 Mahar School.

The following table shows the number of pupils on the rolls on 31st March 1906 and their daily attendance as compared with the corresponding figures for the previous year.

Number of pupils on rolls on 31st March 1905.	Number of pupils on rolls on 31st March 1906.	Average daily attendance 1905.	Average daily attendance 1906.	Remarks.
750	867	377·5	471·9	

The monthly average number on the rolls during the year for all the Schools together was 778·5.

91. In the village Schools 310 boys presented themselves at the Annual Examination, of whom 181 were successful, showing a percentage of 58.3 against 19.2 in the previous year.

In the Town Schools out of 323 pupils, 168 were successful, showing a percentage of 52,01. As mentioned in the last year's report these Schools were not examined last year as they were closed during the latter part of the year, partly on account of plague, and partly on account of the heir-apparent's marriage and so the corresponding figures for the last year are not available for comparison.

92. The Head Master of the Anglo-Vernacular School is Mr. Ghelabhai Chhotalal Shah, a B. A., graduate of the Bombay University. He is an experienced teacher and his appointment which has recently been made is likely to improve the tone and efficiency of the School. He takes keen interest in physical exercise and is often found supervising at the play-ground and encouraging the boys to play.

93. In order to induce the boys to attend School, the State supplies them with books and clothes. In most of the village schools, Kaliparaj teachers have been engaged and a village School Inspector of the Kaliparaj caste, who is a duly trained man, has recently been appointed, with a view to exercise proper supervision over the schools and induce the parents to send their children to school.

94. A satisfactory feature in connection with the town-schools of the State is the increase in the number of girls as also of Mahomedan boys who are now receiving education, the number of girls being 84 and that of Mahomedan boys being 67.

95. The *Mahar* school is also showing signs of advancement. There are at present 14 Mahar boys in the school. It is in charge of a Master who is a *Mahar* by caste and who has completed his 6th standard course.

96. In the village schools which are mostly attended by Kaliparaj boys, the attendance this year, though somewhat better than that of the previous year, is far from satisfactory. This is because there is a good deal of apathy on the part of the parents who, being poor and illiterate, prefer to employ their children in doing household work and who consider time spent at School as time wasted. Due steps are being taken to overcome this apathy and to ensure greater attendance and it is hoped that there will be some improvement in this direction in the near future. Notwithstanding this apathy, the State continues to take all possible means to spread education among all classes of people.

97. **Physical Education.**—In the town schools attention is paid to Physical education. The school is provided with gymnastic apparatus and other requisites for cricket, drill &c. Cricket, however, finds high favour with the boys.

98. The expenditure on education during the year amounted to Rs. 6855 against Rs. 6870 in the previous one.

CHAPTER VIII.

Miscellaneous.

99. **Printing Press.**—The State is provided with a printing press where forms, adhesive and impressed stamps, rules, circulars and passes issued by different departments of the State are printed. There is also another press for printing maps prepared by the Survey Department.

100. **Library.**—The State has a Library called "The Maharana Shri Narandevji Library" which contains a large stock of useful and interesting books. It subscribes for 6 Newspapers and 7 Magazines. A few presents of the Papers and Magazines are also made by the Darbar. Besides the regular members, the Library is also open to visitors and the senior students of the Town Schools.

The balance at the end of the last year was Rs. 232-4-1. Including the Darbari grant this year and Subscription from the members, the total amount came to Rs. 816-5-7, out of which Rs. 550-11-10 were spent on account of establishment charges, books, Newspapers &c., leaving a balance of Rs. 265-9-9.

101. **Museum.**—The Museum contains a collection of important local and outside products and rare and interesting objects of antiquity, such as old guns, swords, bows, &c. This institution was started by my heir apparent some three years ago. The Darbar makes an annual grant of Rs. 500.

Various European Officers and other gentlemen that have visited it have been very much pleased with the collection and have expressed their cordial appreciation of it.

102. **Mohandevji Club.**—This is purely a Social Club started about a year ago. Its object is to foster good feeling amongst the Members and to afford healthy recreation in the shape of in-door and out-door games and sports.

In addition to the subscription from the members, the State makes an annual grant of Rs. 200 to it.

103. **Record Room.**—In this room the State records are kept after they are properly sorted, labelled and indexed.

104. **Wild Animals.**—There are many wild animals in the State. No *Shikar* was made this year by any European Officer or gentleman.

105. **Fairs.**—In the month of Chaitra (April) a fair is held annually at Fathepur in honour of the deity "Bhairavnath." It is generally attended by the Kaliparaj people of the State as well as those of the neighbouring Native States. No other fairs worth mentioning are held in the State.

106. **Jurisdiction.**—The Magisterial powers conferred on the Jahagirdar of Behej and the State Thandars have been continued to them. The Barai villages having reverted to the State as mentioned in para 8 the Honorary Magisterial Court has ceased to exist.

107. **King Emperor's Birth-Day.**—The Birth-Day of His Most Gracious Majesty the King Emperor was celebrated in a due and becoming manner. A salute of 31 guns was fired and all the schools and public offices were closed and the day was observed as a general holiday.

108. **Holidays in honour of the Royal visit to Bombay.**—In like manner the 9th, 11th, and 13th of November last were observed as Public Holidays in honour of the occasion of the visit of Their Royal Highnesses the Prince and Princess of Wales to Bombay.

109. **Remarks about the heir-apparent.**—Since the last two years my heir-apparent Kumar Shri Vijaydevji has been doing the Revenue work of the State almost as a labour of love and continues to display the same keenness and earnestness in his work as distinguished him before. The success with which he has achieved his work as Revenue Commissioner has been mentioned in paragraph 74. He is assisted by his former tutor and companion Mr. V. J. Mody as Joint Revenue Commissioner who spares no pains to do his work efficiently and satisfactorily.

110. **Remarks about the Dewan.**—Without repeating the commendatory remarks made in my last year's report regarding my Dewan Mr. S. G. Jayakar, M.A., B. SC., I have only to add that a year's further contact with him fully bears out the estimate I then formed of his character and ability and it is gratifying to add that during his tenure of office, short as it is, he has been the means of infusing a new and healthy tone and spirit into the administration, and by his unflagging zeal and strict supervision, he has been fortunate enough to increase the revenue of the State, to put a wholesome check on useless and unnecessary expenditure, and to reduce the debt of the State to a considerable extent.

111. **Remarks about the Personal Assistant.**—My personal assistant Mr. K. G. Mody, who has been in the service of the State for upwards of 21 years is an able and trustworthy officer and does his work with devotion and alacrity.

112. **Thanks to Government & the Political Agent.**—Before concluding, I have to offer my cordial thanks to Government and the Political Agent, for the valuable help and advice I have received from them from time to time and hope that such help and advice will always be continued to me.

113. **Concluding remarks.**—In conclusion, it may be observed that fair as the past season has been, though it was somewhat marred by the absence of rain at the latter part of the year, the steady increase in the total earnings of the State, due to a growth of revenue under almost all heads, is a clear indication of its gradual rise and prosperity. If, then, the years to come prove

favourable, as I hope them to be, and with due steps that are being taken to economise expenditure in all directions and with two-thirds of the debt at 4 p. c., and one third at 9 p. c., there is every probability of the State debt being completely wiped off, and that too at no distant date.

I am,

Your sincere friend,

DHARAMPUR,
1st September 1906.

(Sd.) MAHARANA SHRI MOHANDEVJI RANA,
Raja Saheb of Dharampur State.

Appendix I.

List of high Officials in the Dharampur State, showing changes in the personnel during the year 1905-06.

Name of Officer.	Appointment.	Period.		Remarks.
		From	To	
Mr. Sunderrao Gajanan Jayakar, M. A., B. Sc.	Dewan.	12th October 1904.	Still in service.	Services lent to the State by Government.

No. 102 of 1907.

FROM

MAHARANA SHRI MOHANDEVJI RANA,

Raja Saheb **OF DHARAMPUR STATE.**

To

H. L. PAINTER, Esquire, **B. A.,** (Oxon.), **I. C. S.,**

COLLECTOR AND POLITICAL AGENT,

SURAT.

Dharampur, Camp Nani Vahial, 2nd September 1907.

MY FRIEND,

I have the honour to submit the annual Administration Report of my State for the year ending 30th June 1907.

CHAPTER I.

2. **General and Political**—The area of the State is 704 square miles with a population of 1,00,430 persons of whom 51,467 are males and 48,963 females. Its gross revenue based on the average of the past five years is Rs. 4,05,283.

A sum of Rs. 9,000 is annually paid to the British Government, under an agreement dated 6th April 1870, in lieu of *Chowth Jakat* formerly levied by Government in my territory. No tribute of any kind is paid to any other State.

Name and Title—My name is Maharana Shri Mohandevji Narandevji Rana and my age is 44. I belong to the Sisodia Rajput caste (Solar dynasty). My two sons are Kumar Shri Vijayadevji and Kumar Shri Narsinhdevji by my only Rani Shri of Virpur in Kathiawar.

3. **Political Relations.**—The relations of the State with the British Government and the adjacent Native States continue cordial and satisfactory.

4. **Visits.**—The annual visit of the Collector and Political Agent, Surat, in the month of May or June had to be postponed on account of the prevalence of plague at the time. In the month of March, the Thakore Saheb of Gondal accompanied by his family visited Dharampur and stayed here for two days. A cordial reception was given to the Thakore Saheb and his party at the time of arrival. During his stay the Thakore Saheb paid a visit to some of the principal places of interest in the State. In November last Mr. Bose, Executive Engineer, Surat and Broach District, with Mrs. Bose visited this place with a view to have a look at the general condition of the Bulsar-Dharampur Road. Proper arrangements were made for their reception here.

5. Domestic Occurrences of interest in the Raja Saheb's family.—The most interesting and joyful event in my family during the year under report was the birth of a son and heir to my heir-apparent Kumar Shri Vijayadevji on 14th December 1906. It was celebrated in a due and becoming manner. Congratulations poured in from all sides and in honour of it a Durbar was held which was attended by a large number of my people as also representatives from different Native States. This happy event was unfortunately soon after followed by the melancholy and premature death of the heir-apparent's wife who after a few days' illness contracted during her child-birth succumbed to it on 20th January 1907, in spite of the best medical aid available. This sudden and unexpected event cast a deep gloom in my family and messages of condolence from various places were received here at the time. Some time after this there was the marriage of my heir-apparent with Manhar Kunver daughter of the late Prince Shri Samatsinghji and sister of Kumar Shri Vijaysingji of Palitana. It was celebrated in Bombay on 9th March 1907, with due eclat and amongst the distinguished visitors that attended the marriage may be mentioned His Excellency Lord Lamington, The Honorable Sir Jenkins and Lady Jenkins and the Thakore Saheb of Rajkot.

6. **Journey.**—On account of the illness of my younger Kumar Shri Narsinhdevji I proceeded to Rajkot on 28th July 1906 accompanied by my heir-apparent and as the fever from which he was suffering was of an obstinate kind I was obliged to stay there for some time and I am glad to say that he is all right now. During my stay there, in response to the invitation of the Principal of the Rajkumar College, myself and the heir-apparent attended the annual College Prize Gathering where we were very cordially received by the Principal of the College and introduced to Mr. P. S. V. Fitzgerald, Agent to His Excellency the Governor, Kathiawar. From Rajkot myself and my party proceeded to Gondal where in the the company of the Thakore Saheb of Gondal, among other places of interest, the Bai Saheb Ba Asylum and the Bhagwatsingji Orphanage were visited. From Gondal I went to Virpur and after a short stay there returned to Dharampur.

Besides these visits myself and my Dewan went to Surat in April last to meet Mr. Westropp, Collector and Political Agent, Surat, prior to his going to Bombay to join his new appointment as Collector of Customs. The Political Agent received me very cordially both at the time of my arrival at the Station and also at the interview. In like manner in May last, myself and a select party went to Surat to attend the marriage of the son of Khan Bahadur Burjorji Nassarvanji Vakil who is the legal adviser of the State and after a three days' stay there returned to Dharampur.

I also went round to some of my State villages at different times with a view to see personally the condition of the ryots and ascertain their wants.

On account of Plague in the town of Dharampur which began in March last I have been staying in the village of Nani Vahial which is about 6 miles off the City.

7. Changes in the Administration.—The only change worth mentioning in the personnel of the Administration is the retirement of Mr. Fejalli Gulamalli, Police Superintendent, on account of old age.

CHAPTER II.

Administration of Land.

8. The work of Survey has been completed for the whole of the State except that of the six Barai villages which reverted to the State on 7th September 1905. The Survey work of these villages has already been taken in hand and it will be completed very shortly.

The area of the villages surveyed was 4,37,529 acres and 38 gunthas as reported last year. During the year under report Barai, Ambheti, Sukhala Varna, Andharpada and a portion of Kakadkopar were surveyed and the area so surveyed is 11,293 acres and 7 gunthas. No new land revenue settlements were introduced in the State during the year. The rates of assessment which are fair and reasonable continue to be the same as before. During the year under report a sum of Rs. 696 was remitted against Rs. 804-10-0 in the preceding one.

9. **Waste Lands.**—The total area of the Khalsa villages is 3,60,481 acres and 4 gunthas. Of these 2,57,122 acres and 7 gunthas are culturable, while 1,03,358 acres and 37 gunthas are kharaba. Of the total area land measuring 1,01,034 acres and 1 guntha is under cultivation and the rest being rocky and covered with trees is unfit for cultivation, and remains waste. The Kaliparaj people were offered inducements to take up this waste land by reducing the rates but there was no great demand from them to take up more land for cultivation.

During the year under report land measuring 5,466 acres and 12 gunthas was relinquished against 10,821 acres and 36 gunthas taken up for cultivation. Thus there were more Kabulats than Rajinamas.

10. **Accounts.**—The village and Hazur accounts of the State are kept in accordance with the forms prescribed by Sir T. C. Hope and the *Jamabandi* work is done accordingly.

11. The State is divided into 5 parts, each part being placed under a Thandar. The Thandars supervise the work of the Talatis, inspect boundary marks, compare the Ryots' receipt books and examine registers of births and deaths and cultivation in waste land.

12. **Boundary disputes.**—There were no boundary disputes during the year under report.

13. **Government and Wards' Estates.**—On account of the minority of Kumar Shri Chandradevji, son of my deceased brother Shri Haridevji, his estate is managed by the State. As reported last year he went to England in June 1906 with a view to qualify himself as a Veterinary Surgeon. He is now given an allowance of Rs. 500 per month. A sum of Rs. 2,22,068-12-6 belonging to Bhai Shri Prabhatdevji and Rs. 75,319-4-4 belonging to K. S. Chandradevji have been, as mentioned in the last year's report, taken as a loan by the State at 4 p. c. interest.

The receipts and disbursements of the estate of Kumar Shri Chandradevji are as follows :—

No.	Name.	Age.	Place of Birth.	Place of education.	Balance at the beginning of the year.	Receipts.	Disbursements.	Balance.		Value of moveable property in hand.	Area of land under management
								In cash.	With the State.

CHAPTER III.

Protection.

14. **Legislation.**—The Civil and Criminal work of the State is conducted in accordance with the principles of the British Indian Laws. No changes worth noticing were effected in the legislation of the State during the year under report.

15. **Military Force.**—No regular Military force exists in the State.

16. **Police.**—The Police force is maintained on the system of the British District Police. The number of Police inclusive of officers and 10 mounted Constables was 141 during the year against 120 in the preceding one. It was found necessary to increase the Police force on account of plague in the town of Dharampur. The cost of the force was Rs. 15,029 against Rs. 14,680 last year. The details are as follows :—

Name of State.	Mounted.	Foot.	Total. Strength.	Total cost.	Remarks for number and description of hereditary police.
				Rs.	
Dharampur	10	131	141	15,029	There are nearly 350 *Sirbandis* in the State but they are only called on emergent occasions for duty.

17. Out of the total number 54 are able to read and write and 8 are under instuction.

18. The proportion of Police to population and area is 1.4 per mille and 20.03 per 100 square miles respectively.

19. Besides the regular Police force 30 Arab guards have been engaged to guard the Treasury, *Jamdarkhana* and the *Zenankhana*.

20. The Police force is supplied with batons, guns and swords.

21. There are at present 8 outposts and the men stationed therein take rounds in the surrounding villages. The village Police Patels also co-operate with them in detecting offences and preserving proper order in their respective villages.

22. During the year under report 8 of the Police were departmentally fined for neglect of duty but no one was dismissed or judicially punished, while 28 were promoted for efficiency in the performance of duty.

23. **Village Police**—Besides the regular Police there are nearly 350 *Sirbandis* in the State and they are called in on emergent occasions. They as well as the Police Patels hold land free subject to rendering service whenever required. The Patels are also empowered to take part in "Panchnamas" held in cases of suicide and accidental deaths.

24. The results of the working of the Police are as follows :—

Name of State.	Number of offences.		Number of accused arrested.		Number of accused sent for trial.		Number of accused convicted.		Number of accused acquitted or discharged.		Percentage of convictions (columns 4 & 5.)		Percentage of convicted accused sent for trial.		Remarks.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Dharampur.	93	57	138	70	127	70	109	64	18	6	78·9	91	85·82	91	

25. The amount of property stolen and recovered during the year was as follows :—

State.	Amount Stolen.		Amount recovered.		Percentage of recoveries of property stolen.		REMARKS.
	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	
Dharampur	Rs. 1251-2-1	Rs. 89-3-6	Rs. 1219-11-7	Rs. 60-3-6	97	67	

26. There has been a decrease of 36 crimes over the last year's number. There was 1 serious crime of murder during the year against 2 culpable homicides last year.

27. The percentage of property recovered to that stolen is 67 per cent against 97 last year.

28. The proportion of crimes to population is ·56 per mille against ·92 the preceding year.

29. **Fires.**—No fire worth mentioning broke out in the State during the year.

30. **Accidental deaths.**—There were 49 accidental deaths due to snake bites, falling from trees, drowning, suicide &c. There were no cases of infanticide or highway robbery.

31. **Criminal Justice.**—There are 5 Criminal Courts of Thandars, 1 of Nyayadhish, 1 of Naib Dewan and 1 of Dewan. Besides these there is a Court of Honorary Magistrate of the Jahagirdar of Behej.

32. The work relating to Criminal Justice will be known from the Appendices VII, VIII and IX.

33. The number of crimes during the year under report was 149 against 161 last year. The principal decrease is in the number of Abkari offences.

34. Among serious offences there was one murder case against two culpable homicides in the previous year.

35. The number of Criminal cases during the year under report was 149 against 161 in the previous year. No case remained in arrears at the end of the year. 249 persons were tried against 289 in the preceding year. Of these 75 were convicted against 127 in the previous year, while 174 were either acquitted or discharged. The percentage of convictions was 43·1 against 43·9 in the previous year. Of the 75 persons convicted, 2 were sentenced to imprisonment for life, 13 for terms less than 6 months and 60 were only fined.

The total amount of fines inflicted during the year under report was Rs. 652 against Rs. 1,059-4-0, last year, the amount recovered being Rs. 373 against Rs. 783 the previous year.

No sentence of capital punishment was inflicted during the year under report.

All these cases were disposed of in the Nyayadhish Court except 1 Sessions case which was disposed of in the Dewan's Court.

36. **Appeals**—There were 2 appeals in the Dewan's Court against the decisions of the Nyayadhish Court and 1 in the Hazur Court against the decision of the Sessions Court.

37. **Civil Justice.**—Statements X and XII show the number of suits and appeals filed during the year. The amount involved in the suits was

Rs. 3,438-0-9. There was no suit relating to land. The number of suits to be disposed of including the last year's arrears was 60, of which 51 were disposed of and 9 remained pending at the end of the year.

38. The average duration of suits was 2 months 23 days and the proportion of suits to population is .046 per mille.

39. **Applications for execution of decrees.**—During the year under report there were 27 applications for the execution of decrees. These together with the last year's arrears came to 32 of which 27 were disposed of during the year and 5 remained pending.

40. There was one application for Letters of Administration in the Dewan's Court.

41. **Civil Appeals.**—There was 1 appeal in the Dewan's Court during the year under report.

42. **Extradition.**—During the year under report the number of offenders made over by and to the State is as follows:—

5 Offenders made over to the State through the Collector and Political Agent, Surat.

14 Offenders surrendered for trial by the State through the Collector and Political Agent, Surat.

There was no exchange of offenders with the Bansda State.

During the year under report 7 of the extradited persons were convicted and the remaining 12 awaited their trial by the 2nd Class Magistrate, Chikhli.

43. **Remarks about the State Nyayadhish.**—The State Nyayadhish is Mr. K. N. Marphatia, a B. A., LL. B. of the Bombay University. He is well up in law and does his work satisfactorily.

44. **Prison.**—The State is provided with a jail building which is a pucca one and where two rooms have been set apart for under-trial prisoners. During the year under report including the last year's remnants 64 were confined in the jail against 90 in the previous year (*vide* Appendix XIII).

45. The daily average attendance in the jail was 14·7. Some of the prisoners convicted of offences against the State have been sent to Thana, Hyderabad and other jails. The expenditure on the jail inclusive of the maintenance charges amounted to Rs. 4,477 against Rs. 4,372 last year.

46. The number of prisoners being generally very small, they are mostly employed on roads. Some of them are also engaged in weaving cotton tapes, ropes, &c.

In commemoration of the birth of a Kumar to my heir-apparent 6 prisoners undergoing lighter forms of punishment were liberated.

47. The Dewan, the Naib Dewan and the Nyayadhish have been appointed visitors of the jail. They visit it from time to time to see that everything is in proper order and hear the complaints of the prisoners.

Registration.

48. **Registration.**—The number of documents registered during the year was 29 against 19 last year and the fees realized amounted to Rs. 52-4-0 against Rs. 33-4-0 the previous year.

49. **Cost of Registration.**—There is no separate establishment for the work of registration, it being done in the Dewan's office.

Municipality.

50. **Municipality.**—There is a Municipality in the town of Dharampur only and there seems to be no necessity for it in other parts of the State.

No Municipal taxes are levied from the people, the State defraying the whole of the cost in connection with the Municipality. The town roads are swept and watered and the streets are lighted and due steps are taken to ensure the cleanliness and sanitation of the town. The total expenditure under this head amounted to Rs. 3,045 against Rs. 2,471 the previous year.

CHAPTER IV.

Production and Distribution

51. **Season.**—But for plague which broke out in March last and which unfortunately is still continuing the past season was generally favourable, and public health normal, except from October to January when there were many cases of malarial fever. In addition to plague the prevailing diseases were Malaria, Dyspepsia, Bronchitis, Diarrhœa and skin diseases.

The maximum and minimum thermometer readings were 99° F. H. and 57° F. H. respectively during the year against 100° F. H. and 53° F. H. last year.

52. **Rain-fall.**—The rain-fall during the year was 70 inches and 55 cents, against 53 inches and 44 cents last year, showing an increase of 17 inches and 11 cents.

53. **Crops.**—The yield of crops was 15 annas.

54. **Wages and labour—Prices of food-grains**—The people get sufficient labour in the cutting of forests and building works carried on by the State and private individuals. There seems to be some increase in the rate of wages as also in the prices of food-grains as may be seen from the following statement which gives the prices of food-grains during the present as well as the past year.

Articles.	During March Past year.			During March Present year.			Remarks.
	Rs.	as.	p.	Rs.	as.	p.	
Jowar Per Maund.	1	7	0	1	12	0	
Bajri „	1	11	0	1	10	0	
Rice with husks „	1	4	0	1	8	0	
Nagli „	1	4	0	1	6	0	
Kodra „	0	13	0	1	0	0	
Tuver (a kind of pulse	1	12	0	2	0	0	

55. **Forests.**—The Survey Department is carrying on the work relating to the demarkation of forests. The number of blocks has been converted into 161 against 160 the previous year. At the end of the year 91,246 acres and 3 gunthas remain as reserve against the same area last year.

The total area of protected forests was 59,908 acres and 17 gunthas at the close of the year against 53,290 acres and 14 gunthas in the previous year, showing an increase of 6618 acres and 3 gunthas.

Seeds of teak, kher, harda and Mhowra were sown during the year and they are doing well.

56. During the year under report 29 breaches of forest rules occurred as against 35 in the previous year, and the total fines collected amounted to Rs. 74-2-6 against Rs. 93-10-7 last year.

57. There were 9 fires in the forests during the year against 6 in the preceding one, the damage done being Rs. 14-9-0 against Rs. 5-14-0 last year.

58. Sufficient establishment has been maintained for the proper supervision of the State forests, the Forest Officer being Mr. Ranchhoddas Dharsi, a distinguished Graduate of the Madras Agricultural College. His 15 years' experience of the forest department is very useful to the State.

59. The revenue realized by the sale of timber, bamboos &c. amounted to Rs. 87,933 against Rs. 86,887 showing an increase of Rs. 1,046.

60. **Trade and Manufacture.**—The only trade worth mentioning that is carried on in the State is the exporting of different kinds of grain produce and *assindra* and *timroo* leaves for country *bidis*.

As regards manufacture there are only minor industries, such as the making of bamboo baskets, mats of palm trees and screens of seeds interwoven.

61. **Quarries.**—No quarry works are carried on in the State.

62. **Public Works.**—The total cost under this head aggregated Rs. 11,059 against Rs. 7,992 the previous year. Rs. 7,701 were spent on original works, Rs. 2,237 on repairs and Rs. 1,121 on establishment charges. The principal works executed are as follows:—

Original Works.

A guest house near the Public Gardens ...	Rs.	1,761
Additions &c. to the old Durbari building ...	„	4,283
Uttara at Sildha...	„	1,000
Out-houses near the Leper asylum	„	657
	Rs.	7,701

Repairs.

Repairs to the Market buildings	Rs.	290
Do. to monuments in memory of the deceased relations of the Raja Saheb ...	„	481
Do. Petty repairs	„	1,466
	Rs.	2,237

63. **Irrigation.**—There are no irrigation works in the State.

64. **Post and Telegraph offices.**—There is a Post office and Telegraph office combined. The Post office which was a branch office before has recently been converted into a sub-office for which thanks are due to the Postal authorities.

65. **Mint.**—There is no Mint in the State.

66. **Condition of the people.**—Owing to the return of normal years the Kaliparaj people who are mostly cultivators are showing signs of gradual improvement and in order to induce them to settle in one place, Rs. 215 were advanced to them for sinking wells and timber worth about Rs. 3,048 was given free of cost for constructing semi-pacca buildings.

The Ujaliat cultivators who form a minority are better off on the whole than the Kaliparaj ryots and some of them are petty Savkars doing money lending business also.

The Carpenters, Blacksmiths and other petty artizans earn their livelihood without much difficulty. Some of them also follow cultivation.

The trading classes had a fairly good year owing to high prices prevailing in the surrounding districts.

Most of the Mahomedans are in State service though some of them also carry on cultivation.

There are very few Parsees in the State. They either keep liquor shops or cultivate lands. On the whole their condition is good.

67. **Measures taken to ameliorate the condition of the Kaliparaj ryots.**—As mentioned in the last year's report, with a view to improve the condition of the Kaliparaj ryots and to remove them from their chronic indebtedness, a Bee Khavti Loan Association working under the auspices of the State was started in 1906 by some of the local leading traders. The following table shows the working of the association.

No. of Khatedars taking advantage of the loan.	Amount advanced.	Interest.	Amount recovered.	Balance to be recovered at the end of the year.	Remarks.
299	Rs. 2,651-8-0	Rs. 331-7-0	Rs. 2,908-6-0	Rs. 74-9-0	In almost all cases recoveries were made in the ordinary way without resorting to drastic measures. The amount was advanced in many cases for getting seeds, sinking wells, buying implements of agriculture and bullocks.

The scheme regarding the building of the "Patels-Home" referred to in the last year's report will be soon taken in hand and fully carried out. The proposed building when completed will be of great use to the village patels and *Khatedars* (mostly Kaliparaj people) who have to come to Dharampur from time to time on State duty.

CHAPTER V.

Revenue and Finance.

68. The gross revenue amounted during the year to Rs. 4,15,553 against Rs. 4,70,695 last year which however included the sum of Rs. 52,103-13-10 lent to the State at 4 P. C. interest, being the sale-proceeds of Kumar Shri Chandradevji's ornaments.

The principal items of income are as follows :—

	1905-06.	1906-07.
	Rs.	Rs.
Land Revenue	2,09,421	2,10,350
Abkari	1,03,521	1,04,154
Forests	86,887	87,933
Amount borrowed	52,104	...

Recovery of former dues	... ...	4,745	...
Miscellaneous receipts	... ...	14,017	13,116
	Total Rs.	4,70,695	Rs. 4,15,553

69. There has been an increase of Rs. 929 under the Land Revenue head principally owing to the year being comparatively a favourable one.

70. The following table contains figures showing the amount of land-revenue collected and the amount remitted during the last five years :—

Year.	Amount of land revenue collected.	Amount remitted.	Percentage of remissions to amount collected.	Remarks.
	Rs.	Rs.	Rs.	
1902-03	1,77,434	8,618	4·8	
1903-04	1,81,474	6,068	3·3	
1904-05	1,99,139	823	0·4	
1905-06	2,09,421	804	0·3	
1906-07	2,10,350	696	0·3	

The average of the last two years' land revenue as compared with that of the preceding two years is Rs. 2,09,885-8-0 against Rs. 1,90,306-8-0 showing an increase of Rs. 19,579.

Thus there has been a steady increase in the Land Revenue collections and the percentage of remissions to the amount collected has also been very satisfactory. All this redounds much to the credit of my heir-apparent Kumar Shri Vijayadevji whose earnestness and zeal for work continue unabated and who is ably assisted by his former tutor and companion Mr. V. J. Mody as Joint Revenue Commissioner.

71 **Chowth Jakat.**—The receipts under this head aggregated Rs. 7,387 against Rs. 7,643 last year showing a decrease of Rs. 256.

72. **Abkari and Opium.**—The Opium ijara fetched Rs. 61 against Rs. 65 in the previous year. The discount on opium recovered during the year amounted to Rs. 70. The consumption of opium was 80 seers and $2\frac{3}{8}$ tolas against 77 seers and 10 tolas last year.

73 **Distilleries.**—There are 3 distilleries in the State—Fatehpur, Mandva and Dharampur—where liquor is distilled and issued to the shop-keepers. Messrs Pestonji Rattonji & Co. have been given the Abkari farm for five years from 1903-04, for a yearly minimum sum of Rs. 90,001 on account of duty, establishment charges &c.

During the year the quantity of liquor consumed was 17256½ gallons of 25° U. P. and 3,95,005 gallons of 60° U. P., against 11,580¾ gallons of 25° U.P. and 3,10,738 gallons of 60° U. P., the previous year. This shows that the consumption of liquor has increased during the year under report.

74. The total Abkari revenue from Bhang, Ganja, Opium, Toddy and Liquor amounted during the year to Rs. 1,04,154 against Rs. 1,03,521 in the preceding year showing an increase of Rs. 633.

75. Sufficient establishment has been maintained by the State as also by the farmer to prevent illicit distillation and smuggling.

76. The number of Abkari offences during the year was 34 against 45 in the previous year showing a decrease of 11.

77. **Expenditure.**—The total expenditure this year amounted to Rs. 4,12,449 against Rs. 4,71,533 the previous year. The expenditure would not have been so large but for the following causes:—the long continued illness of my younger Kumar, the birth of a Kumar to my heir-apparent, the illness and death of the heir-apparent's wife, his second marriage and plague. All these involved an expenditure of Rs. 55,450.

78. **Local Funds.**—No local fund cess is levied in this State.

79. **Debts.**—At the end of the last year the amount of debt was Rs. 5,08,732. During the year under report Rs. 1,05,606 were paid in liquidation of the debt, of which Rs. 63,456 were towards the principal and Rs. 42,150 towards the interest as against Rs. 1,18,641 towards the principal and Rs. 44,856 towards the interest paid last year. If, however, from the amount paid last year towards the principal, the sum of Rs. 52,104 advanced to the State at 4 per cent. interest being the amount of sale-proceeds of K. S. Chandradevji's ornaments be deducted, the actual reduction in the total liabilities last year was by Rs. 66,537 as against Rs. 63,456 this year, a difference of Rs. 3,000 nearly. This may be looked upon as a satisfactory state of things considering the fact that there were certain items of expenditure which were unforeseen and unavoidable and which have been already mentioned in paragraph 77 above. Thus at the end of the year the amount of debt is Rs. 4,45,276, of which Rs. 3,14,381 are at 4 per cent. and Rs. 1,30,895 at 9 per cent.

CHAPTER VI.

Vital Statistics.

80 **Dispensary.**—There is one Dispensary in the State and one travelling dispensary which is in charge of a qualified Hospital Assistant who visits the State villages and looks after the health of the villagers.

The following table shows the number of out-door and in-door patients treated during the year together with other particulars as compared with those of the previous year:—

Dispensary.	Number of patients treated				Results of indoor patients in 1906-07.				Daily average of patients.		Expenditure.		Remarks.
	Past year.		Present yeer.										
	Out door.	In door.	Out door.	In door.	Discharged.	Absented.	Died.	Remaining under treatment.	Past year.	Present year.	Past year.	Present year.	
Jubilee Dispensary.	10,857	72	10,516	74	56	11	3	4	204·2	193·6	Rs. 6,537	Rs. 6,848	
Travelling Dispensary.	628	0	894	0	0	0	0	0	11·9	20·8	Rs. 464	Rs. 486	

The in-door patients in the Jubilee Dispensary were mostly Kaliparaj and in the number of out-door patients 1,772 were Kaliparaj people.

In the Travelling Dispensary almost all the patients were Kaliparaj people.

81. During the year under report 37 lepers were treated in the Leper Asylum against 40 last year. Of these 2 left the Asylum, 8 died and 27 remained under treatment at the close of the year. The daily average attendance was 29·7 against 30·1 the preceding year.

The total Expenditure on the Leper Asylum during the year amounted to Rs. 1,193 against Rs. 1,197 in the previous year.

82. The Medical Department of the State is in charge of Dr. Cawasji Temulji Pardiwalla who is an L. M. & S. of the Bombay University. He is a very efficient officer and does his work with great zeal and ability. His patients have much confidence in him.

83. **Births and Deaths.**—The Talatis of the villages keep registers of births and deaths and submit monthly returns. The following table shows the details of births and deaths.

	1905-06	1906-07	Increase.	Decrease.	Remarks.
Births ...	2,111	2,535	424	...	
Deaths ...	1,256	1,929	673	...	

84. **Vaccination.**—Since the beginning of the year 1906 the Vaccination Department has been in charge of Dr. Pardiwalla, the Chief Medical officer of the State. He is assisted by 1 Inspector and 4 trained vaccinators.

Appendix XXV shows the number of children vaccinated and expenditure incurred on account of vaccination during the current year. Looking to the results of vaccination it seems that the vaccination work of the State is being satisfactorily done.

85. **Plague.**—Plague broke out here in the month of March 1907 and soon after there was general evacuation, facilities being given to many people for constructing temporary sheds outside the city. I have shifted to Nani Vahial and my heir-apparent after staying at Bilpuri and Barai for some time proceeded to Bombay when the rains set in. Notwithstanding the proper measures taken to check the disease it is unfortunately still raging here and it is hoped that it will soon disappear. In all there were 49 attacks and 32 deaths from March 25 to June 30, 1907. Of these 13 attacks and 6 deaths were recorded in the month of June.

CHAPTER VII.

Instruction.

86. **Education.**—The number of schools during the year continues to be the same as last year *viz*:–23. Of these 1 is an Anglo-Vernacular school, 1 Girls' School, 1 Urdu school and 1 Mahar school.

The most important change made in the Department is the addition of Standard VII to the Anglo-Vernacular School since November last and thus raising it into a High school. The School staff is being sufficiently strengthened by the employment of qualified teachers and due steps will shortly be taken to have it recognised by the University of Bombay.

The following table shows the number of pupils on the rolls on 31st March 1907 and their average daily attendance as compared with the corresponding figures for the previous year.

Number of pupils on rolls on 31st March 1906.	Number of pupils on rolls on 31st March 1907.	Average daily attendance 1906.	Average daily attendance 1907.	Remarks.
867	788	471·9	454·6	

The monthly average number on the rolls during the year for all the schools together was 842.4 against 778.5 last year.

In the village schools 288 boys and 1 girl presented themselves at the annual Examination of whom 135 were successful showing a percentage of 46.7 against 58.3, the previous year.

The Town Schools were examined by some of the local experienced officers of the State. The number examined was 239 of whom 129 passed, showing a percentage of 53.9 against 52.01 last year.

87. The Anglo-Vernacular School is in charge of Mr. Ghelabhai C. Shah, a B.A., graduate of the Bombay University. He is an experienced teacher and takes keen interest in promoting the welfare of the School.

88. The majority of the boys being poor the State supplies them with books and clothes. In most of the village Schools Kaliparaj teachers are employed and a duly trained village School Inspector of the Kaliparaj caste has been appointed with a view to exercise proper supervision over the schools and induce the parents to send their children to school. The Inspector works under the guidance of the State Nyayadhish Mr. K. N. Marphatia, B.A., LL.B. who is also in charge of the Educational Department as Superintendent.

89. A satisfactory feature in connection with the Town Schools is the increase in the number of girls and also of Mahomedan boys, the number of girls being 83 and that of Mahomedan boys being 65.

The number of boys in the Mahar School is 14 as against the same number last year and it is in charge of a master who is a Mahar by caste.

90. **Physical Education.**—Due attention is paid to Physical education, especially in the Town-School which is provided with gymnastic apparatus and other requisites for cricket and drill.

91. The Expenditure on education during the year was Rs. 7,408 against Rs. 6,855 in the previous year, while the fees recovered amounted to Rs. 214.

92. **School buildings.**—The Town Schools are located in suitable buildings and for village schools steps are being taken to have tiled roofed buildings in place of the old ones having thatched roofs.

CHAPTER VIII.

Miscellaneous.

93. **Printing Press.**—The State has a printing press where forms, adhesive and impressed stamps, rules, circulars and passes issued by the different departments of the State are printed. There is also another press for printing maps prepared by the Survey Department.

94. **Library.**—"The Maharana Shri Mohandevji Library", contains a large stock of useful and interesting books. It is open to members, visitors and senior students of the Town Schools. It subscribes for 7 Newspapers and 7 Magazines, in addition to which the Durbar makes a few presents of these papers &c.

The balance at the end of the last year was Rs. 265-9-9. Including the Durbari grant this year and subscription from the members the total amount came to Rs. 567-3-11, out of which Rs. 458-3-2 were spent on account of establishment charges, books, newspapers &c., leaving a balance of Rs. 109-0-9.

95. **Museum.**—The Museum contains a collection of various local and outside products and rare and interesting objects of antiquity such as old guns, bows, swords &c. The collection was made by my heir-apparent some 4 years ago. The Durbar makes an annual grant of Rs. 500 to this institution.

Various European officers and other gentlemen who have visited it have been pleased with the collection and have expressed their cordial appreciation of it.

96. **Mohandevji Club.**—This is a social club started about a couple of years ago. Its object is to foster good feeling amongst the members and to afford healthy recreation by means of indoor and outdoor exercise. Besides the subscription from the members, the State makes an annual grant of Rs. 250 to it.

97. **Record Room.**—The State Records after being properly sorted, labelled and indexed are kept in this room.

98. **Wild Animals.**—There are many wild animals in the State. No shikar was made this year by any European officer or gentleman.

99. **Fairs.**—The fair at Fatehpur is the only one that is worth mentioning. It is held annually in the month of Chaitra (April) in honour of the deity Bhairavnath. It is mostly attended by the Kaliparaj ryots of the State as also by the people of the adjacent Native States.

100. **Jurisdiction.**—The Magisterial powers conferred on the Jahagirdar of Behej have been continued to him.

101. **King Emperor's Birth-Day.**—The Birth-Day of His Most Gracious Majesty the King Emperor was celebrated in a due and becoming manner. The day was observed as a general holiday and a salute of 31 guns was fired in honour of the occasion.

102. **Remarks about the heir-apparent.**—It is now nearly three years that my heir-apparent has been doing the revenue work of my State almost as a labour of love and the commendatory remarks of Government on my last year's Report to the effect that "the account of the share taken by the heir-apparent in the administration of the State is a gratifying feature of the Dharampur Report" will no doubt be an additional incentive to him to continue the work with greater zeal and earnestness and for these remarks of Government, I am much obliged to them. His former tutor and companion Mr. V. J. Mody still continues to assist him as Joint Revenue Commissioner with whole-heartedness and satisfaction.

103. **Remarks about the Dewan.**—I have derived hearty co-operation and loyal support from my Dewan Mr. S. G. Jayakar, M. A., B. Sc., who by his strict supervision over every department of the State, his high sense of duty, and his conspicuous tact and ability, has enabled me to carry on the administration of the State smoothly and satisfactorily.

104. **Remarks about the personal assistant.**—Mr. K. G. Mody, my personal assistant who has been in the service of the State for more than 22 years, continues to do his work faithfully and zealously. He is one of the trusted and experienced officers of the State.

105. **Thanks to Government and the Political Agent.**—I am much obliged to Government and the Political Agent, Surat, for the valuable help and advice I have received from them from time to time and trust that such help and advice will always be continued to me.

106. **Concluding remarks.**—In conclusion, it may be remarked that looking to the growth of revenue under almost all heads, the past year was one of increased progress and prosperity and following as it does the preceding prosperous year it encourages me to hope that at no distant date it will be possible for me to undertake many works of public utility and importance on which I have long set my heart but which for lack of funds I am unable to commence.

I am,

Your sincere friend,

DHARAMPUR,
2nd September 1907.

MAHARANA SHRI MOHANDEVJI RANA,

Raja Saheb of Dharampur State.

Appendix I.

List of high Officials in the Dharampur State, showing changes in the personnel during the year 1906-07.

No. 51 of 1908.

FROM,

MAHARANA SHRI MOHANDEVJI RANA,

Raja Saheb **OF DHARAMPUR STATE.**

To

A. R. BONUS, Esquire, **I. C. S.,**

COLLECTOR AND POLITICAL AGENT,

SURAT.

Dharampur, 2nd September 1908.

MY FRIEND,

I have the honour to submit the Annual Administration Report of my State for the year ending 30th June 1908.

CHAPTER I.

2. **General and Political**—The area of the State is 704 square miles with a population of 1,00,430 persons of whom 51,467 are males and 48,963 females. Its gross revenue based on the average of the past five years is Rs. 4,16,845.

A sum of Rs. 9,000 is annually paid to the British Government under an agreement dated 6th April 1870, in lieu of Chowth Jakat formerly levied by Government in my territory. No tribute of any kind is paid to any other State.

Name and Title.—My name is Maharana Shri Mohandevji Narandevji Rana and my age is 45. I belong to the Sisodia Rajput caste (Solar dynasty). My two sons are Kumar Shree Vijayadevji and Kumar Shree Narsinhdevji by my only Rani Shree of Virpur in Kathiawar.

3. **Political Relations.**—The relations of the State with the British Government and the adjacent Native States continue cordial and satisfactory.

4. **Visits.**—Lieut. Colonel Arnim, Sanitary Commissioner, Bombay, and Captain Cazaly, Deputy Sanitary Commissioner, Gujarat Registration District, visited the State in April last to inspect the vaccination work of the State. They were accompanied by Mr. K. W. Barlee, Assistant Sessions Judge, Ahmedabad. During their stay here, a shikar party was organized and Captain Cazaly succeeded in bagging a large panther.

5. **Domestic Occurrences of interest in the Raja Saheb's family.**—The only event worth noticing in my family is the death of my late brother Shree Baldevji's younger co-widow Umed Kunver who after a few months' illness died at Chhota Udepur on 4th January 1908.

6. **Journey.**—At the time of the installation of the Thakor Saheb of Rajkote in October last, I accompanied by my brother Shree Prabhatdevji and staff proceeded to Rajkote, where a cordial reception was accorded to me and my party. On my return journey I visited Chabhadia, Virpur, and Lakhtar. Besides these journeys, I visited some of the State villages for the purpose of observing the condition of the ryots and ascertaining their wants.

7. **Changes in the Administration.**—The only change worth mentioning that occurred during the year under report in the personnel of the administration, is the appointment of Khan Bahadur Barjorji Nasarwanji Vakil as Hazur Assistant.

CHAPTER II.

Administration of Land.

8. The survey of the whole State has now been completed including even the work of the six Barai villages which reverted to the State on 7th September 1905.

The area of the villages surveyed comes to 4,49,756 acres and 27 gunthas. The rates of assessment which are fair and reasonable continue to be the same as before. During the year the total land revenue remissions came to Rs. 493 against Rs. 696 the previous year.

9. **Waste Lands.**—The following table shows the changes effected this year in the area of land under cultivation as compared with the figures for the previous year.

Year.	Culturable.				Kharaba.		Total.		Remarks.
	Under Cultivation.		Waste.						
	Acres.	gunthas.	Acres.	Gunthas.	Acres.	Gunthas.	Acres.	Gunthas.	
1906-07.	1,01,034	1	1,56,088	6	1,03,358	37	3,60,481	4	
1907-08.	1,10,966	9	1,55,501	5	1,03,936	26	3,70,404	0	

Inspite of inducements offered to the Kaliparaj people to take up more waste land by reducing the assessment rates there does not seem to be any great demand for it.

During the year under report land measuring 6,003 acres and 39 gunthas was relinquished against 8,051 acres and 6 gunthas taken up for cultivation. Thus there were more Kabulats than Rajinamas.

10. **Accounts.**—The village and Hazur accounts of the State are kept in accordance with the forms prescribed by Sir T. C. Hope and the Jamabandhi work is done accordingly.

11. There are five divisions of the State each of them being in charge of a Thandar, who supervises the work of the Talatis, inspects boundary marks, compares the Ryots' receipts books and examines registers of births and deaths, and cultivation in waste land.

12. **Boundary disputes.**—There is a slight misunderstanding with the Portuguese Government as regards a part of the boundary, but it is hoped that it will be soon cleared up.

13. **Government and Wards' Estates.**—Kumar Shree Chandradevji son of my deceased brother Shree Haridevji is pursuing his studies in England with a view to qualify himself as Veterinary Surgeon. An allowance of Rs. 500 is remitted to him every month.

A sum of Rs. 2,22,068-12-6 belonging to Bhai Shree Prabhatdevji and Rupees 75,319-4-4 belonging to Kumar Shree Chandradevji are taken as a loan by the State at 4 per cent. interest.

The receipts and disbursements of the estate of Kumar Shree Chandradevji are as follows:—

No.	Name.	Age.	Place of birth.	Place of education.	Balance at the beginning of the year.	Receipts.	Disbursements.	Balance.		Value of moveable properties in hand.	Area of land under management.
								In Cash.	With the State.		
1	Kumar Shri Chandradevji.	22	Dharampur.	At present studying in England.	Rs. 141—7—6.	Rs. 11,595—2—0.	Rs. 11,375—7—11	Rs. 271—1—7.	Rs. 75,319—4—4.		3,633 Bighas.

CHAPTER III.

Protection.

14. **Legislation.**—The Civil and Criminal work of the State is conducted in accordance with the principles of the British Indian Laws. No changes worth mentioning were effected in the legislation of the State during this year.

15. **Military Force.**— No military force is kept in the State.

16. **Police.**—The force consisted of 141 men including officers and mounted Constables as in the preceding year. The cost of maintaining the force aggregated Rs. 18,261 against Rs. 15,029.

The details of the force are as under :—

Name of State.	Mounted.	Foot.	Total Strength.	Total cost.	Remarks for Number and description of hereditary Police.
				Rs.	
Dharampur.	10	131	141	18,261.	There are nearly 300 Sirbandis in the State.

17. Out of the total number 55 are able to read and write.

18. The proportion of Police to population and area is 1.4 per mille and 20.03 per 100 Square miles respectively.

19. Besides the regular Police force, 30 Arab-guards have been engaged to guard the Treasury, Jamdar Khana and the Zenan Khana.

20. The Police force is supplied with batons, guns, and swords.

21. There are at present 8 out-posts and the men stationed therein take rounds in the surrounding villages. The village Police Patels also co-operate with them in detecting offences and preserving proper order in their respective villages.

22. During the year under report 22 of the Police were departmentally fined for neglect of duty, 2 dismissed and 4 judicially punished, while 15 were promoted for efficiency in the performance of duty.

23. **Village Police.**—There are about 300 Sirbandis on Service tenure. They are called on emergent occasions for duty. In addition to these there are village Patels who take part in Panchnamas held in cases of suicide and accidental deaths, report the commission of crimes and render assistance to the regular police, besides performing certain revenue duties.

24. The results of the working of the Police are as follows:—

Number of Offences.		Number of accused arrested.		Number of accused sent for trial.		Number of accused convicted.		Number of accused acquitted or discharged		Percentage of convictions (columns 3 and 4.)		Percentage of convicted accused sent for trial.	
Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.
57	30	70	46	70	46	64	39	6	7	91	84	91	84

The number of cognizable offences reported to the Police was 30 against 57 last year.

25. The amount of property stolen and recovered during the year was as follows :—

Amount Stolen.		Amount Recovered.		Percentage of recoveries of property stolen.	
Past year.	Present year.	Past year.	Present year.	Past year.	Present year.
89-3-6	261-13-0	60-3-6	141-9-0	67.	54.

26. The proportion of crimes to population is .29 per mille against .56 the preceding year.

27. **Fires.**—There was only one fire worth noting that broke out in February 1908, in the town of Dharampur. It was, however, soon brought under control. The loss occasioned by it is estimated at Rs. 400.

28. **Accidental deaths.**—There were 49 accidental deaths due to snake-bites, falling from trees, etc. There were no cases of infanticide or high-way robbery.

29. **Criminal Justice.**—There are 5 Criminal Courts of Thandars, 1 of Nyayadhish, 1 of Naib-Dewan, and 1 of Dewan. Besides these, there is the Court of Honorary Magistrate of the Jehagirdar of Behej.

30. Appendices VII, VIII and IX, show the work done by the Criminal Courts.

The following table gives some of the details of the criminal work :—

Year.	No. of Crimes.	Number of persons tried.	No. of persons convicted.	No. of persons acquitted or discharged.	Percentage of convictions.	Remarks.
Past year.	149	249	75	174	43.1	
Present year.	145	268	47	221	17.5	

Of the persons convicted 3 were sentenced to imprisonment for more than 12 months, 13 for less than 12 months, and the remaining 31 were only fined.

The total amount of fines inflicted during the year under report was Rs. 310 against Rs. 652-0-0 last year, the amount recovered being Rs. 310 against Rs. 373 the previous year.

31. There was a decrease of crimes during the year under report, the principal decrease being in the Abkari offences.

32. There was no serious offence against human life.

33. No sentence of capital punishment was inflicted during the year.

34. All these cases were disposed of in the Nyayadhish Court. There was no Sessions case this year.

35. **Appeals.**—There were 4 appeals in the Dewan's Court against the decision of the Nyayadhish.

36. **Civil Justice.**—Statements X and XII show the number of suits and appeals filed and disposed of during the current as well as the last year. The amount involved in the suits was Rs. 7,484-2-1. There was no suit relating to land. Including the last year's arrears the number of cases for disposal was 80, of which 75 were disposed of and 5 remained pending at the close of the year.

37. The average duration of suits was 2 months and 15 days and the proportion of suits to population is .79 per mille.

38. **Applications for execution of Decrees.**—During the year under report there were 30 applications for execution of decrees. These together with the last year's arrears came to 35. Of these 29 were disposed of during the year and 6 remained pending at the close of the year.

39. There were two applications in the Dewan's Court for obtaining certificates to collect debts and one Civil appeal against the decision of the lower Court.

40. **Extradition.**—During the year under report the number of offenders made over by and to the State is as follows:—

7 Offenders surrendered for trial by the State through the Collector and Political Agent, Surat. Of these 6 were acquitted and 1 was convicted.

2 Offenders made over to the State through the Collector and Political Agent, Surat. Both of them were convicted.

There was no exchange of offenders with the Bansda State.

41. The offenders who awaited their trial before the 2nd Class Magistrate, Chikhli, at the end of the last year were acquitted.

42. **Prison.**—There is only one Jail which is a pucca one. It is well lighted and ventilated. Two rooms are set apart for under-trial prisoners. The

health of the prisoners was good and their conduct satisfactory. During the year under report including the last year's remnants 33 prisoners were confined in the Jail against 64 in the previous year (Vide Appendix XIII.) One prisoner sentenced to life-imprisonment in 1906 died of natural causes in the jail during this year.

43. The average daily attendance in the Jail was 10.6. Some of the prisoners convicted of offences against the State have been transferred to Thana, Hyderabad, and other British Jails. The total expenditure incurred by the State under this head was Rs. 4,005 against 4,477 the previous year.

44. The number of prisoners being very small they are usually employed on roads but some of them are also engaged occasionally in weaving ropes &c.

45. The Dewan, the Naib Dewan and the Nyayadish have been appointed visitors of the Jail. They visit it from time to time to see that every thing is in proper order and hear the complaints of the prisoners.

Registration.

46. **Registration.**—23 documents of the aggregate value of Rs. 10,456-6-0 were registered against 29 documents of the total value of Rs. 13,375-0-0 in the previous year. The income from registration was Rs. 40-8-0 against Rs. 52-4-0 the previous year.

47. **Cost of Registration.**—No separate establishment is maintained for the work of registration, the work being done in the Dewan's Office.

Municipality.

48. **Municipality.**—There is a Municipality in the town of Dharampur only and there is hardly any necessity for it elsewhere in the State, as the villagers live in huts on their own Khata land and apart from each other. The town roads are daily swept and occasionally watered, the streets are lighted and the sanitation of the town is properly attended to. The whole of the expenditure under this head which is borne by the State, came to Rs. 3,382 against Rs. 3,045 the previous year.

CHAPTER IV.

Production and Distribution.

49. **Season.**—The past season which would otherwise have been favourable was greatly marred by the persistent continuance of Plague for a long time. Malaria, Dyspepsia, Bronchitis, Diarrhoea, and skin diseases have had also their turn.

The thermometer readings were as follows :—

	Maximum.	Minimum.
Last year....	99° F. H.	57° F. H.
Present year	102° F. H.	62° F. H.

50. **Rainfall.**—The rainfall during the year was 93 inches and 53 cents, against 70 inches and 55 cents last year showing an increase of 22 inches and 98 cents. This quantity though sufficient was not well distributed especially in the latter part of the season when there was complete cessation of the rains and thereby the out-turn was far from satisfactory.

51. **Crops.**—The yield of crops was 11 annas against 15 annas last year.

52. **Wages and Labour.**—Prices of food grains.—People get sufficient labour in the cutting of the forests and the building works conducted by the Darbar and private individuals in addition to the field work in the season. The rate of wages varied from two to three annas per day.

53. Owing to partial failure of crops caused by the absence of rain in the latter part of the season, there was an abnormal rise in the price of food stuffs, as may be seen from the following table:—

Articles.	During March Past year.			During March Present year.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	
Jowar per Maund	1	12	0	2	0	0	
Bajri per Maund...	1	10	0	2	1	0	
Rice with husks per Maund ...	1	8	0	1	8	0	
Nagli per Maund	1	6	0	1	10	0	
Kodra per Maund	1	0	0	1	6	0	
Tuver (a kind of pulse) per Maund	2	0	0	2	4	0	

54. **Forests.**—The work of demarcation is done by the Survey Department. The area of the reserved forests is now 91,451 acres and 8 gunthas against 91,246 acres and 3 gunthas of the last year. The number of blocks which was 161 last year has been changed into 162 this year.

The area of the protected forests at the close of the year was 60,442 acres and 22 gunthas against 59,908 acres and 17 gunthas last year.

During the year under report a large quantity of seeds of Teak, Kher, Mhowra etc. was sown.

55. Breaches of Forest rules reported during the year were 42 as against 29 in the previous year, and fines inflicted in these cases amounted to Rs. 174-4-3 against Rs. 74-2-6 last year.

56. There was only one fire in the forests as against 9 in the preceding year, the damage done being Rs. 0-8-0 against Rs. 14-9-0 last year.

57. The Forest Department is in charge of an experienced Forest Officer under whom there is a sufficient staff for the proper supervision of the State Forests.

58. The revenues realized by the sale of timber, bamboos, aggregated Rs. 1,04,225 against Rs. 87,933 showing an increase of Rs. 16,292 which is due to the healthy competition among the merchants.

59. **Trade and Manufacture.**—There is very little scope for carrying on trade in this State, but petty merchants seem to be coming forward to do something in that line. At present large business is being done by way of exporting different kinds of food stuffs, leaves for country bidis, and Mahura fruit.

As regards manufacture the only minor industries worth mentioning are the making of the bamboo baskets, mats of palm trees etc.

60. **Quarries.**—No Quarry work is carried on in the State.

61. **Public Works.**—The total expenditure on the Public Works was Rs. 10,135 against Rs. 11,059 the previous year.

Rs. 4,210 were spent on original works, Rs. 4,615 on repairs and Rs. 1,310 on establishment charges.

The principal original works were as follows:—

(1) Mohandevji Vegetable Market.

(2) Water reservoir in the Darbar compound.

62. **Irrigation.**—There are no irrigation works in the State.

63. **Post and Telegraph Offices.**—There is one combined post and telegraph office in the town of Dharampur.

64. **Bulsar Dharampur Railway.**—Negotiations are going on with Messrs. Killick, Nixon and Co., for the construction of a light feeder railway between Bulsar and Dharampur. If this project be carried out, it will be the means of tapping the forest and mineral resources of the State, and the State will be greatly benefited by it.

65. **Mint.**—There is no mint in the State.

66. **Condition of the people.**—The bulk of the population consists of Kaliparaj people who mostly depend on land for their subsistence. The early cessation of rain would have affected the people much but owing to the abnormal rise in the price of food stuffs as mentioned above they got a very fair return for their produce.

Being of migratory habits it is difficult to induce the Kaliparaj people to locate in one place. However, the State is doing its best to induce them to settle in one place by advancing petty loans to sink wells and provide themselves with implements of husbandry and by offering timber for semi-pucca buildings. Looking to the general condition there is no doubt that they are showing signs of gradual improvement.

The Ujaliat classes of people form a minority and they are better off than the Kaliparaj people. In addition to cultivation they do money lending business also.

There is sufficient work for skilled labour, such as carpenters, smiths, and petty artizans whose condition is fairly good and who are in great demand here.

The trading classes had a very good time of it last year owing to the abnormal rise all round in the prices of food stuffs.

Most of the Mahomedans are in the service of the State. A few of them carry on cultivation also. On the whole their condition is not bad.

There are very few Parsis in the State. They are in thriving condition. Some of them are large cultivators and others keep liquor shops.

67. **Bee-Khavti Loan Association.**—This institution was started in 1906 by some of the local leading traders working under the auspicies of the State, its object being to ameliorate the condition of the Kaliparaj cultivators and to remove them from their chronic indebtedness by advancing loans to them at a very low rate of interest for purely agricultural purposes.

The following table shows the working of the Association :—

No. of khatedars taking advantage of the loan.	Advanced amount.	Interest.	Recovered amount.	Balance to be recovered at the end of the year.	Remarks.
	Rs.	Rs.	Rs.	Rs.	
443	4,708	588-8-0	5,028-2-0	268-6-0	

CHAPTER V.

Revenue and Finance.

68 The gross total revenue was Rs. 4,34,678 as compared with Rs. 4,15,553 the preceding year showing an increase of Rs. 19,125.

The Principal items of revenue are as under:—

	1906-07. Rs.	1907-08 Rs.
Land Revenue	2,10,350	2,13,426
Abkari	1,04,154	1,04,165
Forests	87,933	1,04,225
Miscellaneous receipts	13,116	12,862
Total Rs.	4,15,553	Rs. 4,34,678.

There has been an increase of Rs. 3,076 under the "Land Revenue" head and also Rs. 16,292 under the head "Forests."

69. The following table contains figures showing the amount of Land Revenue collected and the amount remitted during the last five years:—

Year.	Amount of land-revenue collected.	Amount remitted.	Percentage of remissios to amount collected.	Remarks.
	Rs.	Rs.	Rs.	
1903—04	1,81,474	6,068	3.3	
1904—05	1,99,139	823	0.4	
1905—06	2,09,421	804	0.3	
1906—07	2,10,350	696	0.3	
1907—08	2,13,426	493	0.2	

The average of the last two years' Land Revenue as compared with that of the preceding two years is 2,11,888 against 2,04,280 showing an increase of Rs. 7,608.

70. **Chowth Jakat.**—The receipts under this head are Rs. 6,626 as against Rs. 7,387 last year.

71. **Abkari and Opium.**—The opium Ijárà fetched Rs. 94 against Rs. 61 last year. The consumption of opium was 85 seers and $5\frac{1}{2}$ tolas against 80 seers and $2\frac{3}{8}$ tolas the preceding year.

72. **Distilleries.**—There are three distilleries in the State *viz.*, at Mandva, Fatehpur, and Dharampur, where liquor is distilled and issued to the shop-keepers. The Abkari farm has been given to Messrs. Pestonji Rattonji and Co., for 5 years ending in June 1908, for a yearly minimum sum of Rs. 90,001, on account of still head duty, establishment charges etc.

The following figures show the consumption of liquor during the year as compared with that of the previous year.

	1906-07	1907-08.
25° U. P.	17,256½ gallons.	13,136½
60° U. P.	3,95,005 Do	3,58,795

73. The total Abkari revenue during the year from Bhang, Ganja, Opium, Toddy and Liquor amounted to Rs. 1,04,165 against Rs. 1,04,154 showing an increase of Rs. 11.

74. Sufficient establishment has been engaged by the State as also by the farmer to prevent illicit distillation and smuggling.

75. The number of Abkari offences during the year was 6 against 34 the previous year showing a decrease of 28.

76. **Expenditure.**—The total expenditure during the year amounted to Rs. 4,37,396 against Rs. 4,12,449 the previous year. The expenditure would not have been so much but for the following causes:—

(1) The prevalence of plague for the greater part of the year which necessitated the adoption of various measures to combat it. All this involved an outlay of Rs. 25,841.

(2) Abnormal rise in the price of food stuffs and fodder, the latter alone costing Rs. 6,890 to the State.

77. **Local Funds.**—No local fund cess is levied in this State.

78. **Debts**—Last year the amount of debt was Rs. 4,45,276. During the year under report Rs. 70,559 were paid in liquidation of the debt of which Rs. 43,378 were towards the principal and Rs. 27,181 towards the interest as against Rs. 63,456 and Rs. 42,150 respectively last year. Thus at the end of the year the amount of debt is Rs. 4,01,898 of which nearly three-fourths are at 4 p. c. and the rest at 9 p. c.

CHAPTER VI.

Vital Statistics.

79. **Dispensary.**—There is 1 Dispensary in the State and 1 Travelling Dispensary which is in charge of a qualified Hospital Assistant who goes round the villages of the State and attends to the health of the villagers.

The following table shows the Number of Patients treated during the year and other particulars as compared with those of the previous year:—

Dispensary.	No. of patients treated.				Results of In-door patients in 1907—1908.				Daily average of Patients.		Expenditure.		Remarks.
	Past year.		Present year.										
	Out-door.	In-door.	Out-door.	In-door.	Discharged.	Absented.	Died.	Remaining under treatment.	1906—1907.	1907—1908.	1906—1907.	1907—1908.	
Jubilee Charitable Dispensary	10,516	74	8,489	64	48	8	7	1	193·6	135·6	Rs. 6,848	„ 7,046	
Travelling Dispensary	894		956						20·8	30·2	Rs. 486	Rs. 480	

Most of the in-door patients treated in the Jubilee Dispensary belonged to the Kaliparaj caste. Among the out-door patients the Ujaliats numbered 7,021.

In the travelling Dispensary almost all the patients treated were Kaliparaj people.

80. During the year under report 39 lepers took advantage of the Leper-asylum. Of these 1 left the Asylum, 5 died and 33 remained under treatment at the end of the year. The daily average attendance in the Asylum was 28.8 against 29.7 in the preceding year.

The total expenditure on the Leper Asylum amounted to Rs. 1,132 against Rs. 1,193 in the previous year.

81. The Medical Department is in charge of a Medical graduate of the Bombay University.

82 **Births and Deaths.**—The Talatis of the villages keep registers of births and deaths and submit monthly returns. The following table shows the number of births and deaths:—

	1906—07	1907—08	Increase.	Decrease.	Remarks.
Births ...	2,535	3,093	558	...	
Deaths ...	1,929	2,027	98	...	

83. **Vaccination.**—Since the beginning of the year 1906, the work of the Vaccination Department of the State, has been entrusted to the Chief Medical Officer of the State, under whom there is one Inspector and 4 trained Vaccinators.

Appendix XXV shows the number of children vaccinated and the amount of expenditure.

The Sanitary Commissioner, Bombay, and the Deputy Sanitary Commissioner, Gujarat Registration District, during their inspection tour in April last noticed the vaccination work of the State and found it satisfactory, as may be seen from the following remarks made in the Dispensary Visitors' Book.

"Some 50 recent vaccinations were also inspected. The fortnight old work seen was excellent."

84. **Plague.**—Plague made its first appearance in March 1907 with a few stray cases at intervals. It assumed an epidemic form in the month of July and in spite of proper preventive measures it continued its ravages till November, *i. e.* for nearly 8 months,—a most unusual thing in the history of plague at Dharampur. Among the various measures adopted mention may chiefly be made of inoculation. It was done by Mr. C. R. Avari, whose services were kindly placed at the disposal of the State for a week or so by the Director of the Bacteriological Laboratory at the request of the Dewan. At first there was a great deal of opposition from the people, partly on account of prejudice and partly on account of ignorance. But the lead was taken by the Dewan and other principal officers of the State, and about 70 persons got themselves inoculated, and it is gratifying to find that none of them suffered from plague.

The plague figures are as follows:—

	Attacks.	Deaths.
25th March to 31st May 1907	36	26.
1st June to 7th November 1907	164	87.

The total expenditure on account of plague was Rs. 25,841.

CHAPTER VII.

Instruction.

85. **Education:**—The number of Schools continues to be the same as last year, *viz*, 23, the only change being the closing of the school at Tiskery and the opening of a new school at Ambheti.

The most noticeable event in the State Educational Department is the abolition of fees in the town primary schools in commemoration of the Birth-

day of the Raja Saheb. In memory of the late Gohel Vahu (1st wife of the heir-apparent K. S. Vijayadevji) a sum of Rs. 1,000 has been set apart for awarding scholarships to the girls' school.

The following table contains particulars regarding the number of pupils on the rolls on the 31st March 1908, their average attendance etc., as compared with the corresponding figures for the previous year :—

No. of pupils on rolls on 31st March 1907.	No. of pupils on rolls on 31st March 1908.	Average Daily attendance 1907.	Average Daily attendance 1908.	Remarks.
788	927	454·6	466·5	

The monthly average attendance during the year for all schools together was 442.9.

The results of the annual examination are as follows :—

	No. Examined.	No. Passed.	Percentage.
Village Schools	327	164	49.9
Town Boys' Schools ...	135	36	26.6

As much progress could not be made on account of plague in the town, some of the town Boys' schools and the Girls' school were merely inspected.

Taking into consideration the fact that the Schools were closed for the greater part of the year on account of plague the above results may be considered to be satisfactory.

86. The majority of the boys especially in the village schools being poor the State supplies them with books and clothes and due steps are being taken to induce Kaliparaj parents to send their children to school. With that object in view most of the teachers engaged in the village schools are Kaliparaj people and there is also a trained village Inspector of the same caste. The Educational Department is in charge of the State Nyayadish as Superintendent.

87. The Mahar School was for a long time in charge of a teacher who was a Mahar by caste. He died recently and since then it has been found very difficult to get a suitable hand to take his place. The number of pupils attending the school has dwindled down to 10.

88. The High School is in charge of a B. A., graduate of the Bombay University.

89. **Physical Education.**—In the town school for boys physical education is properly attended to. There is a Cricket Club and a Gymnasium attached to the school and drill exercises are also gone through regularly.

90. The expenditure on education was Rs. 8,344 against Rs. 7,408 last year, the fees realized being Rs. 313.

91. **School Buildings.**—The town schools are located in suitable buildings which are well lighted and properly ventilated. As regards village schools due steps are being taken to have tiled roof buildings in place of the old ones with thatched roofs.

CHAPTER VIII.

Miscellaneous.

92. **Printing Press.**—The State has a printing press where forms stamps, and rules and orders issued by the State are printed. There is also another press for printing maps prepared by the Survey Department.

93. **Library.**—The Maharana Shree Narandevji Library contains a large collection of good and useful books. It subscribes for fourteen Newspapers and Magazines. The Darbar also makes a few presents of these papers and Magazines.

The balance at the end of the last year was Rs. 109-0-9. In addition to the Darbari grant of Rs. 200, the subscription from the members and other receipts came to Rs. 76-2-8. Thus the total amount at the end of the year was 385-3-5 out of which Rs. 347-8-0 were spent on Establishment charges, books &c., leaving a balance of Rs. 37-11-5.

94. **Museum.**—It contains a collection of various local and foreign products and rare and interesting objects of antiquity such as old guns, swords, bows, &c. The collection was made by the heir-apparent K. S. Vijayadevji some five years back. The Darbar makes an annual grant of Rs. 500 to this institution.

95. **Mohandevji Club.**—This is a social club started some three years ago for the purpose of affording healthy recreation to members by means of out-door exercise. A yearly grant of Rs. 250 is made to it by the State.

96. **Record Room.**—The State records after being properly sorted, indexed and labelled are preserved in this room.

97. **Wild Animals.**—There are many wild animals in the State jungles. In April last Capt. Cazaly, Deputy Sanitary Commissioner, G. R. District, during his vaccination inspection tour here succeeded in bagging a large panther.

98. **Fairs.**—The only fair worth noticing is the one held at Fatehpur in honour of the deity Bhairavnath in the month of Chaitra (April). It is mostly attended by Kaliparaj people.

99. **Jurisdiction.**—The Magisterial powers conferred on the Jehagirdar of Behej have been still continued to him.

100. **King Emperor's Birth-day.**—The birth-day of His Most Gracious Majesty the King Emperor was duly celebrated and a salute of 31 guns was fired in honour of the occasion.

101. **Concluding remarks.**—In conclusion, I have to tender my cordial thanks to Government and the Political Agent, Surat, for the valuable help and advice I have received from them from time to time and I trust that such help and advice will always be accorded to me.

I have also to express my hearty appreciation of the good work done by my Dewan Mr. S. G. Jayakar, M. A., B. Sc., whose services have been kindly lent to me by Government. His high sense of duty and loyal co-operation have been the means of raising the tone of administration and of enabling me to carry on the affairs of my State smoothly and satisfactorily.

I am,
Your sincere friend,

DHARAMPUR,
2nd September 1908.

MAHARANA SHRI MOHANDEVJI RANA,
Raja Saheb of Dharampur State.

APPENDICES.

Appendix I.

List of high Officials in the Dharampur State, showing changes in the personnel during the year 1907-08.

Name of Officer.	Appointment.	Period.		Remarks.
		From	To	
Mr. Sunderrao Gajanan Jayakar, M. A., B. Sc.	Dewan.	12th October 1904.	Still in service.	Services lent to the State by Government.
Kumar Shri Vijayadevji.	Revenue Commissioner.	17th October 1904.	,,

No. 48 of 1909.

FROM,

MAHARANA SHRI MOHANDEVJI RANA,
Raja Saheb OF DHARAMPUR STATE.

TO,

P. J. MEAD, Esquire, I. C. S.,
COLLECTOR AND POLITICAL AGENT,
SURAT.

DHARAMPUR, 3rd SEPTEMBER 1909.

MY FRIEND,

I have the honour to submit the Annual Administration Report of my State for the year ending 30th June 1909.

CHAPTER I.

2. **General and Political.**—The area of the State is 704 square miles with a population of 1,00,430 persons, of whom 51,467 are males, and 48,963 females. Its gross revenue based on the average of the past five years is Rs. 4,39,298.

A sum of Rs. 9,000 is annually paid to the British Government under an agreement, dated 6th April 1870, in lieu of Chowth Jakat formerly levied by them in this State. No tribute of any kind is paid to any State.

Name and Title.—My name is Maharana Shri Mohandevji Narandevji Rana and my age is 46. I belong to the Sisodia Rajput caste (Solar dynasty). My two sons are Kumar Shree Vijayadevji and Kumar Shree Narsinhdevji by my only Raniji of Virpur in Kathiawar.

3. **Political Relations.**—The relations of the state with the British Government and the adjacent Native states continue cordial and satisfactory.

4. **Visits.**—Lieut.—Colonel C. H. L. Meyer. M. D., I. M. S., of the J. J. Hospital, Bombay, paid a professional visit here in March last to see me and the Raniji. He stayed here for the day and returned in the evening. No other European gentleman visited this State during the year under report.

5. **Domestic Occurrences of interest in the Raja Saheb's family.**– The only event worth noticing in my family is the birth of a female child to the heir-apparent's second wife in February 1909.

6. **Journey.**—During the year under report, I visited some of the State villages with a view to observe the condition of the ryots and to ascertain their wants. I also went to Udwada to pay a visit to A. R. Bonus Esquire I. C. S., Collector and Political Agent, Surat, who had his camp there. I also paid a visit in the month of June to P. J. Mead Esquire I. C. S., Collector and Political Agent, Surat.

7. **Changes in the administration.**— The following are some of the important appointments that were made in the State during the year under report:—

Mr. Khandubhai Makanji, appointed Revenue Officer, and

Mr. H. S. Damri, appointed Abkari Officer.

The post of Police Superintendent that had remained vacant for some time past was filled up by Mr. Champaklal R. Munshi. Mr. B. M. Butty B.A. LL.B. was confirmed during the year as State Nyayadhish.

CHAPTER II.

Administration of Land.

8. **General.**—As mentioned in the last year's report the whole of the State has been surveyed and the area of the villages surveyed comes to 4,49,756 acres and 27 gunthas. No change has been effected in the assessment rates which are fair and reasonable. The total land revenue remissions came to Rs. 428 against Rs. 493 the previous year.

9. **Waste Lands**—The following table shows the area of land under cultivation during the year under report as compared with that for the previous year:–

Year.	Culturable.				Kharaba.		Total.		Remarks.
	Under Cultivation.		Waste.						
	Acres.	Gunthas.	Acres.	Gunthas.	Acres.	Gunthas.	Acres.	Gunthas.	
1907-08	1,10,966	9	1,55,501	5	1,03,936	26	3,70,404	0	
1908-09	1,19,624	20	1,53,477	28	1,01,301	33	3,74,404	1	

Steps are being taken to reduce the area of waste land, and bring it under the plough, but it will take some time before the Kaliparaj people are induced to take up any appreciably large area of waste land for cultivation. Looking, however, to

the fact that, there have been during the year more Kabulats than Rajinamas, (5,158 acres and 24 gunthas being relinquished against 8,572 acres and 16 gunthas taken up) the result may be said to be satisfactory.

10. **Land Revenue accounts.**—The village and the head office accounts of the Revenue Department of the State are kept in accordance with the forms prescribed by Sir T. C. Hope, and the Jamabandhi work is done accordingly.

11. **Executive Divisions.**—There are five divisions of the State known as Mahals each of them being in charge of a Thandar who supervises the work of the Talatis, inspects boundary marks, compares the Ryots' receipt books, and examines registers of births and deaths &c.

12. **Boundary disputes.**—As mentioned last year there is a petty dispute with the Portuguese Government regarding a strip of land on the Portuguese frontier but it is hoped that the question will soon be satisfactorily settled.

13. **Government and Wards' Estates.**— K. S. Chandradevji son of my deceased brother is studying in England in order to qualify himself as Veterinary Surgeon. He is paid an allowance of Rs. 500 per month.

A sum of Rs.2,22,068-12-6 belonging to Bhai Shree Prabhatdevji and Rs. 75,319-4-4 belonging to K. S. Chandradevji have been invested in the State Funds at 4 per cent interest.

The receipts and disbursements of the estate of Kumar Shree Chandradevji are as follows:—

No.	Name.	Age.	Place of birth.	Place of education.	Balance at the beginning of the year.	Receipts	Disbursements	Balance.		Value of moveable properties in hand.	Area of land under management.
								In cash.	With the State.		
1	Kumar Shri Chandradevji.	23	Dharampur.	At present studying in England.	Rs. 271-1-7.	Rs. 7,279—2—9.	Rs. 7,416—10—2	Rs. 132—10—2	Rs. 75,319—4—4	...	3,633 Bighas.

CHAPTER III.

Protection.

14. **Legislation.**—The Civil and Criminal work of the State is conducted in accordance with the principles of the British Indian Laws, and the Acts that

were specially notified during the year as applicable here are shown in statement II.

15. **Military Force.**—There is no military force in the State.

16. **Police.**—The total force including Officers and 10 mounted constables consisted of 131 as against 141 the previous year. The total cost of the force amounted to Rs. 20,084 against Rs. 18,261 the previous year. In addition to these, there are nearly 300 Shirbandhis in the State, who co-operate with the regular Police on occasions of emergency.

Out of the entire Police force 51 are able to read and write.

The proportion of Police to population and area is 1·3 per mille, and 18·6 per 100 square miles respectively. Besides the regular Police force (90) Hazur Palace guards and (30) Arab guards have been engaged to guard the Darbar Palace, the Treasury, Jamdar khana and Zenan khana. The Police Force is supplied with batons, guns and swords.

There are at present 8 out posts, and the men stationed therein take rounds in the surrounding villages. The village Police Patels also co-operate with them in detecting offences and preserving proper order in their respective villages. During the year under report 20 of the police were departmentally fined for neglect of duty, 6 dismissed and 3 judicially punished.

17. **Village Police.**—As already mentioned above, the 300 Shirbandhis who are on service tenure are called on certain occasions for duty. In addition to these there are Village Patels, who assist the regular police in various ways.

18. **Working of the Police.**—The results of the working of the police are shown in the following table:—

Number of offences.		Number of accused arrested.		Number of accused sent for trial.		Number of accused convicted.		Number of accused acquitted or discharged.		Percentage of convictions		Percentage of convicted accused sent for trial.	
Past year.	Present year	Past year.	Present year.	Past year.	Present year.	Past year.	Present year.	Past year.	Present year	Past year.	Present year.	Past year.	Present year
30	71	46	95	46	95	39	83	7	12	84	87	84	87

19. The number of cognizable offences reported to the Police was 71 against 30 last year.

The proportion of crimes to population is ·706 per mille against ·29 the

previous year.

20. **Stolen property.**—The amount of property stolen and recovered during the year was as follows:—

Amount stolen.		Amount recovered.		Percentage of recoveries of property stolen.	
Past year.	Present year.	Past year.	Present year.	Past year.	Present year.
Rs. A. P. 261-13-0	Rs. A.P. 800--9-7	Rs. A.P. 141-9-0	Rs A. P. 558-12-1	54	69

21. **Fire.**—No fire worth noticing broke out during the year under report.

22. **Accidental Deaths.**—The number of accidental deaths due to snake bites and other causes was 55 against 49 last year.

23. **Criminal Justice.**—There are five Criminal Courts. viz:—
1 of Hazur, 1 of Dewan, 1 of Nyayadhish, 1 of Revenue Officer and 1 of Honorary Magistrate of Behej.

There were no cases of infanticide or high way robbery during the year under report.

Appendices VII, VIII, and IX show the work done by the Criminal Courts The following table gives some of the details of the Criminal work:—

Year.	No of Crimes.	Number of persons tried.	No. of persons convicted	No. of persons acquitted or discharged.	Percentage. of convictions.	Remarks.
Past year.	145	268	47	221	17.5	
Present year.	177	313	87	226	27·7	

Of the persons convicted 3 were sentenced to imprisonment for more than one year, 33 for less than that period, and 49 were only fined. The sentence of whipping was passed in one case, and security was taken from one juvenile offender. The total amount of fines inflicted during the year was Rs. 690 against Rs 310

last year, the amount recovered being Rs 690 against Rs. 316 the previous year.

There was one case of culpable homicide which was disposed of in the Sessions Court.

No sentence of capital punishment was inflicted during the year under report.

24. **Appeals.**—There were no Criminal appeals during the year under report.

25. **Civil Justice.**—Statements X and XII show the number of suits and appeals filed and disposed of during the year under report as well as the previous year, the amount involved in the suits being Rs. 5117-0-4 against Rs. 7,484-2-1 last year. There was no suit relating to real property, the total number of cases inclusive of last year's arrears for disposal being 70 of which 64 were decided during the year and 6 remained pending at the close of the year.

26. **Application for the execution of decrees.**—34 applications were preferred during the year under report for execution of decrees, while 6 were pending at the end of the previous year. Of these only 7 await disposal.

27. **Appeals.**—There were 8 appeals in the Dewan's Court and one in the Hazur Court.

28. **Extradition.**—4 offenders were surrendered for trial by the State through the Collector and Political Agent, Surat. All the 4 offenders were convicted, 8 offenders were handed over to the State authorities through the Political Agent, Surat. All of them were convicted. There was no exchange of offenders with the Bansda State.

29. **Prison.**—There is only one pucca Jail building wherein two rooms are set apart for under-trial prisoners. At the commencement of the year there were 15 prisoners in the Jail. To these 47 were added during the year under report. Thus the total number of inmates at the end of the year was 62 against 33 last year. (vide Appendix XIII).

The average daily attendance in the Jail was 9·8. The expenditure on the Jail inclusive of the cost of maintaining some of the State prisoners in the British Jails amounted to Rs. 3,031 against Rs. 4,005 the previous year.

Most of the prisoners are employed on road repairs. Occasionally, however, they are given the work of sawing timber, weaving ropes etc.

The Dewan, Naib Dewan and the Nyayadhish visit the Jail at intervals to look after the health of the prisoners, and to hear of the complaints if they have any with a view to their being redressed.

30. **Registration.**—15 documents of the aggregate value of Rs. 3163-4-0

were registered against 23 of the total value of Rs. 10,456-6-0 in the previous year. The income from registration was Rs. 22 against Rs. 40-8-0 last year. The work of rsgistration is done in the Dewan Office, no extra cost being incurred by the State on that account.

31. **Municipality.**—There is a municipality in the town of Dharampur only, there being no necessity for it elsewhere in the State, as the villagers reside in their huts which are apart from each other. Due steps are taken to ensure the cleanliness and sanitation of the town, and for the upkeep and lighting of the town roads. The total expenditure under this head amounted to Rs 6,371 against Rs. 3,382 the previous year.

CHAPTER IV.

32. **Season.**—The past season was generally favourable and public health good. In March last, there was slight rat mortality and grave fears were entertained at one time that there would be a regular outbreak of plague, but fortunately that was averted. In the village of Rumla, there were some cases of Cholera, but with the timely precautions that were taken, it was soon stamped out. Malaria, Dyspepsia, Bronchitis, Diarrhœa and skin-diseases have had their turn as usual during the course of the year.

The thermometer readings were as follows: —

	Maximum.	Minimum.
Last year.	102° F. H.	62° F. H.
Present year.	105° F. H.	58° F. H.

33. **Rainfall.**—The total fall of rain during the year was 91 inches and 92 cents against 93 inches and 53 cents last year, showing a decrease of 1 inch and 61 cents. The rain fall was sufficient and beneficial to the crops and fairly well distributed.

34. **Crops.**—The outturn of crops was 14 annas against 11 annas of the previous year.

35. **Wages and Labour, Prices of food grains.**—What with the cutting of the forests and the building works carried on by the State as also by private individuals, there is ample scope for the labouring class to get employment here. The rate of wages varied from 0-2-6 to 0-3-0 annas per day.

The rise in the prices of food stuffs continued throughout the year and this was very much due to the prevalence of high prices elsewhere.

The following statement shows the prices of food grains during the year under report, as compared with those of the previous year.

Articles.	During March Past year.			During March. Present year.			Remarks.
	Rs.	a.	p.	Rs.	a.	p.	
Jowar per Maund...	2	0	0	1	12	0	The rates during the year under report are comparatively lower than those of the previous year; but they exceed the normal by about 30 p. c.
Bajri „ ...	2	1	0	2	0	0	
Rice with husks „ ...	1	8	0	1	3	0	
Nagli „ ...	1	10	0	1	7	0	
Kodra „ ...	1	6	0	1	0	0	
Tuver (a kind of pulse) „ ...	2	4	0	2	0	0	

36. **Forests.**—The work relating to the demarcation of forests was done by the Survey Department. The area of the reserve forest is the same as in the previous year viz. 91,451, acres and 8 gunthas. The number of blocks is 161 against 162 of the last year. The area of protected forests was 60, 642 acres and 22 gunthas during the year against 60,442 acres and 22 gunthas the previous year, showing an increase of 200 acres. Seeds of teak, kher, harda and mhowra etc, were as usual sown during the year and they are doing well.

There were 121 forest offences against 42 of the previous year. During the year the amount of fines recovered was Rs. 237-5-3 against Rs. 174-4-3 the year before.

The forest Department is in charge of a duly qualified man.

4 fires were reported during the year against one fire last year, the damage done being almost nominal. The revenue realized by the sale of timber, bamboos etc, during the year amounted to Rs 1,12,108 against Rs 1,04,225 showing an increase of Rs. 7,883.

37. **Trade and Manufacture.**—Owing to scanty means, there is very little scope for trade on a large scale, in spite of the various facilities that are afforded by the State to petty merchants to expand their resources. Only different kinds of grain, assindra and timroo leaves for country bidis, and mhowra fruit are exported during the season.

As regards manufacture the only minor industries worth noticing are the making of baskets, mats of palm trees etc.

38. **Quarries.**—No quarry work is carried on in the State.

39. **Public works.**—The expenditure under this head amounted to Rs. 26,966 during the year under report against Rs. 10,135 the previous year. The following are some of the important works done during the year:—

(I). Original works.

		Rs.
(*a*)	Purchase of a new bungalow at Bulsar as State Utara...	3,881
(*b*)	Bridges and culverts etc.....	5,523
(*c*)	Additions to the Public garden building.	2,210
(*d*)	Additions to Hazur Haveli and Mohanvilas	7,458
(*e*)	Cattle sheds...	1,760
		20,832
(II).	Repairs...	4,730

40. **Irrigation.**—There are no irrigation works in the State.

41. **Post and Telegraph Office.**—There is one combined Post and Telegraph Office in the town of Dharampur.

42. **Bulsar Dharampur Railway.**—Negotiations are going on with Government, through Messrs. Killick Nixon and Co. of Bombay, for the construction of this railway, and if Government be pleased to accord their sanction and the project be carried out, it will prove very beneficial to the State as also to the general public.

43. **Mint.**—There is no mint in the State.

44. **Condition of the people.**—The majority of the people consist of Kaliparaj men who for the most part subsist on cultivation and their condition is, no doubt, showing signs of improvement. Being of migratory habits the slightest reason is enough to induce them to leave one place for another. The State is, however, doing its best to induce them to settle in one place, and to attain that object timber worth Rs. 6,605-10-0 was given to them free for the construction of semi pucca buildings. In like manner every encouragement is afforded to them for sinking pucca wells that they may settle in one place.

The Ujaliat cultivators who form a minority are on the whole better off than the Kaliparaj Ryots. Carpenters, black-smiths and other petty artizans earn their livelihood easily, as they are in great demand here.

The trading classes who generally deal in grain made good profits this year on account of the high prices of food stuffs that prevailed throughout the year.

The condition of the Mahomedans is fairly good. Most of them are in the service of the State. A few of them also follow cultivation. The Parsees whose number here is very small are in good condition. They either keep liquor shops or own large lands.

45. **Bee-Khavti Loan Association.**—This institution which was started some years ago for the benefit of the Kaliparaj cultivators continues doing its good work as before.

The following table shows the working of the institution:—

Year.	No. of persons taking advantage of the loans.	Advanced amount.	Interest.	Recovered amount.	Balance to be recovered at the end of the year.	Remarks.
	Rs.	Rs.	Rs.	Rs.	Rs.	
1907–08	443	4,708-0-0	588– 8–0	5,028–2-0	268–6–0	
1908–09	697	7,602-8-0	712–11–9	8,315–3-9	...	

CHAPTER V.

Revenue and Finance.

46. **Revenue.**—The total gross revenue amounted to Rs. 5,27,334 against Rs. 4,34,678 the previous year, showing an increase of Rs 92,656.

The principal items of revenue are as follows:—

	1907-08	1908-09
Land Revenue.	2,13,426	2,35,172
Abkari	1,04,165	1,57,800
Forests	1,04,225	1,12,108
Miscellaneous	12,862	15,245
Recovery of former dues	... ...	7,009
Total Rupees.	4,34,678	5,27,334.

47. **Land Revenue.**—There has been a steady increase in the land revenue of the State as may be seen from the following figures:—

Year.	Land Revenue.
1903-04	1,81,474
1904-05	1,99,139
1905-06	2,09,421
1906-07	2,10,350
1907-08	2,13,426
1908-09	2,35,172

48. Forest revenue rose during the year from Rs. 1,04,225 to Rs. 1,12,108.

49. **Chowth Jakat.**—The receipts under this head are Rs. 7,929 against Rs. 6,626 last year.

50. No Local Fund cess is levied in this State.

51. **Opium.**—The revenue from opium is not very great and that is because the consumption of opium in the State is getting less and less every year, the quantity consumed during the year being 80 seers and 20 tolas against 85 seers and 5½ tolas, the previous year. The opium Ijara fetched Rs. 113 against 94 last year.

52. **Abkari.**—Dharampur, Mandva and Fatehpoor are the only 3 distilleries in the State where liquor is distilled and issued to the shop-keepers. The 5 years' Abkari farm given to Messrs. Pestonji Rattanji & Co., ended in June 1908 and a fresh contract for 5 years was entered into with Messrs. Mancherji and Rattanji Shapurji Tata in 1908-09 for a yearly minimum sum of Rs. 1,40,001 against Rs. 90,001 under the previous contract, on account of still head duty, establishment charges etc. During the year under report the quantity of liquor consumed was 14,584 gallons of 25° U. P., and 3,97,930 gallons of 60° U. P., against 13,136½ gallons of 25° U. P., and 3,58,795 gallons of 60° U. P., the previous year.

53. **Excise.**—The total Abkari Revenue from Bhang, Ganja, Opium, Toddy and liquor amounted to Rs. 1,57,800 against Rs. 1,04,165 the preceding year, showing an increase of Rs. 53,635. Sufficient establishment has been maintained by the State as also by the farmer to look after the working of the Department and to prevent illicit distillation of liquor etc.

The number of Abkari offences was 20 against 6 the previous year.

54. **Expenditure.**—The total expenditure during the year amounted to Rs. 5,30,162 against Rs. 4,37,396 the previous year. The increase in expenditure is chiefly due to the following causes:—

(*a*). Reorganization of the different departments of the State with a view to their being better equipped and made more efficient.

(*b*). Rise in the prices of food provisions and enhancement in the rate of wages.

(*c*). Outlay on urgent public works such as bridges, culverts, public roads, buildings etc.

(*d*). Purchase of new horses, carriages etc.

(*e*). Condolence visit of Raniji to Virpur on account of the premature and lamentable death of her brother K. S. Jethiji of Virpur who was in British service as Veterinary Surgeon at Nagpur.

55. **Debts.**—The amount of debt at the close of the last year was Rs. 4,01,898. During the year Rs. 94,013 were paid in liquidation of the debt against

Rs. 70,559 last year.' Among the debts paid off this year is included the last instalment of the Government loan of Rs. 1,40,000 that was granted by them in 1900. Thus no amount in respect of the loan now remains due to Government. At the end of the year the amount of debt was Rs. 3,66,855, of which nearly four-fifths is at 4 p. c. and the rest at 9 p. c.

CHAPTER VI.

Vital Statistics.

56. **Medical relief.**—The Jubilee Charitable Dispensary is fully equipped and is in charge of a duly qualified Medical Graduate of the Bombay University. There is also a travelling dispensary looked after by a qualified Hospital Assistant who goes round the State villages and attends to the health of the villagers.

The number of patients treated during the year under report and other particulars are given in statement XXIII. Most of the indoor patients treated in the Jubilee Dispensary were Kaliparaj people.

In the travelling Dispensary almost all the patients treated were Kaliparaj people.

The number of lepers taking advantage of the Leper Asylum is increasing, the number during the year under report being 38. Of these 1 left the Asylum, 1 died and 36 remained under treatment at the close of the year. The daily average attendance rose from 28·8 last year to 34·6 this year and the expenditure from Rs. 1,132 to Rs. 1,607.

57. **Births and Deaths.**—The Talatis of the villages keep registers of births and deaths and submit monthly returns. The following table shows the number of births and deaths:—

	1907–08	1908–09	Increase.	Decrease.	Remarks.
Births ...	3,093	3,064	...	29	
Deaths ...	2,027	1,830	...	197	

58. **Vaccination.**—The vaccination work of the State is done by 4 trained vaccinators under the supervision of the Chief Medical Officer who is assisted by one Inspector. The amount of expenditure incurred by the State under this head and the number of children vaccinated are shown in Statement XXV.

59. **Plague.**—As mentioned above in para 32 there was rat mortality in March last and there were some symptoms of plague but with the prompt measures

that were taken at the time nothing serious happened.

CHAPTER VII.

Instruction.

60. **Education.**—The most important change worth mentioning in the Educational Department is the raising of the Anglo-Vernacular School into a High School called the MAHARANA SHREE MOHANDEVJI HIGH SCHOOL teaching St. VII. Thanks to the University Syndicate it has been affiliated to the Bombay University. The number of schools is the same as last year, *viz.* 23. As regards fees, for some portion of the year education was imparted free in all the Schools except the High School, but there too since January last fees have been abolished in commemoration of my birth-day. Thus education is imparted free both to boys and girls in all the State Schools.

The following table contains particulars regarding the attendance of pupils in the State schools:—

No. of pupils on rolls on 31st March 1908.	No. of pupils on rolls on 31st March 1909.	Average daily attendance 1908.	Average daily attendance 1909.	Remarks.
927	948	466·5	638·7	

The monthly average attendance during the year for all the schools together was 611·5 against 422·9 last year.

The results of the annual examination are given below:—

	No. examined.	No. passed.	Percentage.
Village Schools... ...	482	246	51
Town Schools... ...	333	201	60·3

The village schools are mostly attended by Kaliparaj boys, and are inspected from time to time by a trained Kaliparaj Inspector. Most of the teachers in these schools are Kaliparaj. As the majority of the pupils especially in the village schools are poor, the State supplies them with books etc; and Kaliparaj parents are persuaded to send their children to school. The State Nyayadhish is in charge of the Educational Department as Superintendent.

The Mahar School is in charge of a Mahar, the number of pupils attending the school being 11.

The High School is in charge of a B. A., graduate of the Bombay University.

61. **Physical Education.**—The High School is supplied with Cricket and many boys take advantage of it. A Gymnasium is also attached to the school and drill exercises are gone through regularly under a drill Master.

The expenditure on education rose during the year from Rs. 8,344 to Rs. 8,756, the fees realized being Rs. 128.

62. **School Buildings.**— The town schools are located in suitable buildings and due steps are being taken to provide village schools with tiled roof buildings.

CHAPTER VIII.

Miscellaneous.

63. **Printing Press.**—The State has a printing press where forms, stamps etc, are printed. There is also a lithographic press where maps prepared by the Survey Department are printed.

64. **Library.**—The Maharana Shree Narandevji Library contains a large stock of useful and interesting books. It subscribes for 13 News-papers and magazines.

The balance at the end of the last year was Rs. 37-11-5. The receipts during the year amounted to Rs 350-0-0 inclusive of the grant of Rs. 200 from the Darbar. Out of the total Rs 319-4-9 were spent on establishment etc, leaving a balance of Rs. 68-6-8

65. **Record room.**—The State records after being properly sorted, indexed and labelled are preserved in this room.

66. **Wild Animals.**—There are many wild animals in the state. No shikar was made this year by any European officer or gentleman.

67. **Fairs.**—The only fair worth noticing is the one held at Fatehpur in the month of Chaitar (April).

68. **Jurisdiction.**—The magisterial powers conferred on the Jahagirdar of Behej have been still continued to him.

69. **King Emperor'sBirth-Day.**—The birth day of His Most Gracious Majesty The King Emperor was duly celebrated and a salute of 31 guns was fired in honour of the occasion.

70. **The Proclamation day.**—The 2nd of November 1908 was observed as a general holiday and in honour of the event a salute of 31 guns was fired and five prisoners were released from the Jail.

71. **The Empire day.**—The 24th of May was also celebrated with due eclat and a salute of 31 guns was fired.

72. **Concluding remarks.**—I cannot close this report without expressing my gratitude to Government and the Political Agent for the unfailing support and good advice which I have received from them from time to time. I should also like to express my hearty appreciation of the way in which my Dewan Mr. S.G. Jayakar has loyally and zealously helped me to carry on the work of the State.

I am,

Your sincere friend,

DHARAMPUR.
3rd September, 1909.

(Sd.) MAHARANA SHRI MOHANDEVJI RANA,

Raja Saheb of Dharampur State.

APPENDICES.

Appendix I.

LIST of high Officials in the Dharampur State, showing changes in the personnel during the year 1908–09.

Name of Officer.	Appointment.	Period. From	Period. To	Remarks.
